**AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THIS BASE
PROSPECTUS AND THE PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME
IN RELATION TO THIS BASE PROSPECTUS**

1. The "Programme Summary in relation to this Base Prospectus" on pages 7 to 64 of the Base Prospectus is amended as follows:
 - (a) In Element B.19/B.4b, the first four paragraphs and the title under the sub-heading "***In respect of BNPPF:***" are deleted and replaced with the following:

"Macroeconomic environment

Market and Macroeconomic conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been at times challenging and volatile in recent years.

In 2015, the global economic activity remained sluggish. Activity slowed down in emerging countries, while a modest recovery continued in developed countries. The global outlook is still impacted by three major transitions: the diminished economic growth in China, the fall in prices of energy and other commodities, and an initial tightening of US monetary policy in a context of resilient internal recovery, while the central banks of several major developed countries are continuing to ease their monetary policies. For 2016, the International Monetary Fund (the "**IMF**") is forecasting the progressive recovery of global economic activity¹ but with low growth prospects on the medium term in developed and emerging countries.

While the exposure of the BNP Paribas Group in emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the BNP Paribas Group (including BNPPF) and potentially alter its results.

In numerous emerging economies, an increase in foreign currency commitments was observed in 2015, while the levels of indebtedness (both in foreign and local currencies) are already high. Moreover, the prospects of a progressive hike in key rates in the United States (first rate increase decided by the Federal Reserve in December 2015), as well as heightened financial volatility linked to the concerns regarding growth in emerging countries, have contributed to the stiffening of external financial conditions, capital outflows, further currency depreciations in numerous emerging countries and an increase in risks for banks. This could lead to the downgrading of sovereign ratings."

- (b) In Element B.19/B.4b, the last paragraph under the sub-heading "***In respect of BNPPF:***" is deleted and replaced with the following:

"The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BNPPF, include in particular the EU Directive and Regulation on prudential requirements "CRD IV" dated 26 June 2013 and many of whose provisions have been applicable since 1 January 2014; the proposals of technical regulatory and execution rules relating to the Directive and Regulation CRD IV published by the EBA; the Belgian Banking Law dated 25 April 2014 replacing the previous law of 1993 and introducing important changes; the Belgian Royal Decree dated 22 February 2015 determining the entry into force of the Belgian Banking Law provisions relating to resolution (including the establishment of a Belgian Resolution Authority) and creating two preferential rights on the bank's movables; and the Belgian Royal Decree dated 18 December 2015 amending the law of 25 April 2014 on the status and supervision of credit institutions and the Royal Decree of 26 December 2015 amending the law of 25 April 2014 on the

status and supervision of credit institutions relating to the resolution and recovery of group failures, both Royal Decrees being ratified by the Act of 27 June 2016; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No596/2014; the European Single Supervisory Mechanism; the European Single Resolution Mechanism dated 15 July 2014 and the European Directive on Bank Recovery and Resolution dated 15 May 2014; the European Directive on Revised Deposit Guarantee Schemes dated 16 April 2014; the final rule for the regulation of foreign banks imposing certain liquidity, capital and other prudential requirements adopted by the U.S. Federal Reserve; the proposal of the U.S. Federal Reserve relating to liquidity ratios of large banks; and the "Volcker" Rule imposing certain restrictions on investments in or sponsorship of hedge funds and private equity funds and proprietary trading activities (of U.S. banks and to some extent non-U.S. banks) that was recently adopted by the U.S. regulatory authorities. More generally, regulators and legislators in any country may, at any time, implement new or different measures that could have a significant impact on the financial system in general or BNPPF in particular."

**AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THIS BASE
PROSPECTUS (IN FRENCH) AND THE PRO FORMA ISSUE SPECIFIC SUMMARY OF THE
PROGRAMME IN RELATION TO THIS BASE PROSPECTUS (IN FRENCH)**

1. Le "Résumé du Programme en relation avec le Prospectus de Base" figurant aux pages 65 à 131 du Prospectus de Base est modifié comme suit:
 - (a) Dans l'Élément B.19/B.4b, les trois premiers paragraphes et le titre sous le sous-titre "*En ce qui concerne BNPPF* :" sont supprimés et remplacés comme suit :

"Conditions Macroéconomiques.

L'environnement de marché et macroéconomique affecte les résultats de BNPPF. Compte tenu de la nature de son activité, BNPPF est particulièrement sensible aux conditions de marché et macroéconomiques en Europe, qui ont connu des perturbations au cours des dernières années.

En 2015, l'activité économique mondiale est restée modérée. Dans les pays émergents, l'activité a ralenti tandis qu'une reprise modeste s'est poursuivie dans les pays développés. Trois transitions importantes continuent d'influer sur les perspectives mondiales : la croissance économique diminuée en Chine, la baisse des prix de l'énergie et d'autres produits de base et un premier durcissement de la politique monétaire aux États-Unis dans le contexte d'une reprise interne résiliente tandis que les banques centrales de plusieurs grands pays développés continuent d'assouplir leur politique monétaire. Les prévisions économiques du Fonds Monétaire International ("**FMI**") pour l'année 2016 tablent sur une reprise progressive de l'activité mondiale³, mais avec de faibles perspectives de croissance à moyen terme dans les pays développés et dans les pays émergents.

Bien que l'exposition du Groupe BNP Paribas dans les pays émergents soit limitée, la vulnérabilité de ces économies peut conduire à des perturbations du système financier mondial qui toucheraient le Groupe BNP Paribas (y compris BNPPF) et pourraient affecter ses résultats."

- (b) Dans l'Élément B.19/B.4b, le dernier paragraphe sous le sous-titre "*En ce qui concerne BNPPF* :" est supprimé et remplacé comme suit :

"Les mesures adoptées récemment ou encore en projet, qui ont, ou sont susceptibles d'avoir un impact sur BNPPF, comprennent notamment la Directive et le Règlement sur les fonds propres réglementaires dits « CRD 4 », du 26 juin 2013 et dont un nombre important de dispositions sont applicables depuis le 1er janvier 2014, les projets de normes techniques de réglementation et d'exécution relatives à la Directive et au Règlement CRD 4 élaborées par l'EBA, la Loi Bancaire belge du 25 avril 2014 remplaçant la loi précédente de 1993 et introduisant d'importants changements : l'Arrêté Royal belge du 22 février 2015, fixant la date d'entrée en vigueur des dispositions de la Loi Bancaire belge relative à la résolution (y compris la mise en place du Collège de Résolution Belge) et créant deux droits préférentiels sur les actifs mobiliers de la banque ; et l'Arrêté Royal belge du 18 décembre 2015 modifiant la loi du 25 avril 2014 relative au statut et au contrôle des établissements de crédit et l'Arrêté Royal belge du 26 décembre 2015 modifiant la loi relative au statut et au contrôle des établissements de crédit concernant le redressement et la résolution des défaillances de groupes, ces deux Arrêtés Royaux ont été ratifiés par la Loi du 27 juin 2016 ; la consultation sur la réforme structurelle du secteur bancaire de l'Union Européenne de 2013 et la proposition de la Commission Européenne de réforme structurelle du secteur bancaire européen du 29 janvier 2014 ; le Règlement (UE) 2016/1011 du Parlement Européen et du Conseil du 8 juin 2016 concernant les indices utilisés comme indices de référence dans le cadre d'instruments et de contrats financiers ou pour mesurer la performance de fonds d'investissement et modifiant les

Au-delà de ces mesures, l'investisseur doit être conscient qu'à tout moment les autorités réglementaires, prudentielles ou politiques de tout pays sont susceptibles de prendre de nouvelles décisions impactant les banques ou le système financier dans son ensemble et dont l'effet sur BNPPF peut être significatif."

AMENDMENTS TO THE RISK FACTORS

In relation to the amendments to the Risk Factors section set out in this section: (i) text which, by virtue of this Fourth Supplement, is deleted therefrom is shown with a line drawn through the middle of the deleted text, and (ii) text which, by virtue of this Fourth Supplement is added thereto is shown underlined.

The Risk Factors section on pages 268 to 354 of the Base Prospectus is amended as follows:

- (a) The fourth paragraph under the sub-heading "*Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPPF and the financial and economic environment in which it operates*" starting on page 282 of the Base Prospectus is amended as follows:

In addition to the SSM, the EU Bank Recovery and Resolution Directive of 15 May 2014 ("**BRRD**"), implemented in Belgium by the Belgian Banking Law of 25 April 2014, the Royal Decree of 18 December 2015 and the Royal Decree of 26 December 2015 amending the law of 25 April 2014; and the Act of 27 June 2016, strengthens the tools to prevent and resolve banking crises, in particular, in order to ensure that any losses are borne in priority by banks' creditors and shareholders and to minimize taxpayers' exposure to losses and provides for the implementation of resolution funds at the national levels. Under the BRRD and the Law of 25 April 2014, the ACPR or the Single Resolution Board (the "**SRB**"), which was established by Regulation of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism ("**SRM**") and a Single Resolution Fund ("**SRF**"), may commence resolution proceedings in respect of a banking institution, such as BNPPF, with a view to ensure the continuity of critical functions, to avoid the risks of contagion and to recapitalize or restore the viability of the institution. Resolution tools are to be implemented so that, subject to certain exceptions, losses are borne first by shareholders, then by holders of capital instruments (such as subordinated bonds) qualifying as additional tier 1 and tier 2 instruments, and finally by creditors in accordance with the order of their claims in normal insolvency proceedings. Certain powers, including the power to write-down capital instruments (including subordinated bonds), can also be exercised as a precautionary measure, outside of resolution proceedings. The implementation of these tools and powers may result in significant structural changes to the relevant financial institutions (including as a result of asset or business sales or the creation of bridge institutions) and in a partial or total write-down of claims of their shareholders and creditors (including subordinated and senior creditors).

- (b) The third paragraph under the sub-heading "*Implementation of BRRD in Belgium*" starting on page 304 of the Base Prospectus is amended as follows:

These royal decrees entered into force on 1 January 2016 and ~~are hence currently in full effect~~ were ratified by the law of 27 June 2016.

AMENDMENTS TO THE DESCRIPTION OF BNPPF

In relation to the amendments to the Description of BNPPF set out in this section: (i) text which, by virtue of this Fourth Supplement, is deleted therefrom is shown with a line drawn through the middle of the deleted text, and (ii) text which, by virtue of this Fourth Supplement is added thereto is shown underlined.

The Description of BNPPF on pages 1081 to 1095 of the Base Prospectus is amended as follows:

- (a) the paragraphs under the heading "**8. Trend information**" are amended as follows:

Macroeconomic environment.

Market and macroeconomic conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been at times challenging and volatile in recent years.

In 2015, the global economic activity remained sluggish. Activity slowed down in emerging countries, while a modest recovery continued in developed countries. The global outlook is still impacted by three major transitions: the ~~slowing-diminished~~ economic growth in China, the fall in prices of energy and other commodities, and an initial tightening of US monetary policy in a context of resilient internal recovery, while the central banks of several major developed countries are continuing to ease their monetary policies. For 2016, the IMF is forecasting the progressive recovery of global economic activity but with low growth prospects on the medium term in developed and emerging countries.

While the exposure of the BNP Paribas Group in emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the BNP Paribas Group (including BNPPF) and potentially alter its results.

In numerous emerging economies, an increase in foreign currency commitments was observed in 2015, while the levels of indebtedness (both in foreign and local currencies) are already high. Moreover, the prospects of a progressive hike in key rates in the United States (first rate increase decided by the Federal Reserve in December 2015), as well as heightened financial volatility linked to the concerns regarding growth in emerging countries, have contributed to the stiffening of external financial conditions, capital outflows, further currency depreciations in numerous emerging countries and an increase in risks for banks. This could lead to the downgrading of sovereign ratings.

Given the possible standardisation of risk premiums, there is a risk of global market disruptions (rise in risk premiums, erosion of confidence, decline in growth, postponement or slowdown in the harmonisation of monetary policies, drop in market liquidity, problem with the valuation of assets, shrinking of the credit offering, and chaotic de-leveraging) that would affect all banking institutions.

The continuation of a situation with exceptionally low interest rates could promote excessive risk-taking by certain financial players: increase in the maturity of loans and assets held, less stringent loan granting policies, increase in leverage financing.

Some players (insurance companies, pension funds, asset managers, etc.) entail an increasingly systemic dimension and in the event of market turbulence (linked for instance to a sudden rise in interest rates and/or a sharp price correction) they may decide to unwind large positions in an environment of relatively weak market liquidity.

Such liquidity pressure could be exacerbated by the recent increase in the volume of assets under management placed with structures investing in illiquid assets.

Laws and Regulations Applicable to Financial Institutions.

Laws and regulations applicable to financial institutions that have an impact on BNPPF have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies.

The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BNPPF, include in particular the EU Directive and Regulation on prudential requirements "CRD IV" dated 26 June 2013 and many of whose provisions have been applicable since 1 January 2014; the proposals of technical regulatory and execution rules relating to the Directive and Regulation CRD IV published by the EBA; the Belgian Banking Law dated 25 April 2014 replacing the previous law of 1993 and introducing important changes; the Belgian Royal Decree dated 22 February 2015 determining the entry into force of the Belgian Banking Law provisions relating to resolution (including the establishment of a Belgian Resolution Authority) and creating two preferential rights on the bank's movables; and the Belgian Royal Decree dated 18 December 2015 amending the law of 25 April 2014 on the status and supervision of credit institutions and the Royal Decree of 26 December 2015 amending the law of 25 April 2014 on the status and supervision of credit institutions relating to the resolution and recovery of group failures; both Royal Decrees being ratified by the Act of 27 June 2016; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014; the proposal for a regulation on indices used as benchmarks in financial instruments and financial contracts; the European Single Supervisory Mechanism; the European Single Resolution Mechanism dated 15 July 2014 and the European Directive on Bank Recovery and Resolution dated 15 May 2014; the European Directive on Revised Deposit Guarantee Schemes dated 16 April 2014; the final rule for the regulation of foreign banks imposing certain liquidity, capital and other prudential requirements adopted by the U.S. Federal Reserve; the proposal of the U.S. Federal Reserve relating to liquidity ratios of large banks; and the "Volcker" Rule imposing certain restrictions on investments in or sponsorship of hedge funds and private equity funds and proprietary trading activities (of U.S. banks and to some extent non-U.S. banks) that was recently adopted by the U.S. regulatory authorities. More generally, regulators and legislators in any country may, at any time, implement new or different measures that could have a significant impact on the financial system in general or BNPPF in particular.

There has been no significant change in the financial or trading position of BNPPF since 31 December 2015-30 June 2016 (being the end of the last financial period for which interim financial statements have been published).

- (b) The paragraph under the heading "**11. Significant change in BNPPF's financing or trading position**" is amended as follows:

There has been no significant change in the financial or trading position of BNPPF since 31 December 2015-30 June 2016 (being the end of the last financial period for which interim financial statements have been published).
