ABOUT THIS BASE PROSPECTUS

The following applies to Non-exempt Notes only.

What is this document?

This document (the "**Base Prospectus**") describes a programme for the issue of debt securities named the Euro Medium Term Note Programme (the "**Programme**") under which BNP Paribas Fortis SA/NV ("**BNPPF**") and BNP Paribas Fortis Funding ("**BP2F**" and together with BNPPF, the "**Issuers**" and each an "**Issuer**") may, from time to time, issue notes (the "**Notes**"). This Base Prospectus supersedes and replaces in its entirety the Base Prospectus dated 6 June 2018.

This Base Prospectus has been published by BP2F and BNPPF to allow them to offer Notes to the public in certain jurisdictions in Europe and/or to list Notes on a EU regulated market. As more fully described below, the content of this Base Prospectus is subject to the Prospectus Directive 2003/71/EU (as amended or superseded) and any relevant implementing measure applied in a relevant Member State.

The Notes will be issued on an ongoing basis and in series (each a "**Series**") each comprised of tranche(s) (each a "**Tranche**") of Notes (a) that are expressed to be consolidated and form a single series and (b) that have either the same terms and conditions or terms and conditions that are the same in all respects apart from the amount and date of the first interest payment and the date from which interest starts to accrue. The Issuers will offer Notes through BNP Paribas Fortis SA/NV (as a Dealer). Additional dealers may be appointed under the Programme from time to time, for a specific Tranche of Notes or on an ongoing basis. The details of the relevant Dealer(s) relating to a specific Tranche of Notes will be given in the relevant Final Terms (as defined below). For further details, see the section entitled "*Plan of Distribution*" starting on page 178. The terms and conditions of the Notes (including the issue price, specified currency and the denomination) will be as agreed between the relevant Issuer and the relevant Dealer(s).

Notes issued by BP2F will be guaranteed on a subordinated or unsubordinated basis by BNP Paribas Fortis SA/NV (the "**Guarantor**").

You should read and understand fully the contents of this Base Prospectus, including any documents incorporated by reference, together with the applicable Final Terms before deciding whether to invest in any Notes. This document contains important information about the Issuers, the Guarantor and the terms of the Notes and the Guarantees. It also describes some of the risks relating to the Issuers and the Guarantor and their businesses, as well as other risks relating to an investment in the Notes (as further described in the section entitled "*Risk Factors*" starting on page 65) and is intended to provide investors with the information necessary to enable them to make an informed investment decision before purchasing any Notes.

This Base Prospectus is valid for one year from the date hereof and may be supplemented occasionally to reflect any significant new factor, material mistake or inaccuracy relating to the information included in it.

What type of Notes does this Base Prospectus relate to?

This Base Prospectus relates to the issue of different types of Notes:

1. Senior Notes, which constitute direct, unconditional, unsubordinated and unsecured obligations of the relevant Issuer;
2. Senior Subordinated Notes, which constitute senior subordinated obligations of the relevant Issuer;

3. Junior Subordinated Notes, which constitute direct, unsecured and junior subordinated obligations of the relevant Issuer. In the case of Junior Subordinated Notes (as defined in the Conditions) issued by BP2F only, payments of principal and interest are conditional upon the Guarantor being solvent at the time of payment and in the event of the winding-up of BP2F, the Guarantor shall become the principal debtor and the holders of the relevant Notes shall cease to have any rights or claims against BP2F, as more fully described in the section entitled "*Terms and Conditions of the Notes – Status and Guarantee*" and "*Terms and Conditions of the Notes – Events of Default*"; and
4. Subordinated Tier 2 Notes, which constitute direct, unconditional and unsecured obligations of the relevant Issuer.

Any such issue of Notes may be:

1. Fixed Rate Notes, on which the relevant Issuer will pay interest at a fixed rate;
2. Floating Rate Notes, on which the relevant Issuer will pay interest at a floating rate;
3. Zero Coupon Notes, which are issued at a discount and which do not pay interest;
4. Variable Rate Notes, interest in respect of which is linked to the performance of one or more indices, currency exchange rates, underlying reference rates or formulae;
5. Fixed Redemption Amount Notes, which are redeemable at par or at a premium or discount to par;
or
6. Variable Redemption Amount Notes, the redemption amounts in respect of which are linked to the performance of one or more indices, currency exchange rates, underlying reference rates or formulae.

Notes may also be issued which are a combination of these options.

How do I use this Base Prospectus?

The Prospectus Directive requires that the Base Prospectus contains all information which is necessary to enable investors to make an informed decision regarding (a) the financial position and prospects of the Issuers and (where applicable) the Guarantor and (b) the rights attaching generally to Notes issued under the Programme. The information in the Base Prospectus is completed, in respect of a particular Tranche of Non-exempt Notes, by a Final Terms document setting out details specific to that Tranche. A Summary of the terms of the relevant Tranche (based on the form of the Summary set out in this Base Prospectus) will be attached to the relevant Final Terms where the Notes have a denomination of less than EUR100,000 (or the equivalent in any other currency). Information in the Base Prospectus is completed, supplemented, modified or replaced, in respect of a particular issue of Exempt Notes, by a Pricing Supplement document (as defined below) that sets out details specific to that Tranche. References in this Base Prospectus to Pricing Supplements do not apply and may be disregarded in relation to Non-exempt Notes.

The contractual terms of a particular Tranche of Notes will comprise the terms and conditions set out under the heading "*Terms and Conditions of the Notes*" starting on page 227 of this Base Prospectus (the "**Conditions**"), the provisions of any Global Note as set out under the heading "*Summary of Provisions Relating to Global Notes and Certain Provisions with Respect to Dematerialised Notes*" starting on page 349 of this Base Prospectus, as completed by the applicable Final Terms (the Conditions, the provisions of any relevant Global Note together with the relevant Final Terms, the "**Terms and Conditions**").

What other documents should I read?

The Base Prospectus, together with the relevant Final Terms, contains all information which is necessary to enable investors to make an informed decision regarding the financial position and prospects of the Issuers and (where applicable) the Guarantor and the rights attaching to the Notes. Some of this information (such as the latest publicly available information relating to the Issuers and the Guarantor) is incorporated by reference into the Base Prospectus and some of this information is completed in the relevant Final Terms.

You should read and understand fully the contents of this Base Prospectus, including any documents incorporated by reference, together with the applicable Final Terms before deciding whether to invest in any Notes.

The Base Prospectus, together with any supplements thereto, and the Final Terms of any Tranches admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system and issued under the Base Prospectus will be available (a) in the case of Notes listed on the official list and admitted to trading on the Luxembourg Stock Exchange, on the website of the Luxembourg Stock Exchange, www.bourse.lu, and (b) in the case of Notes listed on the official list and admitted to trading on the Luxembourg Regulated Market, the Brussels Regulated Market and/or the Amsterdam Regulated Market, the applicable Final Terms will be published at www.bnpparibasfortis.be. This Base Prospectus includes information that is relevant to all types of Notes that may be issued under the Programme. However, some of the sections only relate to particular types of Notes.

The information under the heading "*Restrictions and Conditions for the use of this Base Prospectus*" starting on page 169 of the Base Prospectus only applies to Notes with a denomination of less than EUR 100,000 (or its equivalent in any other currency) which may be placed or otherwise offered by financial intermediaries, subject to the conditions described therein.

Certain other information in the Base Prospectus applies to Exempt Notes (being Notes for which no prospectus is required to be published under the Prospectus Directive) and/or Non-exempt Notes (which are Notes for which a prospectus is required to be published under the Prospectus Directive), in each case as further described below, as specified in the relevant section of the Base Prospectus.

As described above, certain of the Conditions provide optional provisions that will only apply to some of the issues of Notes. The relevant Final Terms will specify which optional provisions within the Conditions will apply to a specific issue of Notes.

What if I have further queries relating to this Base Prospectus and the Notes?

If you have any questions about the content of this Base Prospectus, you should seek professional advice from a broker, solicitor, accountant or an independent financial adviser before deciding whether to invest.

The following applies to all issues of Notes.

The Base Prospectus

*This document is a Base Prospectus that has been prepared for the Programme. It comprises two base prospectuses, the BNPPF Base Prospectus and the BP2F Base Prospectus. Both are defined below and each, as periodically revised, supplemented or amended by the Issuers and/or the Guarantor, constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive. Therefore, Notes issued under the Programme may be offered to the public or/and admitted to trading on a regulated market, subject to the relevant implementing measures of the Prospectus Directive in the relevant Member State (as defined below). The term "**regulated market**" used in this document means a regulated market as defined in the Markets in Financial Instruments Directive (as amended) (Directive 2014/65/EU). When used in this Base Prospectus, "**Prospectus Directive**" means Directive 2003/71/EU (as amended or superseded) and includes any relevant implementing measure in a relevant Member State.*

*The BNPPF base prospectus (the "**BNPPF Base Prospectus**") consists of this Base Prospectus except for:*

- (a) the information in the sections entitled "Description of BNP Paribas Fortis Funding SA/NV" and "Description of the Guarantee"; and*
- (b) BP2F's audited annual accounts for the financial years ended 31 December 2017 and 31 December 2018 and the cash flow statements for the financial years ended 31 December 2017 and 31 December 2018 (as incorporated by reference at paragraphs 3, 4, 5 and 6 of the section entitled "Information Incorporated by Reference in this Base Prospectus").*

*The BP2F base prospectus (the "**BP2F Base Prospectus**") consists of this Base Prospectus.*

Any Notes issued under the Programme are issued subject to the provisions below. This does not affect any Notes already issued or any Notes issued after the date of this Base Prospectus and forming a single Series with Notes issued before that date. This Base Prospectus should be read in conjunction with any supplement to this Base Prospectus and any other documents or information incorporated by reference in it (see "Information Incorporated by Reference in this Base Prospectus") and must be read and construed together with the relevant Final Terms, as described below.

Approval of the Base Prospectus, offers to the public and listing

*This Base Prospectus has been approved by the Luxembourg Commission de Surveillance du Secteur Financier (the "**CSSF**") as a base prospectus issued in compliance with the Prospectus Directive, the Luxembourg Law dated 10 July 2005 on prospectuses for securities, as amended (the "**Prospectus Act 2005**") and any other relevant implementing legislation in Luxembourg, for the purpose of giving information about the issue of Notes ("**Non-exempt Notes**") under the Programme during the twelve-month period after the date of approval of this Base Prospectus.*

The CSSF is the Luxembourg competent authority for the purposes of the Prospectus Directive. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuers or the Guarantor in accordance with Article 7(7) of the Prospectus Act 2005. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes admitted to trading on the multilateral trading facilities of the Euro MTF (as defined below).

*The CSSF has been asked to provide the Belgian Financial Services and Markets Authority (the "**Belgian FSMA**"), the Dutch Autoriteit Financiële Markten ("**AFM**") and the French Autorité des marchés financiers ("**AMF**") (in their respective capacities as the relevant host Member States' competent authority for the purposes of the Prospectus Directive) with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Directive for the purposes of the offer and admission to trading on a regulated market of Non-exempt Notes in those Member States. The CSSF may be asked occasionally to provide certificates of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Directive to the competent authorities of other Member States.*

Because this Base Prospectus has been approved as a Base Prospectus and published as provided below, Non-exempt Notes issued under the Programme pursuant to this Base Prospectus may be offered to the public, in accordance with the requirements of the Prospectus Directive.

*Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to listing on the official list (the "**Official List**") and to trading on the regulated market of the Luxembourg Stock Exchange (Bourse de Luxembourg) (the "**Luxembourg Regulated Market**") or on the professional segment of the Luxembourg Regulated Market. Application may also be made for Notes issued under the Programme to be admitted to trading on the regulated market of Euronext Amsterdam (the "**Amsterdam Regulated Market**") and the regulated market of Euronext Brussels (the "**Brussels Regulated Market**"), in each case under the Prospectus Directive during the twelve-month period after the date of approval of this Base Prospectus. The Luxembourg Regulated Market (including the professional segment of the Luxembourg Regulated Market), the Amsterdam Regulated Market and the Brussels Regulated Market are each a regulated market for the purposes of Directive 2014/65/EU. Application may also be made for Notes issued under the Programme to be admitted to trading on other regulated markets.*

*The requirement for a prospectus to be approved and published in accordance with the Prospectus Directive applies only to Notes that are to be admitted to trading on a regulated market in the European Economic Area (the "**EEA**") and/or that are to be offered to the public in the EEA other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive. References in this Base Prospectus to "**Exempt Notes**" are to Notes for which no prospectus is required to be published under the Prospectus Directive. The CSSF has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Notes.*

*Application has been made to the Luxembourg Stock Exchange for the approval of this Base Prospectus with respect to Exempt Notes as a base prospectus for the purposes of Part IV of the Prospectus Act 2005. Application has also been made to the Luxembourg Stock Exchange for Notes (including Exempt Notes) issued under the Programme to be admitted to the Official List and admitted to trading on the Euro MTF Market of the Luxembourg Stock Exchange (the "**Euro MTF**") (including the professional segment of the Euro MTF) during the twelve-month after the date of approval of this Base Prospectus. The Euro MTF is not a regulated market for the purposes of Directive 2014/65/EU.*

Under the Programme, Notes may be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or on the basis that they will be admitted to listing, trading and/or quotation by any other listing authorities, stock exchanges and/or quotation systems agreed with the Issuers.

*References in this Base Prospectus to Notes being "**listed**" (and all related references) mean that the relevant Notes have been admitted to trading on the Luxembourg Regulated Market, the Amsterdam Regulated Market, the Brussels Regulated Market and/or the Euro MTF, as specified in the relevant Final Terms.*

About the Notes

*The specific terms of each Tranche of Non-exempt Notes will be set out in a final terms document which will be completed at the time of the agreement to issue each Tranche of Notes and which will constitute final terms for the purposes of Article 5.4 of the Prospectus Directive (the "**Final Terms**"). Each Final Terms will be filed with the CSSF and copies of Final Terms relating to Notes to be listed on the Luxembourg Stock Exchange will also be published on that exchange's website (www.bourse.lu). If any of the terms relating to an issue of Notes constitute a "significant new factor" relating to the information contained in this Base Prospectus, either (i) a supplement to the Base Prospectus setting out the relevant terms will be submitted for approval or (ii) those terms, together with all the other necessary information in relating to the relevant series of Notes, will be set out in a prospectus relating to the relevant Notes (a "**Drawdown Prospectus**") which will be drafted as a single document and will incorporate by reference any relevant parts of this Base Prospectus.*

*The specific terms of each Tranche of Exempt Notes will be set out in a pricing supplement document (the "**Pricing Supplement**"). In respect of Exempt Notes to be admitted to trading on the Euro MTF, the applicable Pricing Supplement will be delivered to the Luxembourg Stock Exchange on or before the date of issue of the Exempt Notes of the relevant Tranche and published on the website of the Luxembourg Stock Exchange (www.bourse.lu). Copies of Pricing Supplements will be available from the specified office of the Principal Paying Agent (subject as provided in paragraph 8 of "General Information", starting on page 218).*

Any reference in this Base Prospectus to "Final Terms", "relevant Final Terms" or "applicable Final Terms" will be deemed to include a reference to "Pricing Supplement", "relevant Pricing Supplement" or "applicable Pricing Supplement" in relation to Exempt Notes, to the extent applicable.

Distribution of the Notes

*The Issuers will offer Notes through BNP Paribas Fortis SA/NV (the "**Dealer**", which expression shall include any additional dealers appointed under this Programme from time to time, either for a specific Tranche of Notes or on an ongoing basis). An issue of Notes may also be underwritten by two or more Dealers on a several basis only or on a joint and several basis. Details of the Dealer(s) in relation to each Tranche will be set out in the relevant Final Terms. For further details, please refer to the section entitled "Plan of Distribution" starting on page 178.*

In relation to an offer of Non-exempt Notes, each of the Issuers and the Guarantor accepts responsibility for the content of this Base Prospectus only in relation to investors who purchase such Notes in an offer made by a Dealer or an Authorised Offeror (as defined below), subject to certain conditions. The price at which the relevant Notes are offered will be agreed between the relevant investor and the Dealer or Authorised Offeror that makes the offer. Any offer of Non-exempt Notes made without the consent of the relevant Issuer is unauthorised and you should check with the relevant offeror whether anyone is responsible for this Base Prospectus in relation to the relevant offer. You should take legal advice if you are in any doubt about whether you can rely on this Base Prospectus and/or about who is responsible for its contents.

*Notes issued under the Programme and the relevant Guarantees have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") and may be Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States to, or for the account or benefit of, U.S. persons, as defined in Regulation S under the Securities Act. Notes and the relevant Guarantees will be offered to persons other than U.S. persons in offshore transactions in reliance on Regulation S under the Securities Act.*

In the case of a Tranche of Notes the terms of which are set out in a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms must be read and understood as a reference to such information being specified or identified in the relevant Drawdown Prospectus, unless the context requires otherwise.

This Base Prospectus should be read in conjunction with any supplement hereto and with any documents or information incorporated by reference in it (see "Documents Incorporated by Reference") and must be read and construed together with the relevant Final Terms. Information in websites referred to in this Base Prospectus shall not be deemed to be incorporated in or to form part of this Base Prospectus.

The Issuers and the Guarantor have not authorised the making of any representation or the provision of any information about the Issuers, the Guarantor or the Notes unless the representation or information is contained or incorporated by reference in this Base Prospectus or any Final Terms or unless the Issuers or the Guarantor have approved the representation or information for that purpose. Any such representation or information should not be relied upon as having been authorised by the Issuers, the Guarantor or any Dealer.

Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note implies that the information in this Base Prospectus is correct after the date of publication of the Base Prospectus or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied, or if different, the date given in the information.

Legal restrictions may apply to the distribution of this Base Prospectus and the offering or sale of Notes in certain jurisdictions. The Issuers, the Guarantor and the Dealers require persons who receive this Base Prospectus to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers and sales of Notes and on distribution of this Base Prospectus please refer to the section entitled "Plan of Distribution".

Neither this Base Prospectus nor any Final Terms constitutes an offer of, or an invitation by or on behalf of the Issuer, the Guarantor or the Dealers to subscribe for or purchase, any Notes. The Base Prospectus and any Final Terms should not be considered as a recommendation from the Issuers, the Guarantor or the

Dealers to subscribe for or purchase any Notes. Anyone receiving this Base Prospectus or any Final Terms will be considered to have investigated and appraised the condition (financial or otherwise) of the Issuers and the Guarantor.

Neither the Dealers nor any of their respective affiliates (unless acting as an obligor under the Programme, as specified below) has authorised all or part of this Base Prospectus; nor have they separately verified all the information contained or incorporated by reference in it. Neither this Base Prospectus nor any financial statements or other information incorporated by reference are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by the Issuers, the Guarantor or any of the Dealers that recipients of this Base Prospectus or any other financial statements incorporated by reference should purchase the Notes. Potential purchasers of Notes should determine for themselves whether the information contained or incorporated by reference in this Base Prospectus and in the relevant Final Terms is relevant. *The stabilisation manager, named in the relevant Final Terms, (the "**Stabilisation Manager**") will comply with all relevant laws, regulations and directives. References in the next paragraph to "this issue" are to each Series for which a Stabilisation Manager is appointed.*

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over-allot Notes (provided that, in the case of any Tranche of Notes to be admitted to listing on the official list and to trading on the Luxembourg Regulated Market and/or any other regulated market as defined in Directive 2014/65/EU, the aggregate principal amount of Notes allotted does not exceed 105 per cent. of the aggregate principal amount of the relevant Tranche) or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment shall be conducted in accordance with all applicable laws and rules.

Product Governance under Directive 2014/65/EU (as amended)

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

The Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) may include a legend entitled "MiFID II Product Governance" which may outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently

offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

PRIIPs REGULATION/ IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II or (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "**Prospectus Directive**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Amounts payable under the Notes may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the "**Benchmarks Regulation**"). In this case, a statement will be included in the applicable Final Terms as to whether or not the relevant administrator of the "benchmark" is included in the European Securities and Markets Authority's ("**ESMA**") register of administrators under Article 36 of the Benchmarks Regulation. Certain "benchmarks" may either (i) not fall within the scope of the Benchmarks Regulation by virtue of Article 2 of that regulation or (ii) transitional provisions in Article 51 of the Benchmarks Regulation may apply to certain other "benchmarks" which would otherwise be in scope such that at the date of the relevant Final Terms, the administrator of the "benchmark" is not required to be included in the register of administrators.

As at the date of this Base Prospectus, details of the administrator of LIBOR, ICE Benchmark Administration Limited, appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the Benchmarks Regulation.

Investors should consult the Issuers if they want a copy of the ISDA Definitions (as defined below).

In this Base Prospectus, the following definitions apply:

- "**Member State**" means a Member State of the European Economic Area;
- "**AUD**" means Australian dollars, the lawful currency of Australia;
- "**EUR**", "**euro**" or "**€**" mean the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended;
- "**£**" means Sterling, the lawful currency of the United Kingdom;
- "**U.S. dollars**", "**U.S.\$**", "**USD**" or "**\$**" means the lawful currency of the United States of America; and

- "Japanese Yen" means the lawful currency of Japan.

Risk Factors	65

This section sets out the risks the Issuers and the Guarantor believe to be the most essential to a prospective investor when assessing whether to consider an investment in the Notes. It is not possible to identify all of these factors or to determine which factors are most likely to occur. This is because the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of events that are beyond their control.

SUMMARY

The following section applies to Non-exempt Notes only and is provided in accordance with Article 5(2) of the Prospectus Directive.

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

Element	Title	
		<p>Macroeconomic environment</p> <p>Macroeconomic and market conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to macroeconomic and market conditions in Europe.</p> <p>In 2018, global growth remained healthy at around 3.7% (according to the IMF), reflecting a stabilised growth rate in advanced economies (+2.4% after +2.3% in 2017) and in emerging economies (+4.6% after +4.7% in 2017). Since the economy was at the peak of its cycle in large developed countries, central banks continued to tighten accommodating monetary policy or planned to taper it. With inflation levels still moderate, however, central banks were able to manage this transition gradually, thereby limiting the risks of a marked downturn in economic activity. Thus, the IMF expects the global growth rate experienced over the last two years to continue in 2019 (+3.5%) despite the slight slowdown expected in advanced economies.</p> <p>In this context, the following two risk categories can be identified:</p> <p><i>Risks of financial instability due to the conduct of monetary policies</i></p> <p>Two risks should be emphasised: a sharp increase in interest rates and the current, very accommodating monetary policy being maintained for too long.</p> <p>On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less accommodating monetary policy in the euro zone (reduction in asset purchases started in January 2018, with an end in December 2018) involve risks of financial turbulence and economic slowdown were pronounced than expected. The risk of an inadequately-controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity and bond markets etc.) as well as on certain interest rate sensitive sectors.</p> <p>On the other hand, despite the upturn since mid-2016, interest rates remain low, which may encourage excessive risk-taking among some financial market participants: lengthening maturities</p>

Element	Title	
		<p>of financings and assets held, less stringent credit policy, and an increase in leveraged financings. Some of these participants (insurance companies, pension funds, asset managers, etc.) have an increasingly systemic dimension and in the event of market turbulence (linked for example to a sharp rise in interest rates and/or a sharp price correction) they could be brought to unwind large positions in relatively weak market liquidity.</p> <p><i>Systemic risks related to increased debt</i></p> <p>Macroeconomically, the impact of an interest rate increase could be significant for countries with high public and/or private debt-to-GDP ratio. This is particularly the case for certain European countries (in particular Greece, Italy and Portugal), which are posting public debt-to-GDP ratios often above 100%, but also for emerging countries.</p> <p>Between 2008 and 2018, the latter recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors. The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecasted economic growth, possible downgrades of sovereign ratings and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the BNP Paribas Group (including BNPPF) and potentially alter its results.</p> <p>It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks.</p> <p>Laws and Regulations Applicable to Financial Institutions</p> <p>Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPPF. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPPF notably include:</p> <ul style="list-style-type: none"> regulations governing capital: the Capital Requirements Directive IV ("CRD4")/the Capital Requirements Regulation ("CRR"), the international standard for total loss-absorbing capacity ("TLAC") and BNPP's designation as a financial institution that is of systemic

		<p>importance by the Financial Stability Board;</p> <ul style="list-style-type: none"> • the structural reforms comprising the Belgian banking law of 25 April 2014 (as amended) on the status and supervision of credit institutions, the "Volcker rule" in the US, which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks; • the European Single Supervisory Mechanism and the ordinance of 6 November 2014; • the Directive of 16 April 2014 related to deposit guarantee systems and its delegation and implementing decrees, the Directive of 15 May 2014 establishing a Bank Recovery and Resolution framework, the Single Resolution Mechanism establishing the Single Resolution Council and the Single Resolution Fund; • the Final Rule by the US Federal Reserve imposing tighter prudential rules on the US transactions of large foreign banks, notably the obligation to create a separate intermediary holding company in the US (capitalised and subject to regulation) to house their US subsidiaries; • the new rules for the regulation of over-the-counter derivative activities pursuant to Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, notably margin requirements for uncleared derivative products and the derivatives of securities traded by swap dealers, major swap participants, security-based swap dealers and major security-based swap participants, and the rules of the US Securities and Exchange Commission which require the registration of banks and major swap participants active on derivatives markets and transparency and reporting on derivative transactions; • the new MiFID II and Regulation (EU) No 600/2014 ("MiFIR"), and European regulations governing the clearing of certain over-the-counter derivative products by centralised counterparties and the disclosure of securities financing transactions to centralised bodies; • the General Data Protection Regulation ("GDPR") came into force on 25 May 2018. This regulation aims to move the European data confidentiality environment forward and improve personal data protection within the European Union. Businesses run the risk of severe penalties if they do not comply with the standards set by the GDPR. This Regulation applies to all banks providing services to European citizens; and

Element	Title	
		<ul style="list-style-type: none"> • the finalisation of Basel 3 published by the Basel committee in December 2017, introducing a revision to the measurement of credit risk, operational risk and credit valuation adjustment ("CVA") risk for the calculation of risk-weighted assets. These measures are expected to come into effect in January 2022 and will be subject to an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027. <p>Moreover, in this tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers and personal data, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and more broadly that of its stakeholders, at the heart of its values. Thus, the code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area.</p> <p>Cyber security and technology risk</p> <p>BNPPF's ability to do business is intrinsically tied to the fluidity of electronic transactions as well as the protection and security of information and technology assets.</p> <p>The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions.</p> <p>The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services.</p> <p>The outsourcing of a growing number of processes also exposes the BNP Paribas Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit.</p> <p>Accordingly, the BNP Paribas Group has a second line of defence within the risk function dedicated to managing technological and cyber security risks. Thus, operational standards are regularly adapted to support BNPPF's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).</p>

B.19	Information about the Guarantor	
B.19/B.1	Legal and commercial name of the Guarantor	BNP Paribas Fortis SA/NV, acting under the commercial name of BNP Paribas Fortis.
B.19/B.2	Domicile/ legal form/ legislation/ country of incorporation	The Guarantor is incorporated as a public company with limited liability (<i>société anonyme/naamloze vennootschap</i>) under the laws of Belgium with its registered office at 1000 Brussels, rue Montagne du Parc 3 and is a credit institution governed by the Belgian Banking Law.
B.19/B.4b	Trend information	<p>Macroeconomic environment</p> <p>Macroeconomic and market conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to macroeconomic and market conditions in Europe.</p> <p>In 2018, global growth remained healthy at around 3.7% (according to the IMF), reflecting a stabilised growth rate in advanced economies (+2.4% after +2.3% in 2017) and in emerging economies (+4.6% after +4.7% in 2017). Since the economy was at the peak of its cycle in large developed countries, central banks continued to tighten accommodating monetary policy or planned to taper it. With inflation levels still moderate, however, central banks were able to manage this</p>

Element	Title	
		<p>transition gradually, thereby limiting the risks of a marked downturn in economic activity. Thus, the IMF expects the global growth rate experienced over the last two years to continue in 2019 (+3.5%) despite the slight slowdown expected in advanced economies.</p> <p>In this context, the following two risk categories can be identified:</p> <p><i>[Risks of financial instability due to the conduct of monetary policies</i></p> <p>Two risks should be emphasised: a sharp increase in interest rates and the current, very accommodating monetary policy being maintained for too long.</p> <p>On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less accommodating monetary policy in the euro zone (reduction in asset purchases started in January 2018, with an end in December 2018) involve risks of financial turbulence and economic slowdown more pronounced than expected. The risk of an inadequately-controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity and bond markets, etc.) as well as on certain interest rate sensitive sectors.</p> <p>On the other hand, despite the upturn since mid-2016, interest rates remain low, which may encourage excessive risk-taking among some financial market participants: lengthening maturities of financings and assets held, less stringent credit policy, and an increase in leveraged financings. Some of these participants (insurance companies, pension funds, asset managers, etc.) have an increasingly systemic dimension and in the event of market turbulence (linked for example to a sharp rise in interest rates and/or a sharp price correction) they could be brought to unwind large positions in relatively weak market liquidity.</p> <p><i>Systemic risks related to increased debt</i></p> <p>Macroeconomically, the impact of an interest rate increase could be significant for countries with high public and/or private debt-to-GDP ratio. This is particularly the case for certain European countries (in particular Greece, Italy and Portugal), which are posting public debt-to-GDP ratios often above 100%, but also for</p>

Element	Title	
		<p>emerging countries.</p> <p>Between 2008 and 2018, the latter recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors. The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecasted economic growth, possible downgrades of sovereign ratings and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the BNP Paribas Group (including BNPPF) and potentially alter its results.</p> <p>It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks.</p> <p>Laws and Regulations Applicable to Financial Institutions</p> <p>Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPPF. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPPF notably include:</p> <ul style="list-style-type: none"> • regulations governing capital: CRD4/CRR, the international standard for TLAC and BNPP's designation as a financial institution that is of systemic importance by the Financial Stability Board; • the structural reforms comprising the Belgian banking law of 25 April 2014 (as amended) on the status and supervision of credit institutions, the "Volcker rule" in the US which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks; • the European Single Supervisory Mechanism and the ordinance of 6 November 2014; • the Directive of 16 April 2014 related to deposit guarantee systems and its delegation and implementing decrees, the Directive of 15 May 2014 establishing a Bank Recovery and Resolution framework, the Single Resolution Mechanism establishing the Single

This regulation aims to move the European data confidentiality environment forward and improve personal data protection within the European Union. Businesses run the risk of severe penalties if they do not comply with the standards set by the GDPR. This Regulation applies to all banks providing services to European citizens; and • the finalisation of Basel 3 published by the Basel committee in December 2017, introducing a revision to the measurement of credit risk, operational risk and CVA risk for the calculation of risk-weighted assets. These measures are expected to come into effect in January 2022 and will be subject to an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027. <p>Moreover, in this tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers and personal data, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and</p>

		<p>more broadly that of its stakeholders, at the heart of its values. Thus, the code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area.</p> <p>Cyber security and technology risk</p> <p>BNPPF's ability to do business is intrinsically tied to the fluidity of electronic transactions as well as the protection and security of information and technology assets.</p> <p>The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions.</p> <p>The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services.</p> <p>The outsourcing of a growing number of processes also exposes the BNP Paribas Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit.</p> <p>Accordingly, the BNP Paribas Group has a second line of defence within the Risk Function dedicated to managing technological and cyber security risks. Thus, operational standards are regularly adapted to support BNPPF's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).</p>

D.2	Key risks regarding the Issuer and the Guarantor	<p>In purchasing Notes, investors assume the risk that the relevant Issuer and/or, if BP2F is the Issuer, the Guarantor, may become insolvent or otherwise be unable to make all payments due in respect of the Notes [or under the guarantee]. In the event of the insolvency of BNPPF or BP2F, as applicable or if it is otherwise unable or unwilling to repay the Notes when repayment falls due, an investor may lose all or part of his investment in the Notes.</p> <p>There is a wide range of factors which individually or together could result in the relevant Issuer and the Guarantor, where applicable, becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and/or the Guarantor's control. The Issuers and/or the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. RISK FACTORS

This section sets out the risks the Issuers and the Guarantor believe to be the most essential to a prospective investor when assessing of whether to consider an investment in the Notes. However, investors should note that there is a wide range of factors which individually or together could result in the Issuers and/or the Guarantor being unable to make all payments due. It is not possible to identify all of these factors or to determine which factors are most likely to occur. This is because the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of events that are beyond their control.

RISK FACTORS

The following section applies to both Exempt Notes and Non-exempt Notes.

In purchasing Notes, investors assume the risk that the Issuers and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes or under the relevant Guarantee. There is a wide range of factors which individually or together could result in the Issuers or the Guarantor becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuers' and the Guarantor's control. The Issuers and the Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Before making an investment decision with respect to any Notes issued under the Programme, prospective investors should consult their own stockbroker, bank manager, lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meaning in this section.

(I) *Factors that may affect the Issuers' and the Guarantor's ability to fulfil their obligations under Notes issued under the Programme*

(A) *Risk factors relating to BNP Paribas Fortis SA/NV and its industry*

Risks Related to the Macroeconomic Environment

(i) *Adverse economic and financial conditions have in the past had and may in the future have an impact on BNPPF and the markets in which it operates.*

BNPPF's business is sensitive to changes in the financial markets and more generally to economic conditions in Europe and the rest of the world. A deterioration in economic conditions in the markets where BNPPF operates could have some or all of the following impacts:

- Adverse economic conditions could affect the business and operations of BNPPF's customers, reducing credit demand and trading volume and resulting in an increased rate of default on loans and receivables;
- A decline in market prices of bonds, shares and commodities could impact many of the businesses of BNPPF, including in particular trading, investment banking and asset management revenues;
- Macroeconomic policies adopted in response to actual or anticipated economic conditions could have unintended effects, and are likely to impact market parameters such as interest rates and

RISK FACTORS

foreign exchange rates, which in turn could affect BNPPF's businesses that are most exposed to market risk;

- Perceived favourable economic conditions generally or in specific business sectors could result in asset price bubbles, which could in turn exacerbate the impact of corrections when conditions become less favourable;
- A significant economic disruption (such as the global financial crisis of 2008 or the European sovereign debt crisis of 2011) could have a severe impact on all of BNPPF's activities, particularly if the disruption is characterised by an absence of market liquidity that makes it difficult to sell certain categories of assets at their estimated market value or at all;
- A significant deterioration of market and economic conditions resulting from, among other things, from adverse political and geopolitical events such as natural disasters, societal unrest, geopolitical tensions (in particular protectionist measures), acts of terrorism, cyber attacks, military conflicts or threats thereof and related risks could affect the operating environment for financial institutions episodically or for extended periods.

European markets may be affected by a number of factors in 2019, including continuing uncertainty resulting from the decision of the United Kingdom to leave the European Union and uncertain political and economic conditions in certain large European countries. Markets in the United States may be affected by factors, such as trade policy or a tendency towards political stalemate, which has affected credit and currency markets globally. Asian markets could be impacted by factors such as slower than expected economic growth rates in certain countries in the region.

Share prices have recently experienced significant volatility, which may occur again. Credit markets and the value of fixed income assets could be adversely affected if interest rates were to rise as central banks continue to scale back the extraordinary support measures put in place in response to recent adverse economic conditions. The price of oil has been particularly volatile in recent months, and could be impacted by unpredictable geopolitical factors in regions such as the Middle East and Russia.

More generally, increased volatility of financial markets could adversely affect BNPPF's trading and investment positions in the debt, currency, commodity and equity markets, as well as its positions in other investments. Severe market disruptions and extreme market volatility have occurred in recent years and may occur again in the future, which could result in significant losses for BNPPF. Such losses may extend to a broad range of trading and hedging products, including swaps, forward and future contracts, options and structured products. The volatility of financial markets makes it difficult to predict trends and implement effective trading strategies.

It is difficult to predict when economic or market downturns will occur, and which markets will be most significantly impacted. If economic or market conditions in Belgium or elsewhere in Europe, or global markets more generally, were to deteriorate or become more volatile, BNPPF's operations could be disrupted, and its business, results of operations and financial condition could be adversely affected.

- (ii) *Given the global scope of its activities, BNPPF may be vulnerable to certain political, macroeconomic or financial risks in the countries and regions where it operates.*

BNPPF is subject to country risk, meaning the risk that economic, financial, political or social conditions in a given foreign country, in which it operates, could affect its business and results. BNPPF monitors country risk and takes it into account in the fair value adjustments and cost of risk

RISK FACTORS

recorded in its financial statements. However, a significant change in political or macroeconomic environments may require it to record additional charges or to incur losses beyond the amounts previously written down in its financial statements. In addition, factors specific to a country or region in which BNPPF operates could make it difficult for it to carry out its business and lead to losses or impairment of assets.

- (iii) *BNPPF's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, ratings downgrades, increases in credit spreads or other factors.*

The financial crisis, the euro-zone sovereign debt crisis as well as the general macroeconomic environment have at times adversely affected the availability and cost of funding for European banks in recent years. This was due to several factors, including a sharp increase in the perception of bank credit risk due to exposure to sovereign debt in particular, credit rating downgrades of sovereigns and of banks, and debt market speculation. Many European banks, including BNPPF, at various points experienced restricted access to wholesale debt markets and to the interbank market, as well as a general increase in their cost of funding. Accordingly, reliance on direct borrowing from the European Central Bank at times increased substantially. If such adverse credit market conditions were to reappear in the event of prolonged stagnation of growth, deflation, resurgence of the financial crisis, the sovereign debt crisis or new forms of financial crises, factors relating to the financial industry in general or to BNPPF in particular, the effect on the liquidity of the European financial sector in general and BNPPF in particular could be materially adverse and have a negative impact on BNPPF's results of operations and financial condition.

- (iv) *The prolonged low interest rate environment carries inherent systemic risks and an exit from such environment also carries risk.*

Since the 2008-2009 financial crisis, global markets have been characterised by an extended period of low interest rates. If the low interest rate environment continues, BNPPF's profitability may be affected. During such periods, interest rate spreads tend to tighten, and BNPPF may be unable to lower interest rates on deposits sufficiently to offset reduced income from lending at lower interest rates. In addition, BNPPF has been facing and may continue to face an increase in early repayment and refinancing of mortgages and other fixed-rate consumer and corporate loans as clients take advantage of lower borrowing costs. This, along with the issuance of new loans at the low prevailing market interest rates, has resulted and may continue to result in a decrease in the average interest rate of BNPPF's portfolio of loans thereby causing a decline in BNPPF's net interest income from its lending activities. Moreover, an environment of persistently low interest rates can also have the effect of flattening the yield curve in the market more generally, which could reduce the premium generated by BNPPF from its funding activities. A flattening yield curve can also influence financial institutions to engage in riskier activities in an effort to earn the desired level of returns, which can increase overall market risk and volatility. Low interest rates may also negatively affect the profitability of BNPPF's insurance activities, which may not be able to generate sufficient returns to be competitive with other investment products. Low interest rates may also adversely affect commissions charged by BNPPF's asset management subsidiaries on money market and other fixed income products. A reduction in credit spreads and decline in retail banking income resulting from lower portfolio interest rates may adversely affect the profitability of BNPPF's retail banking operations.

On the other hand, the end of a period of prolonged low interest rates, in particular due to tightening monetary policy, also carries risks. In this respect, the U.S. Federal Reserve is currently tightening

its monetary policy and the ECB announced the end of its quantitative easing policy in December 2018, which could result in an increase in interest rates in the future. If market interest rates were to rise, a portfolio featuring significant amounts of lower interest loans and fixed income assets would be expected to decline in value. If BNPPF's hedging strategies are ineffective or provide only a partial hedge against such a change in value, BNPPF could incur losses. Any sharper or more rapid than expected tightening could have a negative impact on the economic recovery. On the lending side, it could in particular cause stress in loan and bond portfolios, possibly leading to an increase in non performing exposures and defaults. More generally, the ending of accommodative monetary policies (including liquidity infusions from central bank asset purchases) may lead to severe corrections in certain markets or asset classes (e.g. non-investment grade corporate and sovereign borrowers, certain sectors of equities and real estate) that particularly benefitted (including from very low risk premia as compared to historical averages) from the prolonged low interest rate and high liquidity environment, and such corrections could potentially be contagious to financial markets generally, including through substantially increased volatility.

Risks Related to the Market Environment

- (v) *Significant interest rate changes could adversely affect BNPPF's revenues or profitability.*

The amount of net interest income earned by BNPPF during any given period significantly affects its overall revenues and profitability for that period. Interest rates are highly sensitive to many factors beyond BNPPF's control, such as the rate of inflation, country-specific monetary policies and certain decisions concerning regulatory capital. Changes in market interest rates could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities. Any adverse change in the yield curve could cause a decline in net interest income from BNPPF's lending activities. In addition, increases in the interest rates at which BNPPF's short-term funding is available and maturity mismatches may adversely affect its profitability.

- (vi) *The soundness and conduct of other financial institutions and market participants could adversely affect BNPPF.*

BNPPF's ability to engage in financing, investment and derivative transactions could be adversely affected by the soundness of other financial institutions or market participants. Financial institutions are interrelated as a result of trading, clearing, counterparty, funding or other relationships. As a result, defaults, or even rumours or questions about, one or more financial services institutions, or the financial services industry generally, may lead to market-wide liquidity problems and could lead to further losses or defaults. BNPPF has exposure to many counterparties in the financial industry, directly and indirectly, including clearing houses, brokers and dealers, commercial banks, investment banks, mutual and alternative investment funds, and other institutional clients, with which it regularly executes transactions. BNPPF may also be exposed to risks related to the increasing involvement in the financial sector of players and the introduction of new types of transactions subject to little or no regulation (e.g. unregulated funds, trading venues or crowdfunding platforms). BNPPF is exposed to credit and counterparty risk in the event of default or financial distress of BNPPF's counterparties or clients. In addition, credit and counterparty risks could be exacerbated if the collateral held by BNPPF cannot be realised upon or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to BNPPF or in case of a failure of a significant financial market participant such as a central counterparty. It is worth noting in this respect that regulatory changes requiring mandatory clearing of standardised over-the-counter ("OTC") derivatives through central counterparties have resulted in an increase of the exposure of financial market participants to such central counterparties.

RISK FACTORS

In addition, fraud or misconduct by financial market participants can have a material adverse effect on financial institutions due to the interrelated nature of the financial markets. An example is the fraud perpetrated by Bernard Madoff that came to light in 2008, as a result of which numerous financial institutions globally have announced losses or exposure to losses in substantial amounts.

There can be no assurance that any losses resulting from the risks summarised above will not materially and adversely affect BNPPF's results of operations.

- (vii) *BNPPF may incur significant losses on its trading and investment activities due to market fluctuations and volatility.*

BNPPF maintains trading and investment positions in the debt, currency commodity and equity markets, and in unlisted securities, real estate and other asset classes, including through derivative contracts. These positions could be adversely affected by extreme volatility in these markets, i.e. the degree to which prices fluctuate over a particular period in a particular market, regardless of market levels. Moreover, volatility trends that prove substantially different from BNPPF's expectations may lead to losses relating to a broad range of other products BNPPF uses, including swaps, forward and future contracts, options and structured products.

To the extent that BNPPF owns assets, or has net long positions, in any of those markets, a market downturn could result in losses from a decline in the value of its positions. Conversely, to the extent that BNPPF has sold assets that it does not own or has net short positions in any of those markets, a market upturn could, in spite of the existing limitation of risks and control systems, expose it to potentially substantial losses as it attempts to cover its net short positions by acquiring assets in a rising market. BNPPF may from time to time hold a long position in one asset and a short position in another, in order to hedge transactions with clients and/or from which it expects to gain based on changes in the relative value of the two assets. If, however, the relative value of the two assets changes in a direction or manner that BNPPF did not anticipate or against which it is not hedged, BNPPF might realise a loss on those paired positions. Such losses, if significant, could adversely affect BNPPF's results and financial condition.

The BNP Paribas group (the "**BNP Paribas Group**") uses a "value at risk" model to quantify its exposure to potential losses from market risks, and also performs stress testing with a view to quantifying its potential exposure in extreme scenarios. However, these techniques rely on statistical methodologies based on historical observations, which may turn out to be unreliable predictors of future market conditions. Accordingly, the BNP Paribas Group's exposure to market risk in extreme scenarios could be greater than the exposures predicted by its quantification techniques.

- (viii) *BNPPF may generate lower revenues from commission and fee-based businesses during market downturns.*

Financial and economic conditions affect the number and size of transactions for which BNPPF provides securities underwriting, financial advisory and other investment banking services. These revenues, which include fees from these services, are directly related to the number and size of the transactions in which it participates and can thus be significantly affected by economic or financial changes that are unfavourable to its Investment Banking business and clients. In addition, because the fees that BNPPF charges for managing its clients' portfolios are in many cases based on the value or performance of those portfolios, a market downturn that reduces the value of its clients' portfolios or increases the amount of withdrawals would reduce the revenues BNPPF receives from its asset management, equity derivatives and private banking businesses. Independently of market changes, below-market performance by BNPPF's mutual funds may result in increased withdrawals and

RISK FACTORS

reduced inflows, which would reduce the revenues BNPPF receives from its asset management business. BNPPF experienced some or all of these effects during the various significant market downturns of recent years and could experience them again in future market downturns, which may occur periodically and unexpectedly.

- (ix) *Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.*

In some of BNPPF's businesses, particularly Global Markets and Asset/Liability Management protracted market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. These developments can lead to material losses if BNPPF cannot close out deteriorating positions in a timely way. This is particularly true for assets that are intrinsically illiquid. Assets that are not traded on stock exchanges or other public trading markets, such as certain derivative contracts between financial institutions, may have values that BNPPF calculates using models rather than publicly-quoted prices. Monitoring the deterioration of prices of assets like these is difficult and could lead to significant losses that BNPPF did not anticipate.

- (x) *BNPPF must ensure that its assets and liabilities properly match in order to avoid exposure to losses.*

BNPPF is exposed to the risk that the maturity, interest rate or currencies of its assets might not match those of its liabilities. The timing of payments on many of BNPPF's assets is uncertain, and if BNPPF receives lower revenues than expected at a given time, it might require additional funding from the market in order to meet its obligations on its liabilities. While BNPPF imposes strict limits on the gaps between its assets and its liabilities as part of its risk management procedures, it cannot be certain that these limits will be fully effective to eliminate potential losses arising from asset and liability mismatches.

Regulatory Risks

- (xi) *Laws and regulations adopted in recent years, particularly in response to the global financial crisis, as well as new legislative proposals, may materially impact BNPPF and the financial and economic environment in which it operates.*

In the past few years, laws and regulations have been or could be enacted, adopted or proposed in particular in Europe and the United States, with a view to introduce a number of changes, some permanent, in the financial environment. The impact of these measures is to change substantially the environment in which BNPPF and other financial institutions operate. The measures that have been or may be proposed and adopted include

- more stringent capital and liquidity requirements (particularly for global systemically important banks such as BNP Paribas ("**BNPP**"), the parent company of the BNP Paribas Group), as well as changes to the risk-weighting methodologies and the methods of using internal models that could lead to increased capital requirements;
- restrictions or prohibitions on certain types of financial products or activities, enhanced recovery and resolution regimes, in particular the Bank Recovery and Resolution Directive of 15 May 2014, as amended, (the "**BRRD**"), which strengthens powers to prevent and resolve banking crises in order to ensure that losses are borne largely by the creditors and shareholders of the banks and in order to keep the costs incurred by taxpayers to a minimum;

RISK FACTORS

- the establishment of the national resolution funds by the BRRD and the creation of the Single Resolution Board (the "**SRB**") by the European Parliament and Council of the European Union in a resolution dated 15 July 2014, which can initiate resolution proceedings for banking institutions such as BNPPF, and the Single Resolution Fund (the "**SRF**"), whose financing is provided for by BNPPF (up to its annual contribution) and can be significant;
- the establishment of national deposit guarantee schemes and a proposed European deposit guarantee scheme or deposit insurance which will gradually cover all or part of the guarantee schemes of participating countries;
- increased internal control and reporting requirements with respect to certain activities;
- more stringent governance and conduct of business rules and restrictions and increased taxes on employee compensation over specified levels;
- measures to improve the transparency, efficiency and integrity of financial markets and in particular the regulation of high frequency trading, more extensive market abuse regulations, increased regulation of benchmarks and certain types of financial products including mandatory reporting of derivative and securities financing transactions, requirements either to mandatorily clear, or otherwise mitigate risks in relation to, over the counter derivative transactions (including through posting of collateral in respect of non centrally cleared derivatives);
- the taxation of financial transactions and restrictions and increased taxes on employee compensation over specified levels;
- enhanced privacy and cybersecurity requirements; and
- strengthening the powers of supervisory bodies and the creation of new authorities, including the adoption of the Single Resolution Mechanism in October 2013, which placed BNPPF under the direct supervision of the ECB as of November 2014.

It is impossible to predict what additional measures will be adopted and, given the complexity and continuing uncertainty of a certain number of these measures, to determine their impact on BNPPF. The cumulative effect of these measures, whether already adopted or in the process of being adopted, has been and could continue to be a decrease in BNPPF 's ability to allocate its capital and capital resources to financing, limit its ability to diversify risks, reduce the availability of certain financing and liquidity resources, increase the cost of financing, increase the cost or reduce the demand for the products and services offered by BNPPF, require BNPPF to proceed with internal reorganizations, structural changes or reallocations, affect the ability of BNPPF to carry on certain activities or to attract and/or retain and, more generally, affect its competitiveness and profitability, which could have an impact on its profitability, financial condition and operating results.

The principal such measures are further described below:

At the European level, many of the provisions of the EU Directive and Regulation on prudential requirements "**CRD 4/CRR**" dated 26 June 2013, implementing the Basel III capital requirements, took effect as of 1 January 2014 and numerous delegated and implementing acts provided for in CRD 4/CRR have been adopted since 2014. The prudential ratio requirements and the designation of BNPPF as a systemically important financial institution increased BNPPF's prudential requirements and may limit its ability to extend credit or to hold certain assets, particularly those with longer maturities. In 2011-2012, BNPPF implemented an adaptation plan in anticipation of these requirements, including reducing its balance sheet and bolstering its capital. On 23 November 2016,

RISK FACTORS

the European Commission published amendments to CRD 4/CRR, the BRRD and the SRM Regulation (together, the "**Banking Reform Package**"). The Banking Reform Package has now been adopted and is expected to be published in the Official Journal in June and enter into force in July 2019. The Banking Reform Package introduces and strengthens various measures including leverage ratio and net stable funding requirements, a new market risk framework, the standardised approach to counterparty credit risk, enhanced minimum requirements for own funds and eligible liabilities subordination rules and the tightening of the large exposures limit. These changes could directly impact BNPPF's regulatory compliance requirements and could cause its operational, financing and funding costs to increase. In addition, the Financial Stability Board published on 9 November 2015 the final principles and term sheet regarding TLAC (or "total loss absorbing capacity"), which will require "Global Systemically Important Banks" (including BNPPF) to maintain a significant amount of liabilities and instruments readily available for bail-in, in addition to the Basel III capital requirements, in order to enable authorities to implement an orderly resolution that minimises impacts on financial stability, maintains the continuity of critical functions, and avoids exposing public funds to loss. Given the timing and manner of their adoption, the full impact of TLAC requirements on BNPPF cannot be accurately predicted and could cause its financing costs to increase.

Regarding the European "Banking Union", the European Union adopted, in October 2013, a Single Supervisory Mechanism ("**SSM**") under the supervision of the ECB; as a consequence, since November 2014, BNPPF, along with all institutions qualified as important in the Euro-zone, are now under the direct supervision of the ECB, with respect to prudential regulation matters entrusted to the ECB by Council Regulation dated 15 October 2013. Within the SSM, the ECB is, in particular, tasked with carrying out an annual supervisory review and evaluation process ("**SREP**") and stress tests, in connection with which it has powers to require banks to hold capital requirements in excess of minimum capital requirements in order to address specific risks (so-called "Pillar 2" requirements), and more generally to impose additional liquidity requirements and possibly other regulatory measures. Such measures could have an adverse impact on BNPPF's results of operations and financial condition.

In addition to the SSM, the BRRD, implemented in Belgium by the Belgian Banking Law of 25 April 2014, the Royal Decree of 18 December 2015 and the Royal Decree of 26 December 2015 amending the law of 25 April 2014, and the Act of 27 June 2016 strengthens the tools to prevent and resolve banking crises, in particular, in order to ensure that any losses are borne in priority by banks' creditors and shareholders and to minimise taxpayers' exposure to losses and provides for the implementation of resolution funds at the national levels. The Belgian Banking Law has also been amended by the law of 11 March 2018 on the status and supervision of payment institutions and e-money institutions (the "**Law of 11 March 2018**") with the purpose of further transposing the BRRD into Belgian law. The Law of 11 March 2018 entered into force on 26 March 2018. The provisions in the Belgian Banking Law on resolution instruments were implemented through a Royal Decree of 15 March 2017 on the implementation of the law of 25 April 2014 on the status and supervision of credit institutions, regarding exceptional governmental support and resolution instruments.

Under the BRRD and the Law of 25 April 2014, the NBB or the SRB, which was established by Regulation of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism ("**SRM**") and an SRF, may commence resolution proceedings in respect of a banking institution, such as BNPPF, with a view to ensure the continuity of critical functions, to avoid the risks of contagion and to recapitalise or restore the viability of the

RISK FACTORS

institution. Resolution tools are to be implemented so that, subject to certain exceptions, losses are borne first by shareholders, then by holders of capital instruments (such as subordinated bonds) qualifying as additional tier 1 and tier 2 instruments, then by the holders of senior non-preferred debt and finally by the holders of senior preferred debt, all in accordance with the order of their claims in normal insolvency proceedings.

Resolution authorities have broad powers to implement resolution measures with respect to institutions and groups subject to resolution proceedings, which may include (without limitation): the total or partial sale of the institution's business to a third party or a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, the full or partial write down of capital instruments, the dilution of capital instruments through the issuance of new equity, the full or partial write down or conversion into equity of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), discontinuing the listing and admission to trading of financial instruments, the dismissal of managers or the appointment of a special manager (*administrateur special*).

Certain powers, including the full or partial write down of capital instruments, the dilution of capital instruments through the issuance of new equity, the full or partial write down or conversion into equity of additional capital instruments qualifying as tier 1 and tier 2 (such as subordinated bonds), can also be exercised as a precautionary measure, outside of resolution proceedings and/or pursuant to the European Commission's State Aid Framework if the institution requires exceptional public financial support.

The implementation of these tools and powers with respect to BNPPF may result in significant structural changes to the BNP Paribas Group (including as a result of asset or business sales or the creation of bridge institutions) and in a partial or total write-down, modification or variation of claims of shareholders and creditors. Such powers may also result, after any transfer of all or part of BNPPF's business or separation of any of its assets, in the holders of securities (even in the absence of any such write down or conversion) being left as the creditors of BNPPF whose remaining business or assets are insufficient to support the claims of all or any of the creditors of BNPPF.

Pursuant to the SRM, on 19 December 2014, the Council adopted an Implementing Regulation to calculate the contributions of banks to the SRF, which replaces national resolution funds as from 1 January 2016 and provides for annual contributions to the SRF to be made by banks calculated on the basis of their liabilities, excluding own funds and covered deposits and adjusted for risks. Moreover, the Delegated Regulation of the European Commission dated 21 October 2014, adopted pursuant to the BRRD provides obligations on banks to make *ex-ante* contributions to resolution financing arrangements to ensure the effective application by the relevant resolution authority of the resolution tools and powers. In this context, the resolution authorities, such as the ACPR or the SRB, shall determine the annual contributions to be paid to resolution financing arrangements by each banking institution in proportion to its risk profile. As a consequence, contributions to the SRF and to resolution financing arrangements will be significant for BNPPF, will result in an increase in fees and will, as a consequence, weigh on BNPPF's results of operations.

Moreover, the Directive of 16 April 2014 on deposit guarantee schemes, transposed into Belgian law by the Law of 25 April 2014 created national deposit guarantee schemes. Other proposals for legislative and regulatory reforms could also have an impact if they are enacted into law. Thus, a proposed European Parliament Regulation dated 24 November 2015 provides regulatory backing to the Directive of 16 April 2014 through a step plan to create a European deposit insurance scheme

RISK FACTORS

(the "**EDIS**") that will progressively cover all or part of participating national deposit guarantee schemes. To date, the EDIS has not been implemented due to political controversy but remains a priority for the EU. Such a scheme may result in increased costs to BNPPF.

Furthermore, regulations designed to enhance the transparency and soundness of financial markets, such as the so-called "EMIR" Regulation of 4 July 2012 on OTC derivatives, central counterparties and trade repositories and the measures adopted or to be adopted thereunder (including in relation to collateral requirements for non-centrally cleared derivatives), proposed "EMIR REFIT" and "EMIR 2.2", the Regulation of 25 November 2015 on transparency of securities financing transactions ("**SFTR**") and the Directive and Regulation of 15 May 2014 on markets in financial instruments ("**MiFID II**") may be a source of additional uncertainty and compliance risk and, more generally, the costs incurred due to the implementation of such regulations may have a negative impact on the profitability of certain activities currently conducted by BNPPF and weigh on BNPPF's results of operations and financial condition.

Bank regulation in the United States has been substantially changed and expanded in the wake of the financial crisis, including most recently as follows. The U.S. Federal Reserve's final rule imposing enhanced prudential standards on the U.S. operations of large foreign banks required BNPP, the parent company of BNPPF, to designate or create an intermediate holding company ("**IHC**") for its U.S. subsidiaries by 1 July 2016 which is required to comply with risk-based and leverage capital requirements, liquidity requirements, supervisory stress testing and capital planning requirements as well as other prudential requirements on a stand-alone basis. Under proposals that remain under consideration, the IHC and the combined U.S. operations of BNPP may become subject to limits on credit exposures to any single counterparty, and the combined U.S. operations of BNPP may also become subject to an early remediation regime which could be triggered by risk-based capital, leverage, stress tests, liquidity, risk management and market indicators. The Federal Reserve has also indicated that it is considering future rulemakings that could apply the U.S. rules implementing the Basel III liquidity coverage ratio to the U.S. operations of certain large foreign banking organizations. On 30 November 2015, the U.S. Federal Reserve published proposed rules that would implement in the United States the Financial Stability Board's standards for a TLAC framework. The proposed rules would require, among other things, BNPP's intermediate U.S. holding company to maintain minimum amounts of "internal" TLAC, which would include minimum levels of tier 1 capital and long-term debt satisfying certain eligibility criteria and a related TLAC buffer commencing 1 January 2019. BNPP's intermediate U.S. holding company would be required to issue all such TLAC instruments to a foreign parent entity (a non-U.S. entity that controls the intermediate holding company). The proposed rules would also impose limitations on the types of financial transactions that BNPP's intermediate holding company could engage in. Finally, the "Volcker Rule", adopted by the U.S. regulatory authorities in December 2013, places certain restrictions on the ability of U.S. and non-U.S. banking entities, including BNPP and its affiliates, to engage in proprietary trading and to sponsor or invest in private equity and hedge funds. BNPP was generally required to come into compliance with the Volcker Rule by July 2015, although the Federal Reserve Board extended the conformance deadline for pre-2014 "legacy" investments in and relationships with private equity funds and hedge funds until 21 July 2017. The Volcker Rule's implementing regulations are highly complex and may be subject to further regulatory interpretation and guidance, and its full impact will not be known with certainty for some time. U.S. regulators have also recently adopted or proposed new rules regulating OTC derivatives activities under Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act. In late 2015, the U.S. Federal Reserve and other U.S. banking regulators finalised margin requirements applicable to uncleared swaps and security-based swaps entered into by swap dealers, major swap participants,

RISK FACTORS

security-based swap dealers and major security-based swap participants that are regulated by one of the U.S. banking regulators, including BNPP. These margin requirements, which are scheduled to come into effect in phases beginning in September 2016, will require BNPP to post and collect additional, high-quality collateral for certain transactions, which will increase the costs of uncleared swaps and security-based swaps offered by BNPP to its customers who are "U.S. persons" as defined under the rules which apply globally. The U.S. Securities and Exchange Commission also finalised rules in 2015 requiring the registration of security-based swap dealers and major security-based swap participants as well as obligations relating to transparency and mandatory reporting of security-based swap transactions. Further rules and regulations are expected in 2018 and 2019 to complete this regulatory framework. The scope and timing for the implementation of these requirements, and therefore their impact on BNPP's swap business, is difficult to predict at this stage.

In sum, extensive legislative and regulatory reform in respect of financial institutions has been enacted in recent years and significant changes remain in progress. It is impossible to accurately predict which additional measures will be adopted or to determine the exact content of such measures and, given the complexity and uncertainty of a number of these measures, their ultimate impact on BNPPF. The overall effect of these measures, whether already adopted or in the process of being adopted, may be to restrict BNPPF's ability to allocate and apply capital and funding resources, limit its ability to diversify risk, reduce the availability of certain funding and liquidity resources, increase its funding costs, increase the cost for or reduce the demand for the products and services it offers, result in the obligation to carry out internal reorganizations, structural changes or divestitures, affect its ability to conduct (or impose limitations on) certain types of business as currently conducted, limit its ability to attract and retain talent, and, more generally, affect its competitiveness and profitability, which would in turn have an adverse effect on its business, financial condition, and results of operations.

- (xii) *BNPPF is subject to extensive and evolving regulatory regimes in the jurisdictions in which it operates.*

BNPPF faces the risk of changes in legislation or regulation in all of the countries in which it operates, including, but not limited to, the following:

- monetary, liquidity, interest rate and other policies of central banks and regulatory authorities;
- changes in government or regulatory policy that may significantly influence investor decisions, in particular in the markets in which the BNP Paribas Group operates;
- changes in regulatory requirements applicable to the financial industry, such as rules relating to applicable governance, remunerations capital adequacy and liquidity frameworks, restrictions on activities considered as speculative and recovery and resolution frameworks;
- changes in securities regulations as well as in financial reporting, disclosure and market abuse regulations;
- changes in the regulation of certain types of transactions and investments, such as derivatives and securities financing transactions and money market funds;
- changes in the regulation of market infrastructures, such as trading venues, central counterparties, central securities depositories, and payment and settlement systems;
- changes in the regulation of payment services, crowdfunding and fintech;

RISK FACTORS

- changes in the regulation of data privacy and cybersecurity;
- changes in tax legislation or the application thereof;
- changes in accounting norms;
- changes in rules and procedures relating to internal controls, risk management and compliance; and
- expropriation, nationalisation, price controls, exchange controls, confiscation of assets and changes in legislation relating to foreign ownership.

These changes, the scope and implications of which are highly unpredictable, could substantially affect BNPPF, and have an adverse effect on its business, financial condition and results of operations. Some reforms not aimed specifically at financial institutions, such as measures relating to the funds industry or promoting technological innovation (such as open data projects), could facilitate the entry of new players in the financial services sector or otherwise affect BNPPF's business model, competitiveness and profitability, which could in turn affect its financial condition and results of operations.

Apart from the potential legislative or/and regulatory changes as stated above, certain local authorities in the jurisdictions in which BNPPF operates may publish from time to time certain position papers or communications (each, a "**Communication**"), relating to the placement or distribution of financial instruments, that may contain certain restrictive measures or guidelines on the application of certain provisions or rights of an issuer or/and of a distributor of financial instruments in these jurisdictions. Such Communications may affect the business of BNPPF because (i) the relevant competent authority may in practice prevent an issuer of financial instruments from using certain of its rights, (ii) even if not binding on the courts as such, a Communication may be persuasive, (iii) it may be applicable immediately without any transition period and/or it may be designed as a dynamic document that can be amended over time without prior notice, and (iv) certain matters covered by a Communication may be subject to interpretation and there is then no legal certainty that BNPPF will comply with that Communication.

- (xiii) *BNPPF may incur substantial fines and other administrative and criminal penalties for non-compliance with applicable laws and regulations, and may also incur losses in related (or unrelated) litigation with private parties.*

BNPPF is exposed to regulatory compliance risk, i.e. the failure to comply fully with the laws, regulations, codes of conduct, professional norms or recommendations applicable to the financial services industry. This risk is exacerbated by the adoption by different countries of multiple and occasionally diverging and even conflicting legal or regulatory requirements. Besides damage to BNPPF's reputation and private rights of action (including class actions), non-compliance could lead to material legal proceedings, fines and expenses (including fines and expenses in excess of recorded provisions), public reprimand, enforced suspension of operations or, in extreme cases, withdrawal by the authorities of operating licences. This risk is further exacerbated by continuously increasing regulatory scrutiny of financial institutions, as well as substantial increases in the quantum of applicable fines and penalties. This is the case in particular with respect to money laundering, the financing of terrorist activities or transactions with countries that are subject to economic sanctions. Moreover, litigation by private parties against financial institutions has substantially increased in recent years. Accordingly, BNPPF faces significant legal risk in its business, and the volume and

amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms have substantially increased in recent years and may increase further.

Risks Related to the Implementation of the BNP Paribas Group's Strategy

(xiv) *Risks related to the implementation of the BNP Paribas Group's strategic plans.*

The BNP Paribas Group announced and presented a strategic plan for the 2017-2020 period on 7 February 2017. This plan contemplates a number of initiatives, including the implementation of new customer pathways, the digital transformation of the BNP Paribas Group, continuing to improve operating efficiency and various business development initiatives. The BNP Paribas Group closely monitors these initiatives and provided an update on its 2020 targets on 6 February 2019.

The plan includes a number of financial targets and objectives relating to net banking income, operating costs, net income, capital adequacy ratios and return on equity, among other things. These financial targets and objectives were established primarily for purposes of internal planning and allocation of resources, and are based on a number of assumptions with regard to business and economic conditions.

The BNP Paribas Group's actual results could vary significantly from these targets and objectives for a number of reasons, including the occurrence of one or more of the risk factors described elsewhere in this section.

Additionally, as part of the BNP Paribas Group's commitment to environmental responsibility within its corporate social responsibility ("CSR") policy, it has announced a number of initiatives to support the energy transition towards a low-carbon economy, including a reduction in financing for energies with the most negative environmental impact. These measures (and any future ones along similar lines) may in certain cases adversely affect the BNP Paribas Group's results in the relevant sectors.

(xv) *The BNP Paribas Group may experience difficulties integrating acquired companies and may be unable to realise the benefits expected from its acquisitions.*

The BNP Paribas Group makes acquisitions on a regular basis. Integrating acquired businesses is a long and complex process. Successful integration and the realisation of synergies require, among other things, proper co-ordination of business development and marketing efforts, retention of key members of management, policies for effective recruitment and training as well as the ability to adapt information and computer systems. Any difficulties encountered in combining operations could result in higher integration costs and lower savings or revenues than expected. There will accordingly be uncertainty as to the extent to which anticipated synergies will be achieved and the timing of their realisation. Moreover, the integration of the BNP Paribas Group's existing operations with those of the acquired operations could interfere with the respective businesses and divert management's attention from other aspects of the BNP Paribas Group's business, which could have a negative impact on the business and results of the BNP Paribas Group. In some cases, moreover, disputes relating to acquisitions may have an adverse impact on the integration process or have other adverse consequences, including financial ones.

Although the BNP Paribas Group undertakes an in-depth analysis of the companies it plans to acquire, such analyses often cannot be complete or exhaustive. As a result, the BNP Paribas Group may increase its exposure to doubtful or troubled assets and incur greater risks as a result of its acquisitions, particularly in cases in which it was unable to conduct comprehensive due diligence prior to the acquisition.

Risks Related to the Management of BNPPF's Business

(xvi) *BNPPF has significant counterparty risk exposure and exposure to systemic risks.*

BNPPF's business is subject to general credit risks, including credit risks of borrowers and other counterparties. Third parties that owe BNPPF money, securities or other assets may not pay or perform under their obligations. These parties include borrowers under loans made, the issuers whose securities BNPPF holds, customers, trading counterparties, counterparties under swaps and credit and other derivative contracts, clearing agents, exchanges, clearing houses and other financial intermediaries. These parties may default on their obligations to BNPPF due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons.

Counterparty credit risk is the translation of the credit risk embedded in financial transactions, investments and/or settlement transactions between counterparties. Those transactions include bilateral contracts such as over-the-counter OTC derivatives contracts as well as contracts settled through clearing houses. The amount of this risk may vary over time in line with changing market parameters which then impacts the replacement value of the relevant transactions.

Counterparty risk lies in the event that a counterparty defaults on its obligations to pay BNPPF the full present value of the flows relating to a transaction or a portfolio for which BNPPF is a net receiver. Counterparty credit risk is also linked to the replacement cost of a derivative or portfolio in the event of counterparty default. Hence, it can be seen as a market risk in case of default or a contingent risk. Counterparty risk arises both from both bilateral activities of BNPPF with clients and clearing activities through a clearing house or an external clearer

In addition, in the past, the general credit environment has been adversely affected by significant instances of fraud. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges with whom BNPPF interacts on a daily basis, and could have an adverse effect on BNPPF's business.

(xvii) *BNPPF is exposed to credit risk and counterparty risk.*

As a credit institution, BNPPF is exposed to the creditworthiness of its customers and counterparties. These risks impact the BNP Paribas Group's consolidated financial statements when a customer or counterparty is unable to honour its obligations and when the book value of these obligations in BNPPF's records is positive. The customer or counterparty may be a bank, a financial institution, an industrial or commercial enterprise, a government and its various entities, an investment fund, or a natural person. If the level of customer or counterparty defaults increases compared to recent historically low levels, BNPPF may have to record significant charges for possible bad and doubtful debts, affecting its profitability.

While BNPPF seeks to reduce its exposure to credit risk and counterparty risk by using risk mitigation techniques such as collateralisation, obtaining guarantees, entering into credit derivatives and entering into netting agreements, it cannot be certain that these techniques will be effective to offset losses resulting from counterparty defaults that are covered by these techniques. Moreover, BNPPF is exposed to the risk of default by the party providing the credit risk coverage (such as a counterparty on derivatives) or to the risk of loss of value of any collateral. In addition, only a

RISK FACTORS

portion of BNPPF's overall credit risk and counterparty risk is covered by these techniques. Accordingly, BNPPF has significant exposure to these risks.

- (xviii) *A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPPF's results of operations and financial condition.*

In connection with its lending activities, BNPPF regularly establishes provisions for loan losses, which are recorded in its profit and loss account under "cost of risk". BNPPF's overall level of provisions is based on its assessment of prior loss experience, the volume and type of lending being conducted, industry standards, past due loans, economic conditions and other factors related to the recoverability of various loans or statistical analysis is based on scenarios applicable to different asset classes. Although BNPPF seeks to establish an appropriate level of provisions, its lending businesses may have to increase their provisions for loan losses substantially in the future as a result of deteriorating economic conditions or other causes. Any significant increase in provisions for loan losses or a significant change in BNPPF's estimate of the risk of loss inherent in its portfolio of non-impaired loans, as well as the occurrence of loan losses in excess of the related provisions, could have a material adverse effect on BNPPF's results of operations and financial condition.

BNPPF also establishes provisions for contingencies and charges including in particular provisions for litigations. Any loss arising from a risk that has not already been provisioned or that is greater than the amount of the provision would have a negative impact on BNPPF's results of operation and, potentially, its financial condition.

- (xix) *BNPPF's hedging strategies may not prevent losses.*

If any of the variety of instruments and strategies that BNPPF uses to hedge its exposure to various types of risk in its businesses is not effective, BNPPF may incur losses. Many of its strategies are based on historical trading patterns and correlations. For example, if BNPPF holds a long position in an asset, it may hedge that position by taking a short position in another asset where the short position has historically moved in a direction that would offset a change in the value of the long position.

However, the hedge may only be partial or the hedging strategies used may not protect against all future risks or may not be fully effective in mitigating BNPPF's risk exposure in all market environments or against all types of risk in the future. Unexpected market developments may also reduce the effectiveness of BNPPF's hedging strategies. In addition, the manner in which gains and losses resulting from certain ineffective hedges are recorded may result in additional volatility in BNPPF's reported earnings.

- (xx) *Adjustments to the carrying value of BNPPF's securities and derivatives portfolios and BNPPF's own debt could have an impact on its net income and shareholders' equity.*

The carrying value of BNPPF's securities and derivatives portfolios and certain other assets, as well as its own debt, in its balance sheet is adjusted as of each financial statement date. Most of the adjustments are made on the basis of changes in fair value of its assets or its debt during an accounting period, with the changes recorded either in the income statement or directly in shareholders' equity. Changes that are recorded in the income statement, to the extent not offset by opposite changes in the value of other assets, affect its consolidated revenues and, as a result, its net income. All fair value adjustments affect shareholders' equity and, as a result, its capital adequacy ratios. The fact that fair value adjustments are recorded in one accounting period does not mean that further adjustments will not be needed in subsequent periods.

- (xxi) *The credit ratings of BNPPF may be downgraded, which would weigh on its profitability.*

Credit ratings have a significant impact on BNPPF's liquidity. A downgrade in BNPPF's credit rating could affect its liquidity and competitive position. It could also increase BNPPF borrowing costs, limit access to the capital markets or trigger additional obligations under its covered bonds or under certain bilateral provisions in some trading, derivative or collateralised financing contracts.

In addition, BNPPF's cost of obtaining long-term unsecured funding from market investors is also directly related to its credit spreads, which in turn depend to a certain extent on its credit ratings. Increases in credit spreads can significantly increase BNPPF's cost of funding. Changes in credit spreads are continuous, market-driven, and subject at times to unpredictable and highly volatile movements. Credit spreads are also influenced by market perceptions of BNPPF's creditworthiness. Furthermore, credit spreads may be influenced by movements in the cost to purchasers of credit default swaps referenced to BNPPF's debt obligations, which are influenced both by the credit quality of those obligations, and by a number of market factors that are beyond the control of the BNP Paribas Group.

On the other hand, the end of a period of prolonged low interest rates, in particular due to tightening monetary policy, also carries risks. In this respect, the U.S. Federal Reserve is currently tightening its monetary policy and the ECB announced the end of its quantitative easing policy in December 2018, which could result in an increase in interest rates in the future. If market interest rates were to rise, a portfolio featuring significant amounts of lower interest loans and fixed income assets would be expected to decline in value. If BNPPF's hedging strategies are ineffective or provide only a partial hedge against such a change in value, BNPPF could incur losses. Any sharper or more rapid than expected tightening could have a negative impact on the economic recovery. On the lending side, it could in particular cause stress in loan and bond portfolios, possibly leading to an increase in non performing exposures and defaults. More generally, the ending of accommodative monetary policies (including liquidity infusions from central bank asset purchases) may lead to severe corrections in certain markets or asset classes (e.g. non-investment grade corporate and sovereign borrowers, certain sectors of equities and real estate) that particularly benefitted (including from very low risk premia as compared to historical averages) from the prolonged low interest rate and high liquidity environment, and such corrections could potentially be contagious to financial markets generally, including through substantially increased volatility.

- (xxii) *A deterioration of the credit rating of BNPP of its debt quality could adversely affect BNPPF.*

As part of the BNP Paribas Group, BNPPF can be highly sensitive to a downgrade by rating agencies of the rating of the parent company of the BNP Paribas Group or a deterioration of its debt quality. BNPP took control of BNPPF on 12 May 2009 (formerly Fortis Bank NV/SA) and subsequently increased its stake in BNPPF to 74.93 per cent. BNPP is now the major shareholder of BNPPF.

- (xxiii) *Intense competition by banking and non-banking operators could adversely affect BNPPF revenues and profitability.*

There is substantial competition in Belgium, Luxembourg and the other regions in which BNPPF carries on business for the types of banking, asset management and insurance, and other products and services BNPPF provides.

Such competition is most pronounced in the core Benelux markets of BNPPF where BNPPF faces competition from companies such as KBC Bank, ING Group, Belfius and BIL. As a result, BNPPF's

RISK FACTORS

strategy is to maintain customer loyalty and retention, which can be influenced by a number of factors, including service levels, the prices and attributes of products and services, financial strength and actions taken by competitors. If BNPPF is unable to compete with attractive product and service offerings that are profitable, BNPPF may lose market share or incur losses on some or all of BNPPF's activities.

Competitive pressures could result in increased pricing pressures on a number of BNPPF's products and services, particularly as competitors seek to win market share, and may harm BNPPF's ability to maintain or increase profitability.

In addition, competition in the banking industry could intensify as a result of consolidation in the financial services area or as a result of the presence of new players in the payment and the financing services area or the development of crowdfunding platforms. In particular, competitors subject to less extensive regulatory requirements or to less strict capital requirements (e.g., debt funds, shadow banks), or benefiting from economies of scale, data synergies or technological innovation (e.g., internet and mobile operators, digital platforms, fintechs), could be more competitive by offering lower prices or more innovative services. In addition, new payment systems and crypto-currencies, such as Bitcoin, and new technology that facilitate transaction processes, such as blockchain, have developed in recent years. While it is difficult to predict the effects of these emerging technologies as well as any applicable regulations, their use could nevertheless reduce BNPPF's market share or secure investments that otherwise would have used technology used by more established financial institutions, such as BNPPF. If BNPPF is unable to respond to the competitive environment in Benelux or in its other major markets by offering attractive, innovative and profitable product and service solutions, it may lose market share in key areas of its business or incur losses on some or all of its activities. In addition, downturns in the economies of its principal markets could add to the competitive pressure, through, for example, increased price pressure and lower business volumes for BNPPF and its competitors. It is also possible that the increased presence in the global marketplace of nationalised financial institutions, or financial institutions benefiting from State guarantees or other similar advantages, following the recent financial crisis or the imposition of more stringent requirements (particularly capital requirements and business restrictions) on larger or systemically significant financial institutions could lead to distortions in competition in a manner adverse to large private-sector institutions such as BNPPF.

Risks Related to BNPPF's Operations

- (xxiv) *While each of BNPPF's businesses manages its operational risks, these risks remain an inherent part of all of BNPPF's businesses.*

BNPPF is subject to operational risk because of the uncertainty inherent in all business undertakings and decisions. This risk can be broken down into business risk and event risk.

Business risk is the risk of 'being in business', which affects any enterprise, financial or non-financial. It is the risk of loss due to changes in the competitive environment that damage the business's franchise or operating economics. Typically, the fluctuation originates with variations in volume, pricing or margins against a fixed cost base. Business risk is thus mostly externally driven (by regulatory, fiscal, market and or competition changes, as well as strategic, reputation risks and other related risks).

Event risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal and compliance risk. Event risk is often internally driven (internal and external fraud involving employees, clients, products and

RISK FACTORS

business practices, as well as technological and infrastructure failures and other related malfunctions) and can be limited through management processes and controls.

BNPPF attempts to keep these risks at appropriate levels by maintaining a sound and well controlled environment in light of the characteristics of its business, the markets and the regulatory environments in which BNPPF operates. While these control measures mitigate operational risks they do not eliminate them.

- (xxv) *BNPPF risk management policies, procedures and methods, may leave it exposed to unidentified or unanticipated risks, which could lead to material losses.*

BNPPF has devoted significant resources to developing its risk management policies, procedures and assessment methods and intends to continue to do so in the future. Nonetheless, BNPPF's risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all economic and market environments or against all types of risk, particularly risks that BNPPF may have failed to identify or anticipate. BNPPF's ability to assess the creditworthiness of its customers or to estimate the values of its assets may be impaired if, as a result of market turmoil such as that experienced in recent years, the models and approaches it uses become less predictive of future behaviour, valuations, assumptions or estimates. Some of BNPPF's qualitative tools and metrics for managing risk are based on its use of observed historical market behaviour. BNPPF applies statistical and/or other tools to these observations to arrive at quantifications of its risk exposures. The process BNPPF uses to estimate losses inherent in its credit exposure or to estimate the value of certain assets requires difficult, subjective, and complex judgments, including forecasts of economic conditions and how these economic predictions might impair the ability of its borrowers to repay their loans or impact the value of assets, which may, during periods of market disruption, be incapable of accurate estimation and, in turn, impact the reliability of the process. These tools and metrics may fail to predict future risk exposures, e.g. if BNPPF does not anticipate or correctly evaluate certain factors in its statistical models, or upon the occurrence of an event deemed extremely unlikely by the tools and metrics. This would limit BNPPF's ability to manage its risks. BNPPF's losses could therefore be significantly greater than the historical measures indicate. In addition, BNPPF's quantified modelling does not take all risks into account. Its more qualitative approach to managing certain risks could prove insufficient, exposing it to material unanticipated losses.

- (xxvi) *An interruption in or a breach of BNPPF's information systems may cause substantial losses of client or customer information, damage to BNPPF's reputation and financial losses.*

As with most other banks, BNPPF relies heavily on communications and information systems to conduct its business. This dependency has increased with the spread of mobile and online banking services, and the development of cloud computing and blockchain technologies. Any failure or interruption or breach in security of these systems could result in failures or interruptions in BNPPF's customer relationship management, general ledger, deposit, servicing and/or loan organisation systems or could cause BNPPF to incur significant costs in recovering and verifying lost data. BNPPF cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed.

In addition, BNPPF is subject to cybersecurity risk, or risk caused by a malicious and/or fraudulent act, committed virtually, with the intention of manipulating information (confidential data, bank/insurance, technical or strategic), processes and users, in order to cause material losses to the BNP Paribas Group's subsidiaries, employees, partners and clients. An increasing number of

RISK FACTORS

companies (including financial institutions) have in recent years experienced intrusion attempts or even breaches of their information technology security, some of which have involved sophisticated and highly targeted attacks on their computer networks. Because the techniques used to obtain unauthorised access, disable or degrade service, steal confidential data or sabotage information systems have become more sophisticated, change frequently and often are not recognised until launched against a target, BNPPF and its third party service providers may be unable to anticipate these techniques or to implement in a timely manner effective and efficient countermeasures. In spite of the existing control systems, BNPPF cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. Any failures or interruptions in BNPPF's information systems or those of its providers and any subsequent disclosure of confidential information related to any client, counterpart or employee of BNPPF (or any other person) or any intrusion or attack against BNPPF's communication system could cause significant losses and have an adverse effect on BNPPF's reputation, financial condition and results of operations.

Moreover, BNPPF is exposed to the risk of operational failure or interruption of a clearing agent, foreign markets, clearing houses, custodian banks or any other financial intermediary or external service provider used by BNPPF to execute or facilitate financial transactions. Due to its increased interaction with clients, BNPPF is also exposed to the risk of operational malfunction of the latter's information systems. The BNP Paribas Group's communications and data systems and those of its clients, service providers and counterparties may also be subject to malfunctions or interruptions by as a result of cyber-crime or cyber-terrorism. BNPPF cannot guarantee that these malfunctions or interruptions in its own systems or those of other parties will not occur or that in the event of a cyberattack, these malfunctions or interruptions will be adequately resolved.

In recent years, financial institutions have been impacted by a number of cyber incidents, notably involving large-scale alterations of data which compromise the quality of financial information. This risk remains today and BNPPF, like other banks, has taken measures to implement systems to deal with cyber attacks that could destroy or damage data and critical systems and hamper the smooth running of its operations. Moreover, the regulatory and supervisory authorities are taking initiatives to promote the exchange of information on cyber security and cyber criminality in order to improve the security of technological infrastructures and establish effective recovery plans after a cyber incident.

(xxvii) *BNPPF's competitive position could be harmed if its reputation is damaged.*

Considering the highly competitive environment in the financial services industry, a reputation for financial strength and integrity is critical to BNPPF's ability to attract and retain customers. BNPPF's reputation could be harmed if it fails to adequately promote and market its products and services. BNPPF's reputation could also be damaged if, as it increases its client base and the scale of its businesses, BNPPF's comprehensive procedures and controls dealing with conflicts of interest fail, or appear to fail, to address conflicts of interest properly. At the same time, BNPPF's reputation could be damaged by other compliance risks, including but not limited to, employee misconduct, fraud or misconduct by market participants to which BNPPF is exposed, a decline in, a restatement of, or corrections to its financial results, as well as any adverse legal or regulatory action. Such risks to reputation have recently increased as a result of the growing use of social networks within the economic sphere. The loss of business that could result from damage to BNPPF's reputation could have an adverse effect on its results of operations and financial position.

RISK FACTORS

(xxviii) *Litigation or other proceedings or actions may adversely affect BNPPF's business, financial condition and results of operations.*

In its normal course of business, BNPPF is subject to the risk of litigation by customers, employees or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation or similar proceedings or actions is difficult to assess or quantify. Plaintiffs in these types of actions may seek recovery of large or indeterminate amounts or other remedies that may affect BNPPF's ability to conduct business, and the magnitude of the potential loss relating to such actions may remain unknown for substantial periods of time. The cost to defend future actions may be significant. There may also be adverse publicity associated with litigation that could decrease customer acceptance of BNPPF's services, regardless of whether the allegations are valid or whether BNPPF is ultimately found liable. As a result, the possibility cannot be ruled out that the outcome of such litigations or investigations may adversely affect BNPPF's business, financial condition and results of operations.

Furthermore, several (previous) shareholders and organisations representing shareholders of Ageas SA/NV (previously Fortis SA/NV and Fortis N.V.) have initiated proceedings in Belgium and in The Netherlands against, amongst others, BNPPF in connection with events and developments in respect of the former Fortis group between May 2007 and October 2008, amongst others in connection with the rights issue of Ageas SA/NV in October 2007. In February 2013 the public prosecutor in Brussels has requested the court ("*raadkamer/chambre du conseil*") to refer certain individuals for trial before the Criminal court of Brussels in respect of certain of these events and developments. As an additional investigation has been ordered, the hearing before the court has not yet taken place. Moreover, other litigation or investigations are pending in relation to the restructuring of the former Fortis group. It cannot be ruled out that the outcome of such "Fortis Legacy" litigations and/or investigations might also have an impact on BNPPF.

In March 2016 Ageas and several claimant organisations announced a settlement proposal (the "**Ageas Settlement**") with respect to all civil proceedings related to the former Fortis group for the events in May 2007 and October 2008. The parties have requested the Amsterdam Court of Appeal to declare that the Ageas Settlement is binding for all eligible Fortis shareholders in accordance with the Dutch Act on Collective Settlement of Mass Claims. The Amsterdam Court of Appeal has declared the Ageas Settlement binding in a judgment dated 13 July 2018.

BNPPF is one of the releasees under the Ageas Settlement. This means that each eligible shareholder will be deemed to have fully released BNPPF from any and all claims that such shareholder may have against BNPPF in relation to the 2007 and 2008 events as defined in the Ageas Settlement. Eligible shareholders had the right to opt-out from the Ageas Settlement during a period ending on 31 December 2018. After having opted-out these shareholders could proceed with legal actions against BNPPF. If this would be the case, it can not be excluded that such legal proceedings would have monetary consequences.

On 21 December 2018 Ageas has announced that it waives its right to terminate the settlement, which has thus become final except for the shareholders that have opted-out. The Dutch procedures initiated by the claimants' organisations have been terminated on 6 February 2019.

The examining magistrate of the Court of First Instance in Brussels in charge since 2008 of investigating the case relating to the above-mentioned events has concluded his investigation. The Public Prosecutor has never asked the referral of BNPPF to the criminal court and he has stated on 20 December 2018 that he sees no reasons to request the Council's chamber of the Court to order a referral. It is therefore expected that these proceedings will be terminated but no timeframe can be

RISK FACTORS

given at this moment since the Council's chamber has not yet rendered a decision as of the date of this Base Prospectus.

More information on this litigation can be found under Note 8.a (*Contingent liabilities: legal proceeding and arbitration*) on pages 146 to 147 in the 2018 annual report of BNPPF for the year ended December 2018.

(xxix) *Uncertainty linked to fair value accounting and use of estimates.*

According to BNPPF's valuation rules financial assets can be carried at fair value through profit or loss. Concerned assets include financial assets held for trading, including non-cash flow hedging derivatives, and financial assets that BNPPF has irrevocably designated to be held at fair value through profit or loss ('fair value option'). The fair value of a financial instrument is determined based on quoted prices in active markets. When quoted prices in active markets are not available, valuation techniques are used. Valuation techniques make maximum use of market inputs but are affected by the assumptions used, including discount rates and estimates of future cash flows, and take into consideration, where applicable, model risks. Such techniques include market prices of comparable investments, discounted cash flows, option pricing models and market multiples valuation methods. In the rare case where it is not possible to determine the fair value of a financial instrument, it is accounted for at cost. The effect of changing the assumptions for those financial instruments for which the fair values are measured using valuation techniques that are determined in full or in part on assumptions that are not supported by observable inputs may have a material adverse effect on BNPPF's earnings.

The preparation of financial statements in conformity with IFRS requires the use of certain accounting estimates and assumptions. It also requires management to exercise its judgment in the process of applying these accounting policies. Actual results may differ from those estimates and judgmental decisions.

Financial institutions may use different accounting categorisations for the same or similar financial assets due to their different intentions regarding those assets. In determining fair value of financial instruments, different financial institutions may use different valuation techniques, assumptions, judgments and estimates which may result in lower or higher fair values for such financial instruments.

(xxx) *Unforeseen external events can interrupt BNPPF's operations and cause substantial losses and additional costs.*

Unforeseen events such as an adverse change in the political, military or diplomatic environments, political and social unrest, severe natural disasters, terrorist attacks, military conflicts or other states of emergency could affect the demand for the products and services offered by BNPPF, or lead to an abrupt interruption of BNPPF's operations and, to the extent not covered by insurance, could cause substantial losses that may not necessarily be covered by an insurance policy. Such losses can relate to property, financial assets, trading positions and key employees. Such unforeseen events could also lead to temporary or longer-term business interruption, additional costs (such as relocation of employees affected) and increase BNPPF's costs (particularly insurance premiums).

(B) **Additional investment considerations relating to the business of BNP Paribas Fortis Funding***Investment considerations relating to the business of BP2F*

The primary credit protection for securities issued by BP2F will derive from the guarantees given by BNPPF. The principal activity of BP2F is to act as a financing vehicle for BNPPF and the companies controlled by BNPPF by issuing bonds, notes or other securities, by performing any refinancing operations with or without a guarantee and in general having recourse to any sources of finance. Securities issued by BP2F have the benefit of guarantees issued by BNPPF so the primary credit protection for investors will derive from these guarantees.

When BP2F issues structured securities, it hedges the structured components with hedging counterparties such as BNPPF or other entities of the BNP Paribas Group. BP2F's ability to perform its obligations in respect of the structured return may depend on the ability of these hedging counterparties to meet their obligations under the hedge.

BP2F's ability to perform its obligations in respect of securities may depend on the operating performance of those companies to which the proceeds of the securities are lent. BP2F will lend the proceeds from the securities to certain of BNP Paribas Fortis group's operating companies or invest in securities issued by these same companies. Investors are, therefore, also exposed to the operating performance of the operating companies to which BP2F may lend or invest in proceeds, whose performance could change over time.

The financial condition of the operating companies to which the proceeds of the securities are lent may deteriorate and this may affect BP2F's ability to perform its obligations under the securities as BP2F's ability to meet its obligations will be reliant on the financial condition of the operating companies, if such operating companies' financial condition were to deteriorate and to the extent that funds are not available under the guarantees, BP2F and holders of securities could suffer direct and materially adverse consequences, including insufficient return on the securities and, if a liquidation or bankruptcy of BP2F were to occur, loss by holders of all or part of their investment.

BP2F is not an operating company so has limited capital resources. Its financial condition therefore mainly depends on its ability to issue securities and otherwise raise finance. A deteriorating or challenging economic situation can make it more difficult for BP2F to raise finance, or may make the terms on which it is able to do so more onerous, which could have a negative effect on BP2F's financial condition.

Newly transposed interest limitation rules may have tax consequences at the level of BP2F

BP2F, in respect of the deductibility of the interest paid to Noteholders under the Notes, may be impacted by the interest limitation rules included in Council Directive 2016/1164 of 12 July 2016 regarding the EU's first Anti Tax Avoidance Directive (ATAD 1), laying down rules against tax avoidance practises that directly affect the functioning of the internal market, implemented into Luxembourg law by way of the law dated 19 June 2018 (the "**Law**" and the "**ILR**" respectively).

The ILR aims at capping the amount of interest payments that can be deducted in order to prevent base erosion at the level of the debtor / payor. This is achieved by limiting the deduction of excessive borrowing costs, the latter being defined as the difference between borrowing costs (i.e. interest expenses on all forms of debt, other costs economically equivalent to interest and expenses incurred in connection with the raising of finance) and interest income or income economically equivalent to interest (the "**Excessive Borrowing Costs**").

RISK FACTORS

Excessive Borrowing Costs may be deducted up to the higher of either €3,000,000, or 30 per cent. of BP2F's earnings before taxes, depreciation and amortization ("**EBITDA**") (as defined in the Law).

Although the ILR provides carve outs (i) for certain entities, such as financial undertakings or standalone entities (as defined in the Law), (ii) for loans concluded prior to 17 June 2016 and which have not been substantially modified and (iii) for the financing of long-term public infrastructure projects where the project operator, borrowing costs, assets and income are all in the EU, BP2F would, in principle, come within the scope of the ILR.

However, given the fact that BP2F is to on-lend the proceeds of the issuing of the Notes to related parties, the latter should, in principle, mainly earn interest or economically equivalent income only. Consequently, BP2F should not incur on Excessive Borrowing Costs and the deductibility of the interest paid to Noteholders under the Notes issued by BP2F should not be limited by the ILR. As a result, the ILR should not have a negative impact on BP2F with regards to the Notes.

Transfer pricing tax rules in Luxembourg generate additional costs, which may vary from time to time

According to OECD principles, any related party transaction should be performed at arm's length. In other words, remuneration should be in line with what independent third parties would have charged in a similar transaction. These transfer pricing principles apply to intra-group financings (being defined as any financing granted between companies that participate directly or indirectly in the management, control or capital of each other or have a common person doing so).

On 28 January 2011 the Luxembourg direct tax authorities issued Circular L.I.R. 164/2 stating that for intra-group financing activities the OECD principles are to be applied, that it is the burden of the taxpayer to prove compliance of the fixed pricing with those principles and finally issues the conditions and process to obtain an Advance Pricing Agreement ("**APA**") binding the Luxembourg tax authorities to honour for the company's tax assessment the pricing described and approved through the APA for a period which cannot exceed 5 years.

On 22 May 2012 following the filing of an APA with the Luxembourg Tax authorities, BP2F has received a positive answer for its APA for the fiscal years 2012 to 2016.

The Luxembourg Tax Authorities issued on 27 December 2016 new guidelines on the tax treatment of companies carrying out intra-group financing transactions, which provide for new requirements in terms of transfer pricing and substance (circular LIR n°56/56bis). This circular entered into force as from 1 January 2017 and replaced the previous circular of 28 January 2011 (circular LIR n°164/2) and of 8 April 2011 (circular LIR n°164/2bis).

The application of the new circular by BP2F could result in a different pricing for the securities and could thus generate additional costs, which may vary from time to time. This different pricing may prove particularly relevant as the Luxembourg tax authorities recently issued a new circular for intra-group financing activities (Circular L.I.R. 56/1 – 56bis/1 dated 27 December 2016) which replaces the previously applicable circulars 164/2 of 28 January 2011 and 164/2 bis of 8 April 2011.

Investors are cautioned that all such risks should be borne in mind and analysed when investing in the securities of BP2F.

(II) *Risk factors that may affect the Notes generally*

(A) **The Notes may not be a suitable investment for all investors**

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained, or incorporated by reference in this Base Prospectus, the Final Terms relating to the Notes and any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate, foreign exchange, financial markets and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are sophisticated financial instruments. A potential investor should not invest in Notes which are sophisticated financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

None of the Issuers, the Guarantor, the Dealer or any of their respective affiliates is responsible for the lawfulness or suitability of the acquisition of any Notes by a prospective investor or purchaser of Notes or for compliance by a prospective investor or purchaser of Notes (whether it is acquiring the Notes in a principal or in a fiduciary capacity) with any law, regulation, directive or policy applicable to it or, if it is acquiring the Notes in a fiduciary capacity, any law, regulation, directive or policy applicable to the beneficiary. A prospective investor or purchaser of Notes may not rely on the Issuers, the Guarantor, the Dealer or any of their respective affiliates when making determinations in relation to any of these matters.

(B) **If an investor holds Notes which are not denominated in the investor's home currency, he will be exposed to movements in exchange rates adversely affecting the value of his holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes**

Notes are issued in the currency specified in the Final Terms applicable thereto (the "note currency") and payments on the Notes will be payable in the note currency or, in the case of Dual Currency

RISK FACTORS

Notes, the settlement currency specified in the Final Terms applicable thereto (the "settlement currency"). As such income and principal arising from such Notes are subject to exchange rate risk for an investor who has to convert another currency (the "investor currency") into such note currency to purchase the Notes. Investors should be aware that as a result of such risk they may receive at maturity an amount in the note currency or settlement currency, as applicable, that, if converted back into the investor currency by the investor, may be less than the initially converted amount. The same cross-currency exposure risk applies to the interest payments made in the note currency or settlement currency, as applicable, that are intended to be converted at a spot rate into an investor currency by the holder of the Note.

This currency risk may arise as a result of (but is not limited to) significant changes to exchange rates (including changes due to devaluation of the note currency or settlement currency, as applicable, or revaluation of the investor currency) and the risk that authorities with jurisdiction over the investor currency may impose or modify exchange controls. An appreciation in the value of the investor currency relative to the note currency or settlement currency, as applicable, would decrease (1) the investor currency-equivalent yield on the Notes, (2) the investor currency equivalent value of the principal payable on the Notes and (3) the investor currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

(C) **The Notes entail particular risks**

The Notes to be issued under the Programme will entail particular risks. The Notes are investment instruments which may or may not bear interest and which at maturity or earlier in case of early redemption pay the final redemption amount or the early redemption amount which may or may not be equal to the principal amount of the relevant Note.

Notes which are not principal protected may result in the holder thereof losing some or, in certain limited cases, all of such holder's initial investment. In addition, all Notes, including Notes which are expressed to be fully or partially principal protected, will give an investor exposure to the credit and default risk of the Issuer and Guarantor.

Notes issued under the Programme may be structured such that principal, interest and/or premium, if any, payable on such Notes are determined by reference to the value or level of various underlying factors or a combination thereof, including, but not limited to one or more inflation indices, one or more currencies (including exchange rates or swap indices between currencies or composite currencies), one or more interest rates, formulae or other variables (the "**Underlying Reference**"). Notes where the principal amount, interest amount and/or premium payable (if any) is dependent upon the performance of the Underlying Reference may result in the Noteholder receiving no, or only a limited return on his investment.

The price at which a holder of Notes will be able to sell Notes prior to their redemption may be at a substantial discount to the market value of the Notes at the issue date depending upon the performance of the Underlying Reference at the time of sale.

(D) The value of the Notes may fluctuate

The value of the Notes may move up and down between their date of purchase and their maturity date. Holders of the Notes may sustain a total loss of their investment depending on the factors stated below (subject to any principal protection provided for under the terms of the relevant Notes, if applicable). Prospective purchasers should therefore ensure that they understand fully the nature of the Notes before they invest in the Notes.

Several factors, many of which are beyond the relevant Issuers' and Guarantor's control, will influence the value of the Notes at any time, including (but not limited to) the following:

- (a) **General economic conditions.** The market for debt securities is influenced by economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other countries and areas. There can be no assurance that events occurring elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.
- (b) **Valuation of the Underlying Reference.** Where the Notes are linked to the performance of an Underlying Reference, the market value of the Notes at any time is expected to be affected primarily by changes in the price, value, level or rate (as the case may be) of the Underlying Reference to which such Notes are linked. It is impossible to predict how the price, value, level or rate (as the case may be) of the relevant Underlying Reference will vary over time. Factors that may have an effect on the price, value, level or rate (as the case may be) of the Underlying Reference include economic, financial and political events. Potential investors should also note that whilst the market value of the Notes is linked to the changes in the price, value, level or rate (as the case may be) of the Underlying Reference and will be influenced (positively or negatively) by such changes, any change may not be comparable and may be disproportionate. It is possible that while the price, value, level or rate (as the case may be) of the Underlying Reference is increasing, the value of the Notes may fall.
- (c) **Interest Rates.** Investors in Notes are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Notes. Investments in the Notes may involve interest rate risk with respect to the currency of denomination of the Underlying Reference and/or the Notes. A variety of factors influence interest rates such as macroeconomic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Notes at any time prior to valuation of the Underlying Reference relating to the Notes.
- (d) **Volatility of the Underlying Reference.** The term "volatility" of an Underlying Reference refers to the actual and anticipated frequency and magnitude of changes of the price, value, level or rate (as the case may be) of an Underlying Reference. Volatility is affected by a number of factors such as macro economic factors, speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of an Underlying Reference will move up and down over time (sometimes more sharply than others) and different Underlying References will most likely have separate volatilities at any particular time. Where Notes are linked to an Underlying Reference, the volatility of the Underlying Reference(s) may have an effect on the volatility of the Notes.
- (e) **Exchange Rates.** Even where payments in respect of the Notes are not expressly linked to a rate or rates of exchange between currencies, the value of the Notes could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Notes is to be made and any currency

RISK FACTORS

in which the Underlying Reference is traded, appreciation or depreciation of any such currencies and any existing or future governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of any Notes will be representative of the relevant rates of exchange used in computing the value of the relevant Notes at any time thereafter.

- (f) **Disruption.** If so provided in the applicable Terms and Conditions, the Calculation Agent (as specified in the applicable Final Terms) may determine that a Disruption Event (as defined in the Terms and Conditions) has occurred or exists at a relevant time. Any such determination may affect the value of the Notes and/or may delay settlement in respect of the Notes. Prospective purchasers should review the Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Notes.

(E) **An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes**

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may be not very liquid or not liquid at all. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Potential investors should consequently be willing to hold the Notes through their life. The nature and extent of any secondary market in the Notes cannot be predicted. As a consequence any person intending to hold the Notes should consider liquidity in the Notes as a risk. If the Notes are listed or quoted on an exchange or quotation system this does not imply greater or lesser liquidity than if equivalent Notes were not so listed or quoted. However, if Notes are not listed or quoted there may be a lack of transparency with regard to pricing information. Liquidity may also be affected by legal restrictions on offers for sale in certain jurisdictions. The relevant Issuer may affect the liquidity of the Notes by purchasing and holding the Notes for its own account during trading in the secondary market. Any such Notes may be resold at any time into the market.

(F) **Purchasing the Notes as a hedge may not be effective**

Any person intending to use the Notes as a hedge instrument should recognise the correlation risk. The Notes may not be a perfect hedge to an Underlying Reference or portfolio of which the Underlying Reference forms a part. In addition, it may not be possible to liquidate the Notes at a level which directly reflects the price of the Underlying Reference or portfolio of which the Underlying Reference forms a part.

(G) **Potential Conflicts of Interest**

Potential conflicts of interest may exist between the relevant Issuer, the Guarantor, the Dealer, the Calculation Agent and the Noteholders, including (but not limited to) with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Terms and Conditions that may influence any interest amount due on, and for the amount receivable upon redemption of, the Notes.

RISK FACTORS

The Issuers and their affiliates (including, if applicable, any Dealer) may engage in trading activities (including hedging activities) related to any Notes, any Underlying Reference and any other instruments or derivative products for their proprietary accounts or for other accounts under their management. The Issuers and their affiliates (including, if applicable, any Dealer) may also issue other derivative instruments in respect of or related to any Notes or any Underlying Reference. The Issuers and their affiliates (including, if applicable, any Dealer) may also act as underwriter in connection with future offerings of shares or other securities related to an issue of Notes may act as financial adviser to certain companies or companies whose shares are included in the Underlying Reference or in a commercial banking capacity for such companies. The Issuers and their affiliates (including, if applicable, any Dealer) may carry out activities that minimise its and/or their risks related to the Notes, including effecting transactions for their own account or for the account of their customers and hold long or short positions in the Underlying Reference whether for risk reduction purposes or otherwise. In connection with such hedging or market making activities or with respect to proprietary or other trading activities by the Issuers and their affiliates, the Issuers and their affiliates may enter into transactions in the Underlying Reference which may affect the market price, liquidity or value of the Underlying Reference and/or the Notes and which could be deemed to be adverse to the interests of the holders of the Notes. The Issuers and their affiliates are likely to modify their hedging positions throughout the life of the Notes whether by effecting transactions in the Underlying Reference or in derivatives linked to the Underlying Reference. Further, it is possible that the advisory services that the Issuers and their affiliates provide in the ordinary course of their business could have an adverse effect on the value of the Underlying Reference. Such activities could present certain conflicts of interest, could influence the prices of the Underlying Reference or other securities and could adversely affect the value of the Notes.

(H) **Actions taken by the Calculation Agent may affect the Notes**

The Calculation Agent is the agent of the relevant Issuer and not the agent of the Noteholders. The relevant Issuer may itself act as the Calculation Agent. The Calculation Agent will have discretion, acting in good faith and a commercially reasonable manner, to make such adjustments to the Notes as it considers appropriate in certain circumstances (as set out in the Conditions of the Notes or, in the case of Exempt Notes only, the applicable Pricing Supplement). In making these adjustments the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest in exercising this discretion. The Calculation Agent is not required to make adjustments with respect to each and every corporate action or other event or circumstance entitling it to make an adjustment.

(I) **Holders have no ownership interest in the Underlying Reference**

The Notes convey no interest in the Underlying Reference. The relevant Issuer may choose not to hold the Underlying Reference or any derivatives contracts or other instruments linked to the Underlying Reference. Under the Terms and Conditions of the Notes, there is no restriction on the ability of the relevant Issuer and/or its affiliates to sell, pledge or otherwise convey all right, title and interest in any Underlying Reference or any derivative contracts or other instruments linked to the Underlying Reference.

(J) **Holders have no claim against the Underlying Reference**

The Notes do not represent a claim against any Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference) and Noteholders will not have any right of recourse under the Notes to any such Underlying Reference (or any issuer, sponsor,

manager or other connected person in respect of an Underlying Reference). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying Reference and such entities have no obligation to take into account the consequences of their actions on any Noteholders.

(K) Risk of Leveraged Exposure

Leverage involves the use of a number of financial techniques to increase the exposure to an Underlying Reference, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Underlying Reference moves in the anticipated direction, it will conversely magnify losses when the Underlying Reference moves against expectations. If the relevant Notes include leverage, potential holders of such Notes should note that these Notes will involve a higher level of risk, and that whenever there are losses such losses will be higher (other things being equal) than those of a similar Note which is not leveraged. Investors should therefore only invest in leveraged Notes if they fully understand the effect of leverage.

(L) Taxes may be payable by investors

Potential purchasers and sellers of the Notes should be aware that they may be required to pay stamp duties, taxes or documentary charges in accordance with the laws and practices of the country where the Notes are transferred. In addition, if so indicated in the relevant Final Terms, payments in respect of the Notes may be made subject to deduction for or on account of withholding taxes imposed within Luxembourg (in the case of Notes issued by BP2F) or Belgium (in the case of Notes issued by BNPPF or in the case of the Guarantor), as provided in Condition 7 and without the relevant Issuer or Guarantor, as the case may be, being obliged to make additional payments in respect of such deduction or withholding. Consequently, the payment of principal, interest and/or premium, if any, in respect of the Notes may be less than expected. The applicable Final Terms will specify in each case whether the Issuer will pay additional amounts as specified in the Conditions. Potential purchasers should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment that will apply at any given time.

(M) The Notes may be subject to withholding taxes in circumstances where the Issuer is not obliged to make gross up payments and this would result in holders receiving less interest than expected and could significantly adversely affect their return on the Notes

Payments made in respect of the Notes may be subject to Belgian withholding tax

Belgian withholding tax, currently at a rate of 30 per cent., will in principle be applicable to the interest on the Notes issued by BNPPF that are not held in the NBB–SSS or that are held in a non-exempt securities account (an "**N account**") in the NBB–SSS, as further described in Taxation below. Potential investors should be aware that any relevant tax law or practice applicable as at the date of this Base Prospectus and/or the date of purchase or subscription of the Notes may change at any time (including during any subscription period or the term of the Notes). Any such change may have an adverse effect on a Noteholder, including that the liquidity of the Notes may decrease and/or the amounts payable to or receivable by an affected Noteholder may be less than otherwise expected by such Noteholder.

Potential investors who are in any doubt as to their tax position should consult their own independent tax advisers.

(N) **The proposed financial transactions tax ("FTT")**

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or participating Member States may decide to withdraw.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

(O) **The Notes may be redeemed prior to their stated maturity date**

The relevant Issuer may at its discretion and without obligation redeem the Notes early for tax reasons (if specified as applicable in the relevant Final Terms), following an event of default or because the relevant Issuer determines that the performance of its obligations under the Notes has become illegal or impractical in whole or in part for any reason or if by reason of force majeure or act of state it becomes impossible or impracticable to perform, in whole or in part, its obligations under the Notes and/or any related hedging arrangements. The relevant Issuer may also redeem the Notes early for certain reasons relating to an Underlying Reference, as further described below. If the relevant Issuer redeems the Notes early, the relevant Issuer will, if so provided in the Conditions as completed by the relevant Final Terms and if and to the extent permitted by applicable law, pay the holder of each such Note the Early Redemption Amount specified in the relevant Final Terms. In addition, the Conditions as completed by the relevant Final Terms may provide for redemption at the option of the Issuer on the Issuer's Option Period at the Early Redemption Amount(s) (as specified in the in the relevant Final Terms). In the event of any early redemption, a Noteholder may not be able to reinvest the proceeds of such redemption in a comparable security. The relevant Issuer is not liable for any disadvantage a holder of Notes incurs in respect of the new investment or non-investment of its capital.

(P) **Risks associated with Notes held in global form**

Notes in bearer form will initially be represented by a Global Note deposited with a common depositary or a common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg or deposited with the NBB as operator of the NBB–SSS (in the case of certain Notes issued by BNPPF only) or a depositary for one or more other clearing systems specified in the applicable Final Terms (each such clearing system, a "**Relevant Clearing System**" and together, the "**Relevant Clearing Systems**"). A Global Note will be exchangeable for Definitive Notes only in the limited circumstances described in the Global Notes.

Notes issued by BNPPF may be issued in dematerialised form under the Belgian Company Code ("**Dematerialised Notes**"). Dematerialised Notes cannot be physically delivered and will be represented exclusively by book entries in the records of the NBB–SSS.

For so long as any Notes are held by or on behalf of a Relevant Clearing System, payments of principal, interest and any other amounts will be made through the Relevant Clearing System, where required, against presentation (where applicable) or surrender (as the case may be) of the relevant Global Note and, in the case of a temporary Global Note, certification as to non-U.S. beneficial ownership. The bearer of the relevant Global Note, typically a depositary for the Relevant Clearing System and not the holders of only a beneficial interest in the Global Note will be treated by the relevant Issuer and any Paying Agent as the sole holder of the relevant Notes with respect to the payment of principal, interest (if any) and any other amounts payable in respect of the Notes and the relevant Issuer and (in the case of Notes issued by BP2F) the Guarantor will discharge their payment obligations under the Notes by making payments to the common depositary for Euroclear and Clearstream, Luxembourg or the NBB or such other depositary, as the case may be for distribution to their account holders.

Notes which are held by or on behalf of a Relevant Clearing System will be transferable only in accordance with the rules and operating procedures for the time being of the Relevant Clearing System and investors will have to rely on such rules and operating procedures for transfer, payment and communication with the relevant Issuer and/or (in the case of Notes issued by BP2F) the Guarantor. None of the Issuers, the Guarantor and the Paying Agents have any responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes and shall not under any circumstances be liable for any acts or defaults of any Relevant Clearing System in relation to the performance of its duties in relation to the Notes.

Access to the Relevant Clearing Systems is available through their respective participants. NBB–SSS participants include certain banks, stockbrokers (*beursvennootschappen/sociétés de bourse*), and Euroclear, Euroclear France SA, Clearstream, Frankfurt, Monte Titoli SPA, SIX SIS AG and INTERBOLSA S.A. The relevant Issuer, the Domiciliary Agent, the Fiscal Agent and the Paying Agents will have no responsibility for the proper performance of the Relevant Clearing Systems and the relevant Issuer will have no responsibility or liability for the records relating to, or payments made in respect of, the Notes within any such Relevant Clearing System.

Accountholders holding beneficial interests in the Global Notes through a Relevant Clearing System will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the Relevant Clearing System to appoint appropriate proxies. Similarly, accountholders holding beneficial interests in the Global Notes through a Relevant Clearing System will not have a direct right under the Global Notes to take enforcement action against the relevant Issuer in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant (as defined in the Conditions).

(Q) Settlement Risk

Settlement of the Notes is subject to all applicable laws, regulations and practices in force at the relevant time and neither the relevant Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices.

(R) Risk associated with nominee arrangements

Where a nominee service provider is used by an investor to hold Notes or such investor holds interests in any Note through an account with a Relevant Clearing System, such investor will receive payments in respect of principal, interest, or any other amounts due, or securities deliverable, as applicable, solely on the basis of the arrangements entered into by the investor with the relevant nominee service provider or Relevant Clearing System, as the case may be. Furthermore, such investor must rely on the relevant nominee service provider or Relevant Clearing System to distribute all payments or securities attributable to the relevant Notes which are received from the relevant Issuer. Accordingly, such an investor will be exposed to the credit risk of, and default risk in respect of, the relevant nominee service provider or Relevant Clearing System, as well as the relevant Issuer.

In addition, such a Noteholder may only be able to sell any Notes held by it prior to their stated maturity date with the assistance of the relevant nominee service provider. None of the Issuers, the Guarantor and the Paying Agents shall be responsible for the acts or omissions of any relevant nominee service provider or Relevant Clearing System nor makes any representation or warranty, express or implied, as to the service provided by any relevant nominee service provider or Relevant Clearing System.

(S) The Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

(T) Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if Definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

RISK FACTORS

If such Notes in definitive form are issued, holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

(U) The return on an investment in Notes will be affected by charges incurred by investors

An investor's total return on an investment in any Notes will be affected by the level of fees charged by the nominee service provider and/or Relevant Clearing System used by the investor. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of Notes, custody services and on payments of interest, principal and other amounts or delivery of securities. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Notes.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the potential profit of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional — domestic or foreign — parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Prospective investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

(V) Credit ratings assigned to the Issuers, Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes

One or more independent credit rating agencies may assign credit ratings to the Issuers, the Guarantor or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. A rating agency may fail to withdraw its rating in a timely manner.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating

agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

(W) Credit rating reduction may result in a reduction in the trading value of the Notes

The value of the Notes is expected to be affected, in part, by investors' general appraisal of the creditworthiness of the Issuers and, if applicable, the Guarantor. Such perceptions are generally influenced by the ratings accorded to the outstanding securities of the Issuers by standard statistical rating services, such as Moody's, S&P and Fitch. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuers by one of these or other rating agencies could result in a reduction in the trading value of the Notes.

(X) Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (a) Notes are legal investments for it, (b) Notes can be used as collateral for various types of borrowing and (c) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

(Y) Change of law

The Conditions are predominantly governed by English law. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

(Z) Impact of the Bank Recovery and Resolution Directive – Resolution measures

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "**Bank Recovery and Resolution Directive**" or "**BRRD**"), entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institutions failure on the economy and financial system.

The BRRD provides that it will be applied from 1 January 2015, except for the general bail-in tool (see below) which applies from 1 January 2016.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through

RISK FACTORS

eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Notes) to equity (the "**general bail-in tool**"), which equity could also be subject to any future cancellation, transfer or dilution.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments such as subordinated Notes at the point of non-viability and before any other resolution action is taken ("**non-viability loss absorption**"). Any shares issued to holders of subordinated Notes upon any such conversion into equity may also be subject to any future cancellation, transfer or dilution.

The powers set out in the BRRD impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. The impact of the BRRD and its implementing provisions on credit institutions, is currently unclear but its current and future implementation and application to any relevant Issuer or Guarantor or the taking of any action under it could materially affect the activity and financial condition of any relevant Issuer or Guarantor and the value of any Notes.

As a result of the implementation of BRRD, holders of Notes may be subject to write-down or conversion into equity on any application of the general bail-in tool and in the case of subordinated Notes, non-viability loss absorption, which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of holders of Notes, the price or value of their investment in any Notes and/or the ability of the relevant Issuer and/or the Guarantor to satisfy its obligations under any Notes and/or the Guarantee.

(i) *Implementation of BRRD in Belgium*

The implementation of the BRRD into Belgian law has been made by three texts of legislative nature. The first text is the Belgian Law of 25 April 2014 on the status and supervision of credit institutions (the "**Belgian Banking Law**") which implemented partially the BRRD in anticipation.

This law has been amended by the Royal Decree of 18 December 2015 amending the law of 25 April 2014 on the status and supervision of credit institutions (the "**Royal Decree of 18 December 2015**") and the Royal Decree of 26 December 2015 amending the law of 25 April 2014 on the status and supervision of credit institutions relating to the resolution and recovery of group failures (the "**Royal Decree of 26 December 2015**") which introduced various provisions amending and supplementing the Banking Law to adapt Belgian law to the BRRD.

These royal decrees entered into force on 1 January 2016 and were ratified by the law of 27 June 2016.

The Belgian Banking Law has also been amended by the law of 11 March 2018 on the status and supervision of payment institutions and e-money institutions (the "**Law of 11 March 2018**") with the purpose of further transposing the BRRD into Belgian law. The Law of 11 March 2018 entered into force on 26 March 2018.

The Belgian Banking Law includes a number of measures transposing the BRRD. It grants the power to the supervisor to impose certain recovery measures, including the power to

RISK FACTORS

impose in certain circumstances a suspension of activities. Any suspension of activities can, to the extent determined by the competent supervisor, result in the partial or complete suspension of the performance of agreements entered into by the relevant financial institution. The Belgian Banking Law also grants the power to a resolution authority to take a number of resolution measures, including (i) a forced sale of the credit institution, (ii) the establishment of a bridge bank or (iii) the forced transfer of all or part of the assets, rights or obligations of the credit institution.

The Royal Decree of 18 December 2015 organises the bail-in tool provided for in the BRRD. It provides that the resolution authority may proceed (i) to write-down (reducing the amount outstanding, including to zero), (ii) to the conversion of these debts into equity (ordinary shares or other instruments of ownership) under certain conditions and for the pursuit of certain goals or (iii) to the variation of the terms (e.g. the variation of maturity of a debt instrument). Financial public support may only be used as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the bail-in tool. This may result in such holders losing some or all their investment. The exercise of any power under the BRRD and its implementing provisions or any suggestion of such exercise could materially adversely affect the rights of the holders, the price or value of their investment in any Notes and/or the ability of the Issuer or the Guarantor, as the case may be, to satisfy its obligations under any Notes.

The Royal Decree of 26 December 2015 introduces the principle following which, in the context of groups, recovery and resolution plans must be established at group level only, unless otherwise provided.

In addition, it provides that the resolution authority may decide to apply the minimum requirement for own funds and eligible liabilities to credit institutions.

On 31 July 2017, the Belgian legislator amended the Belgian Banking Law in order to give effect to the European Commission's proposals of 23 November 2016 to amend CRD IV and BRRD with respect to the ranking of unsecured debt instruments. The law adds a new article 389/1 in the Belgian Banking Law to establish a new category of unsecured senior debt, so called senior "non-preferred" debt, which ranks junior to senior "preferred" debt. This is in line with Article 108 of BRRD, as amended by Directive (EU) 2017/2399 of the European Parliament and of the Council of 12 December 2017 amending the BRRD as regards the ranking of unsecured debt instruments in insolvency.

In addition, Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund has established as single resolution mechanism. A centralised power of resolution is entrusted to the Single Resolution Board, while the national resolution authorities (for Belgium, le *Collège de résolution/het Afwikkelingscollege*) will remain responsible for certain tasks within the Single Resolution Mechanism.

These measures may have an impact on the performance by BNPPF of its obligations under the Notes and execution of the transaction documents to which BNPPF is a party.

The specific resolution rules set aside the traditional bankruptcy rules allowing the avoidance of transactions entered into during the so called "suspect period" (i.e. claw back); these rules do not apply to the acts of disposal adopted in the context of resolution measures.

Moreover, the Belgian Royal Decree dated 22 February 2015 creates two new preferential rights on a bank's movables for depositors and for the guarantee fund.

Prospective investors in the Notes should consult their own advisors as to the consequences of the Single Resolution Mechanism and the implementation of the BRRD in Belgian law.

(ii) *Implementation of BRRD in Luxembourg*

The BRRD has been transposed into Luxembourg law by the Luxembourg act dated 18 December 2015 on the failure of credit institutions and investment firms, as amended (page 6000) (the "**BRR Act 2015**"). In line with the BRRD, the BRR Act 2015 gives, amongst others, power to the Commission de Surveillance du Secteur Financier (the "**CSSF**") as the Luxembourg resolution authority (*Conseil de Résolution*) to implement resolution measures under the BRR Act 2015.

The BRR Act 2015 provides for certain resolution measures, including the power to impose in certain circumstances a suspension of activities resulting in the partial or complete suspension of the performance of agreements entered into by a Luxembourg incorporated entity falling under the scope of such measures, such as BP2F. The resolution tools are intended to be used prior to the point in time at which any insolvency proceedings with respect to the relevant entity could have been initiated and only upon the relevant resolution authorities, i.e. the CSSF, acting in its capacity as resolution authority for Luxembourg, being satisfied that the relevant conditions for resolution contained in articles 33 and 34 of the BRR Act 2015 have been met. The BRR Act 2015 also grants the power to the CSSF, acting in its capacity as the national resolution authority, to take a number of resolution measures, including the application of the general bail-in tool.

Where an institution or a financial institution is considered as failing or likely to fail the available measures include:

- (i) sale of business – enables resolution authorities to direct the sale of the institution or the whole or part of its business on commercial terms;
- (ii) bridge institution – enables resolution authorities to transfer of all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control);
- (iii) asset separation – enables resolution authorities to transfer impaired or problem assets to a bridge institution or one or more asset management vehicles to allow them to be managed and with a view to maximising their value through eventual sale or orderly wind-down; and
- (iv) bail-in – gives resolution authorities the power to write-down the claims of unsecured creditors of a failing institution and/or to convert certain unsecured liabilities (including liabilities under the Notes) to equity, which equity could also be subject of any future write-down.

If the general bail-in tool and the statutory write-down and conversion power become applicable to BP2F, the Notes may be subject to write-down or conversion into equity (that is, ordinary shares or other own funds) on any application of the general bail-in tool and potentially before any other resolution action is taken, which may result in such holders losing permanently some or all of their investment (in particular, the amount of the outstanding may be reduced to zero) without their consent. Subject to certain conditions, the

RISK FACTORS

terms of the obligations owed by BP2F (including under the Notes issued by it) may also be varied by the resolution authority (e.g. as to maturity, interest and interest payment dates). The exercise of any power under the BRR Act 2015 or any suggestion of such exercise could materially adversely affect the rights of Noteholders, the price or value of their investment in any Notes and/or the ability of BP2F to satisfy its obligations under any Notes.

For the purposes of the application of the mandatory write-down and conversion power, the point of non-viability is the point in time at which the relevant resolution authority determines that the institution or its group meets the conditions for resolution (but no resolution action has yet been taken) and/or will no longer be viable unless the relevant capital instruments are written down or converted into ordinary shares and/or extraordinary public support is required by the institution or its group.

Resolution measures and measures preceding such resolution measures under the BRR Act 2015 may have an impact on the performance by BNPPF and/or BP2F of their obligations under the Notes and execution of the transaction documents to which BNPPF and/or BP2F are a party.

Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund has established as single resolution mechanism. A centralised power of resolution is entrusted to the Single Resolution Board (the "**SRB**") and the national resolution authorities (for Luxembourg, the CSSF through the Resolution Council) will work in close cooperation with it and will be responsible for the execution of the resolution scheme according to the instructions of the SRB.

On 23 November 2016, the European Commission published legislative proposals for amendments to the Capital Requirements Regulation, the Capital Requirements Directive and the BRRD and proposed an amending directive to facilitate the creation of a new asset class of "non-preferred" senior debt (the "Proposals"). The Proposals cover multiple areas, including the Pillar 2 framework, the leverage ratio, mandatory restrictions on distributions, permission for reducing own funds and eligible liabilities, macro-prudential tools, a new category of "non-preferred" senior debt and the MREL (minimum requirements for own funds and eligible liabilities) framework. Following the Proposals published by the European Commission of 23 November 2016 the "Creditor Hierarchy Directive" came into force which amends the BRRD as regards the ranking of unsecured debt instruments in the insolvency hierarchy. The Creditor Hierarchy Directive, when transposed into national law, will introduce a new creditor hierarchy for unsecured debt instruments with the inclusion of a new MREL/TLAC eligible subordinated debt class within that hierarchy. Member States have until 29 December 2018 to transpose the Creditor Hierarchy Directive into national law. On 14 May 2018, the Luxembourg government lodged a bill transposing the Creditor Hierarchy Directive into Luxembourg law with the Luxembourg parliament starting the legislative process for the transposition of the Creditor Hierarchy Directive in Luxembourg.

Prospective investors in the Notes should consult their own advisors as to the consequences of the SRM and the implementation of the BRRD, in particular in Luxembourg by the BRR Act 2015.

(AA) **Reform of LIBOR and EURIBOR and other interest rate indices and equity, commodity, interest rate and foreign exchange rate "benchmarks"**

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks".

The London Inter-Bank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") are, and other types of indices, including (but not limited to) indices comprised of interest rates, equities, commodities, commodity indices, exchange traded products, foreign exchange rates, funds and combinations of any of the preceding types of indices which may be deemed to be "benchmarks", which have been the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

Key international regulatory initiatives relating to the reform of benchmarks include IOSCO's Principles for Financial Benchmarks (the "**IOSCO Principles**") and Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directive 2008/48/EC and 2014/17/EC and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**"). The IOSCO Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering (among other things) governance and accountability as well as the quality, integrity and transparency of benchmark design, determination and methodologies. A review published by IOSCO in February 2015 of the status of the voluntary market adoption of the IOSCO Principles noted that there has been significant but mixed progress on implementation of IOSCO Principles but that as the benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future.

The Benchmarks Regulation was published in the Official Journal of the EU on 29 June 2016. Most of the provisions of the Benchmarks Regulation have applied since 1 January 2018 with the exception of certain transitional provisions (mainly on critical benchmarks) that applied from 30 June 2016. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union and, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of "benchmarks" and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised/registered (or, if non-EU based, deemed equivalent or recognised or endorsed). The scope of the Benchmarks Regulation is wide and, in addition to so-called "critical benchmark" indices, such as EURIBOR, applies to many other indices (including "proprietary" indices or, potentially, baskets, portfolios or strategies) where used to determine the amount payable under or the value or performance of certain financial instruments for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue (EU regulated market, EU multilateral trading facility ("**MTF**"), EU organised trading facility ("**OTF**")) or via a systematic internaliser or to measure the performance of certain investment funds with the purpose of tracking the return or defining the asset allocation or computing the performance. Different types of benchmark (critical benchmarks, significant benchmarks, non-significant benchmarks and interest rate benchmarks, commodity benchmarks, regulated data benchmarks) are subject to some variations to take into account their characterisation.

The Benchmarks Regulation could have a material impact on any Notes for which a request for admission to trading on a trading venue has been made, or which are traded on a trading

RISK FACTORS

venue or via a "systematic internaliser" linked to, referencing or otherwise dependent (in whole or in part) upon a "benchmark" index, including in any of the following circumstances:

- subject to any applicable transitional provisions, an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator, or the benchmark (in the case of benchmarks provided by administrators located outside of the EU), is not entered in or is removed from ESMA's register of Benchmarks Regulation approved administrators/benchmarks (for example, if the administrator does not obtain or retain authorisation or registration under the Benchmarks Regulation, or, if based in a non-EU jurisdiction, the administrator does not obtain or retain recognition or endorsement and the administrator/benchmark does not benefit from equivalence);
- the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation; and
- the fallback provisions specified in the terms of the Notes may apply or, if Condition 5.15 (*Redemption or Amendment of Notes for Administrator/Benchmark Event*) is specified in the applicable Final Terms as applicable, the Issuer may either redeem the Notes at their Early Redemption Amount or may amend the terms of the Notes in order to comply with the provisions of the Benchmarks Regulation (see "*Administrator/Benchmark Event*" below).

Any of the international, national or other reforms or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks" (or certain currencies or tenors of benchmarks) or have other adverse effects or unforeseen consequences. The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could result in adjustment to the terms and conditions, early redemption or termination, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Notes linked to such "benchmark". Any such consequence could have a material adverse effect on the value of and return on any such Notes linked to or referencing a "benchmark".

Administrator/Benchmark Event

If Condition 5.15 (*Redemption or Amendment of Notes for Administrator/Benchmark Event*) is specified in the applicable Final Terms as applicable, the occurrence of an Administrator/Benchmark Event may lead to early redemption or adjustment of the Notes. An Administrator/Benchmark Event may occur in any of the following circumstances: (i) if a benchmark is materially changed or permanently cancelled, (ii) the relevant authorisation, registration, recognition, endorsement, equivalence or approval in respect of the benchmark or the administrator of the benchmark is not obtained, (iii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iv) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn.

RISK FACTORS

Future discontinuance of LIBOR or EURIBOR may adversely affect the value of the Notes

On 27 July 2017, the Chief Executive of the United Kingdom Financial Conduct Authority, which regulates LIBOR, announced that it does not intend to continue to persuade, or use its powers to compel, panel banks to submit rates for the calculation of LIBOR to the administrator of LIBOR after 2021. The announcement indicates that the continuation of LIBOR on the current basis is not guaranteed after 2021. It is not possible to predict whether, and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR going forwards. This may cause LIBOR to perform differently than it did in the past and may have other consequences which cannot be predicted.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, and in a subsequent speech by its Chief Executive on 12 July 2018, the UK Financial Conduct Authority ("**FCA**") confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcements**"). The FCA Announcements indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

Separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate ("**ESTR**") as the new risk free rate. ESTR is expected to be published by the ECB by October 2019. In addition, on 21 January 2019, the euro risk free-rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

Investors should be aware that, if LIBOR or EURIBOR were discontinued or otherwise unavailable, the rate of interest on the Notes will be determined for the relevant period by the fall-back provisions applicable to the Notes. Depending on the manner in which the LIBOR rate is to be determined under the Terms and Conditions, this may in certain circumstances result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR or EURIBOR was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, the Notes.

The market continues to develop in relation to SONIA as a reference rate for Floating Rate Notes

On 29 November 2017, the Bank of England and the FCA announced that, from January 2018, the Bank of England's Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") over the next four years across sterling bond, loan and derivatives markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Investors should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to

RISK FACTORS

measure the market's forward expectation of an average SONIA rate over a designated term). The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions and used in relation to Floating Rate Notes that reference a SONIA rate issued under this Base Prospectus. The nascent development of Compounded Daily SONIA as an interest reference rate for the Eurobond markets, as well as continued development of SONIA-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes. Interest on Notes which reference a SONIA rate is only capable of being determined at the end of the relevant Interest Period and shortly prior to the relevant Interest Payment Date. It may be difficult for investors in Notes that reference a SONIA rate to estimate reliably the amount of interest that will be payable on such Notes. In addition, the manner of adoption or application of SONIA reference rates in the Eurobond markets may differ materially compared with the application and adoption of SONIA in other markets, such as the derivative and loan markets. Investors should carefully consider how any mismatch between the adoption of SONIA reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes referencing a SONIA rate. Investors should consider these matters when making their investment decision with respect to any such Floating Rate Notes.

(BB) Senior Notes are Unsecured Obligations

The Senior Notes are unsubordinated and unsecured obligations of the relevant Issuer and will rank pari passu with themselves.

Each issue of Notes issued by BP2F will be guaranteed by BNPPF pursuant to the BNPPF Note Guarantee. The obligations of BNPPF under the BNPPF Note Guarantee are unsubordinated and unsecured obligations of BNPPF and will rank pari passu with all its other present and future unsubordinated and unsecured obligations, subject as may from time to time be mandatory under Belgian Law.

(CC) A Note's purchase price may not reflect its inherent value

Prospective investors in the Notes should be aware that the purchase price of a Note does not necessarily reflect its inherent value. Any difference between a Note's purchase price and its inherent value may be due to a number of different factors including, without limitation, prevailing market conditions and fees, discounts or commissions paid or accorded to the various parties involved in structuring and/or distributing the Note. For further information prospective investors should refer to the party from whom they are purchasing the Notes. Prospective investors may also wish to seek an independent valuation of Notes prior to their purchase.

(DD) The Issuer or the Guarantor may be substituted by another entity

The conditions of the Notes provide that the Issuer may, following the occurrence of certain events, without the consent of the Holders and without regard to the interests of particular Holders, agree to the substitution of another company as the principal obligor under any Note in place of the Issuer, subject to the conditions set out in Condition 10.4 (*Substitution*). In particular, in the case of guaranteed securities, where the substitute is not the relevant Guarantor, the Guarantor will guarantee the performance of the substitute's obligations under the Notes.

RISK FACTORS

The conditions of the Securities also provide that BNPPF may, following the occurrence of certain events, without the consent of the Holders and without regard to the interests of particular Holders, agree to the substitution of another company as the guarantor in respect of any Notes issued by BP2F, subject to the conditions set out in Condition 10.4 (*Substitution*). In particular, the creditworthiness of the substitute guarantor must be at least equal to that of BNPPF, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner by reference to, inter alia, the long term senior debt ratings assigned by such rating agencies as the Calculation Agent determines.

The Issuer will give Holders notice of such substitution in accordance with Condition 13 (*Notices*).

The terms of the Notes contain no negative pledge, and the Issuer is not prohibited from incurring additional debt.

There is no negative pledge in respect of the Notes and the Terms and Conditions of the Notes place no restrictions on the incurrence by the Issuers or the Guarantor of additional obligations that rank *pari passu* with, or senior to, the Notes. In addition, the Issuers or the Guarantor may pledge assets to secure other notes or debt instruments without granting an equivalent pledge or security interest and status to the Notes.

(EE) Post-issuance Information

Save as set out in the applicable Final Terms, the relevant Issuer will not provide post-issuance information in relation to the Notes or/and the underlying reference (if any). In such an event, investors will not be entitled to obtain such information from the relevant Issuer.

(FF) Risks Relating to Automatic Early Redemption of the Securities

In the case of Notes that include an Automatic Early Redemption feature, the longer the time remaining until the scheduled maturity date of the Securities, the higher the probability that an Automatic Early Redemption Event will occur.

In the event that the relevant level, value or price of the Underlying Reference approaches the level that triggers the Automatic Early Redemption Event, the Holder may not be able to sell the Notes in the secondary market before the occurrence of the Automatic Early Redemption Event (see also "Possible Illiquidity of the Note in the Secondary Market" above). If the Underlying Reference is listed on a different exchange to that on which the Notes are listed (in case the Notes are listed), the Automatic Early Redemption Event may occur outside the normal trading hours of the exchange on which the Notes are listed. In this case, the Holder may not have an opportunity to sell the Notes in the secondary market before the Automatic Early Redemption Event occurs.

(GG) Risk of Loss Following Automatic Early Redemption of the Securities

In the case of Notes that include an Automatic Early Redemption feature, if the relevant level, value or price of the Underlying Reference(s) reaches the level that triggers the Automatic Early Redemption Event, the product will automatically redeem before the scheduled maturity date. Depending on the applicable payout the Holder may lose some or all of his investment in the Notes.

(III) Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may, in addition to the risks described above, have features which contain particular risks for potential investors.

Prospective investors should consult their own financial, tax and legal advisors as to the risks entailed by an investment in such Notes and the suitability of such Notes in light of their particular circumstances and ensure that its acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of its incorporation and/or in which it operates, and is a suitable investment for it to make. The Issuers believe that such Notes should only be purchased by investors who are, or who are purchasing under the guidance of, financial institutions or other professional investors that are in a position to understand the special risks that an investment in these instruments involves, in particular relating to options and derivatives and related transactions, and should be prepared to sustain a total loss of the purchase price of their Notes.

Set out below is a description of some of the most common of such features.

(A) Structured Notes in general

An investment in Notes, the payment of principal, interest and/or premium of which is determined by reference to one or more Underlying Reference (either directly or indirectly) and has certain structural features or combination of structural features ("**Structured Notes**"), may entail significant risks not associated with similar investments in a conventional debt security or a direct investment in the Underlying Reference, including the risks that the resulting rate of return will be less than that on a conventional debt security or the Underlying Reference and/or that an investor may lose the value of its entire investment or part of it, as the case may be. Neither the current nor the historical value of the relevant Underlying Reference should be taken as an indication of future performance of (a) such Underlying Reference or (b) the trading or market value of a Note, during the term of any Note.

An issue of Structured Notes may not give a holder the right to reimbursement of the nominal value of such Note. Accordingly, investment in Structured Notes is only suitable for investors who are prepared to accept the risk that all or part of their capital may be lost.

The Underlying Reference(s) and/or the composition thereof, method of calculation (if applicable) or other factors of the Underlying Reference(s) may change in the future. There is no assurance that issuers, sponsors, licensors of the Underlying Reference(s) or any other third party (as the case may be) who have an influence on the Underlying Reference(s) will not change the composition thereof, method of calculation or other factors of the Underlying Reference(s). Any such change to the Underlying Reference(s) may be beyond the control of the relevant Issuer and may adversely affect the value of the Notes.

If the formula used to determine the amount of principal and interest, if any, with respect to such Notes contains a multiplier or leverage factor, the effect of any change in the Underlying Reference(s) will be magnified. In recent years, values of certain Underlying Reference(s) have been highly volatile; such volatility in the past is not necessarily indicative, however, of fluctuations that may occur in the future.

Structured Notes are Notes which do not provide for predetermined redemption amounts and/or interest payments but amounts payable (whether in respect of principal and/or interest) will be dependent upon the performance of the Underlying Reference which themselves may contain substantial interest rate, foreign exchange, correlation, time value, political and/or other risks. The

RISK FACTORS

exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements. Potential investors should be aware that under the terms of Structured Notes they are exposed to the performance of these hedging arrangements and the events that may affect these hedging arrangements and consequently the occurrence of any of these events may affect the value of the Notes.

An investment in Structured Notes linked to an Underlying Reference therefore entails significant risks that are not associated with similar investments in a conventional fixed or floating rate debt security. These risks include, among other things, the possibility that:

- the Underlying Reference may be subject to significant changes, whether due to the composition of any such Underlying Reference itself, or because of fluctuations in value of the Underlying Reference;
- the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the relevant Issuer at the same time;
- the holder of a Structured Note linked to an Underlying Reference could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on such Note;
- any Note that is linked to more than one type of Underlying Reference, or to formulae that encompass the risks associated with more than one type of Underlying Reference, may carry levels of risk that are greater than Notes that are indexed to one type of Underlying Reference only;
- it may not be possible for investors to hedge their exposure to these various risks relating to Structured Notes linked to one or more Underlying Reference(s);
- a significant market disruption could mean that any Underlying Reference ceases to exist; and
- as a result of one or more of the above factors the trading or market value of the Structured Notes may be volatile or non-correlated with the Underlying Reference.

(B) Notes subject to optional redemption by the relevant Issuer

Notes may be subject to optional redemption by the relevant Issuer. An optional redemption feature of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may choose to redeem Notes early for various reasons. For example, the relevant Issuer may choose to redeem Notes early when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time and that it may not be able to find a comparable product to the Note being redeemed at the time of redemption. In addition, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes and part of the Noteholders' investment may be lost.

(C) Additional Disruption Events and Optional Additional Disruption Events

If an Additional Disruption Event or any Optional Additional Disruption Event specified in the applicable Final Terms occurs, the Notes may be subject to adjustment or redemption or the amount payable on scheduled redemption may be different from the amount expected to be paid at scheduled redemption. The Additional Disruption Events relate to changes in law (including changes in tax or regulatory capital requirements) and hedging disruption in respect of any hedging transactions relating to the Notes (both as more fully set out in the Conditions). Optional Additional Disruption Events relate to increased cost of any hedging transactions in respect of the Notes (as set out in the Conditions).

Consequently the occurrence of an Additional Disruption Event and/or an Optional Additional Disruption Event may have an adverse effect on the value or liquidity of the Notes.

(D) Limited Exposure to Underlying Reference

If the applicable Final Terms provide that the exposure of any Structured Notes to one or more Underlying References is limited or capped to a certain level or amount, such Notes will not benefit from any upside in the value of any such Underlying References beyond such limit or cap.

(E) Partly-Paid Notes

The relevant Issuer may issue Exempt Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

(F) Inverse Floating Rate Notes

Investments in Notes which bear interest at an inverse floating rate comprise (a) a fixed base rate minus (b) a reference rate ("**Inverse Floating Rate Notes**"). Investors should note that any increase in the value or level of the Underlying Reference will not lead to a corresponding increase in the principal, interest and/or premium payable on the Notes and consequently the value of the Notes. Any increase in the value or level of the Underlying Reference will result in a decrease in the principal, interest and/or premium payable on the Notes, and therefore the market value of such Notes. The market value of such Notes is usually more volatile than the market value of floating rate Notes based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which may further reduce the market value of these Notes.

(G) Variable Rate Notes

The relevant Issuer may issue Notes where the redemption amount, interest and/or premium, if any payable on the Notes is linked to changes in one or more rates and/or Underlying References specified in the Final Terms ("**Variable Rate Notes**") during the period specified therein. Prospective purchasers of the Notes should make their own independent evaluation of the risks associated with an investment in the Notes. The rates and/or Underlying References to which the Variable Rate Notes are linked to may be volatile and unpredictable. Investors should be aware that it may be possible that there may be significant changes in such rates and/or Underlying References and such changes may lead to a decrease in the value of the Notes and the amount of the redemption amount and any interest and/or premium payable on the Notes.

(H) Fixed to Floating Rate Notes

Fixed to floating rate Notes initially bear interest at a fixed rate. Conversion from a fixed rate to a floating rate then takes place either automatically or, in the case of Exempt Notes only, at the option of the relevant Issuer (if certain predetermined conditions are met or at the sole discretion of the relevant Issuer). The conversion (whether automatic or optional) of the interest rate will affect the secondary market in, and the market value of, the Notes since the conversion may lead to a lower overall cost of borrowing for the relevant Issuer. If a fixed rate is converted to a floating rate, the spread on the fixed to floating rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes.

(I) Certain Considerations Associated with Notes linked to Emerging Markets

The Issuer may issue Notes where the amount payable on redemption or the interest payable is linked to Underlying References which consist of (i) indices comprising securities of issuers that are located in, or subject to regulation in, emerging or developing countries, or (ii) Notes which are denominated in the currency of, or are traded in, emerging or developing countries or (iii) currencies of emerging or developing countries. Prospective investors should note that additional risks may be associated with investment in such Notes, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws including, but not limited to, those relating to expropriation, nationalisation and confiscation.

Notes traded in emerging or developing countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be slower and more subject to failure than in markets in developed countries.

Increased custodian costs, if applicable, as well as administrative difficulties (such as the applicability of the laws of the jurisdictions of emerging or developing countries to custodians in such jurisdictions in various circumstances, including bankruptcy, ability to recover lost assets, expropriation, nationalisation and record access) may also arise from the maintenance of assets in such emerging or developing countries.

Prospective purchasers of such Notes should also be aware that the probability of the occurrence of a disruption event and consequently loss of investment or profit by an investor may be higher for certain developing or emerging markets. Prospective purchasers are expected to conduct their own enquiries and be satisfied that there are additional risks associated with investments linked to the performance of underlying assets located in these markets.

(J) The occurrence of a FX Settlement Disruption Event may lead to postponement or payment in an alternative currency

If FX Settlement Disruption applies to the Notes and the Calculation Agent determines on the second Business Day prior to the relevant due date for payment (the "**FX Disrupted Payment Date**") that a FX Settlement Disruption Event has occurred and is subsisting, investors should be aware that payments of principal and/or interest (if applicable) may (i) occur at a different time than expected and that no additional amount of interest will be payable in respect of any delay in payment of principal and/or interest and (ii) be made in USD (the "**FX Settlement Disruption Currency**"). In certain circumstances, the rate of exchange used to convert the currency in which the Notes are

denominated into the FX Settlement Disruption Currency may not be the market rate of exchange for such currencies and, in some cases, may be determined by the Calculation Agent in its discretion.

(K) Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing Notes. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing Notes with comparable maturities.

(L) Noteholders will not be able to calculate in advance their rate of return on Floating Rate Notes.

A key difference between Notes which pay a floating rate of interest ("**Floating Rate Notes**") and Notes which pay a fixed rate of interest ("**Fixed Rate Notes**") is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the Terms and Conditions provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the relevant Issuer's ability to issue Fixed Rate Notes may affect the market value and secondary market (if any) of the Floating Rate Notes (and *vice versa*).

(M) Zero coupon Notes are subject to higher price fluctuations than non-discounted Notes.

Changes in market interest rates generally have a substantially stronger impact on the prices of Zero Coupon Notes (as defined below) than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other notes having the same maturity and credit rating.

(N) Senior Subordinated Notes and Junior Subordinated Notes

(i) The relevant Issuer's obligations under Subordinated Notes are subordinated

If the relevant Issuer or the Guarantor is declared insolvent and any applicable winding up, bankruptcy, insolvency or other similar or analogous proceedings are initiated, such Issuer or the Guarantor (as the case may be) will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors and depositors but excluding any obligations in respect of subordinated debt) in full before it can make any payments on the relevant subordinated Notes (which may be either Junior Subordinated Notes or Senior Subordinated Notes (each as defined in the Conditions, and together, the "**Subordinated Notes**"). If this occurs, the relevant Issuer or Guarantor (as the case may be) may not have enough assets remaining after these payments to pay amounts due under the Notes or the Guarantees (as the case may be).

The relevant Issuer's obligations under Subordinated Notes will be unsecured and subordinated and will rank junior in priority of payment to Senior Liabilities. Senior Liabilities means all of the relevant Issuer's liabilities which constitute direct, unconditional, unsubordinated and unsecured obligations of the relevant Issuer. Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of his investment should the relevant Issuer become insolvent.

(ii) *Non Payment under Subordinated Notes*

Any deferral of interest payments will likely have an adverse effect on the market price of the Subordinated Notes. In addition, as a result of the interest deferral provision of the Subordinated Notes, the market price of the Subordinated Notes may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such deferrals and may be more sensitive generally to adverse changes in the relevant Issuer's financial condition.

The holders of Subordinated Notes only have limited rights to declare the Notes immediately due and payable (see Condition 9.2 and 9.3) (the Notes will only become due and payable if an order is made or an effective resolution is passed for the bankruptcy or resolution of the relevant Issuer).

(iii) *Subordinated Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer or, potentially, the Guarantor*

The Bank Recovery and Resolution Directive contemplates that Subordinated Notes may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool. See "*Impact of the Bank Recovery and Resolution Directive - Resolution Measures*").

(O) Subordinated Tier 2 Notes

(i) *Subordinated Tier 2 Notes are subordinated obligations which do not provide for events of default allowing acceleration of payment other than in a dissolution or liquidation*

The Subordinated Tier 2 Notes are direct, unconditional, unsecured and unsubordinated obligations of the relevant Issuer and shall, in the event of a dissolution, liquidation or winding-up of the relevant Issuer (except, in any such case, a solvent liquidation or winding-up solely for the purposes of a reorganisation, reconstruction or amalgamation of the Issuer or substitution in place of the Issuer or a successor in business of the Issuer) be subordinated in right of payment to the claims of the Senior Creditors of the relevant Issuer (as provided for and defined in Condition 3.7).

Therefore, if the relevant Issuer were to be wound up, liquidated or dissolved, the liquidator would first apply assets of such Issuer to satisfy all rights and claims of such Senior Creditors. If the relevant Issuer does not have sufficient assets to settle such claims in full, the claims of the holders of the Subordinated Tier 2 Notes will not be met and, as a result, the holders will lose the entire amount of their investment in the Subordinated Tier 2 Notes. The Subordinated Tier 2 Notes will share equally in payment with the other pari passu claims. If the relevant Issuer does not have sufficient funds to make payments on all of them, holders could lose all or part of their investment. Accordingly, although Subordinated Tier 2 Notes may pay a higher rate of interest than comparable Senior Notes or other debt instruments, which are not subordinated, there is a real risk that an investor in Subordinated Tier 2 Notes will lose all or some of its investments should the relevant Issuer become insolvent.

Furthermore, the Conditions of the Subordinated Tier 2 Notes do not provide for events of default allowing for acceleration of the Subordinated Tier 2 Notes if certain events occur. Accordingly, if the relevant Issuer fails to meet any obligations under the Subordinated Tier 2 Notes, including the payment of any interest, investors will not have the right to accelerate payment of principal, which shall only be due in the event of the relevant Issuer's dissolution or liquidation. Upon a payment default, the sole remedy available to holders of Subordinated

RISK FACTORS

Tier 2 Notes for recovery of amounts owing in respect of any payment of principal or interest on the Subordinated Tier 2 Notes will be the institution of dissolution or liquidation proceedings to the extent permitted under Belgian or Luxembourg law in order to enforce such payment.

Moreover, in any such proceedings, the Subordinated Tier 2 Notes will be subordinated in right of payments in accordance with Condition 3.7. Holders should further be aware that, in or prior to such dissolution or liquidation scenario, the resolution authorities could decide to write down the principal amount of the Subordinated Tier 2 Notes to zero or to convert such principal amount into equity or tier 1 instruments.

- (ii) *Subordinated Tier 2 Notes issued by BNPPF may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*

In relation to BNPPF only, the Bank Recovery and Resolution Directive contemplates that Subordinated Tier 2 Notes may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool. See "*Impact of the Bank Recovery and Resolution Directive – Resolution measures*".

- (iii) *Secondary market in Subordinated Tier 2 Notes may be subject to increased illiquidity*

Subordinated Tier 2 Notes may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid and, if the relevant Subordinated Tier 2 Notes are not listed or no listing is obtained, liquidity, if any, is likely to be further reduced. Therefore, investors may not be able to sell their Subordinated Tier 2 Notes easily or at a price that will provide them with a yield comparable to similar investments that have a developed secondary market. This is likely to be particularly the case for Subordinated Tier 2 Notes given that they are designed for specific investment objectives and have been structured to meet the investment requirements of limited categories of investors. Moreover, the relevant Issuer and its subsidiaries will, under applicable legislation, generally be prohibited from purchasing any Subordinated Tier 2 Notes and will not be able to act as market maker in respect of such securities. Illiquidity may have a severely adverse effect on the market value of the Subordinated Tier 2 Notes.

- (iv) *Subordinated Tier 2 Notes issued by BNPPF may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the Issuer*

In relation to BNPPF only, the Bank Recovery and Resolution Directive contemplates that Subordinated Tier 2 Notes may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool. See "*Impact of the Bank Recovery and Resolution Directive – Resolution measures*".

- (v) *Potential conflicts of interest specific to Subordinated Tier 2 Notes*

Potential investors should be aware that the reason for issuing the Subordinated Tier 2 Notes is, in the case of BNPPF, to raise tier 2 capital which enhances the loss absorption of the Issuer. BNPPF may also act as a dealer in connection with the issue and the placement of certain issues of Subordinated Tier 2 Notes. If at any given time, the relevant Issuer would face financial problems, such Issuer may act in its own best interest and will not be obliged to protect the interests of the holders of the Subordinated Tier 2 Notes. Furthermore, upon the occurrence of a Capital Disqualification Event (as defined in Condition 5.10), BNPPF may decide to redeem Subordinated Tier 2 Notes early or, in the case of Subordinated Tier 2 Notes having a denomination of EUR 100,000 or more, proceed with variation thereof in

accordance with Condition 10.6. In determining its course of action, BNPPF will take its own best interest into account, without being obliged to protect the interests of the holders of the Subordinated Tier 2 Notes.

(P) **Subordinated Notes and Subordinated Tier 2 Notes**

- (i) *Subordinated Notes and Subordinated Tier 2 Notes have a different risk profile from, and will not benefit from the same protections as, bank deposits with BNPPF or any other investment firm in the BNP Paribas Group*

An investment in Subordinated Notes or Subordinated Tier 2 Notes may give rise to higher yields than a bank deposit placed with BNPPF or with any other investment firm in the BNP Paribas Group (a "**BNPP Bank Deposit**"). However, an investment in Subordinated Notes or Subordinated Tier 2 Notes carries risks which are very different from the risk profile of a BNPP Bank Deposit. Subordinated Notes or Subordinated Tier 2 Notes are expected to have greater liquidity than a BNPP Bank Deposit since BNPP Bank Deposits are generally not transferable. However, Subordinated Notes or Subordinated Tier 2 Notes may have no established trading market when issued, and one may never develop. See further "*An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes*" and "*Secondary market in Subordinated Tier 2 Notes may be subject to increased illiquidity*". Payments on Subordinated Notes or Subordinated Tier 2 Notes are subordinated obligations of the relevant Issuer and investments in Subordinated Notes or Subordinated Tier 2 Notes do not benefit from any protection provided pursuant to Directive 2014/49/EU of the European Parliament and of the Council on deposit guarantee schemes or any national implementing measures implementing this Directive in any jurisdiction. Therefore, if the relevant Issuer becomes insolvent or defaults on its obligations, investors investing in such Notes in a worst case scenario could lose their entire investment.

(Q) **Inflation Index-Linked Notes, Foreign Exchange (FX) Rate-Linked Notes, Dual Currency Notes and Underlying Interest Rate-Linked Notes**

- (i) *Inflation Index-Linked Notes*

Inflation Index-Linked Notes ("**Inflation Index-Linked Notes**") are Notes whose redemption amount, interest amounts and/or premium, if any, may be linked to the performance of one or more inflation or price indices during a specified period or on specified dates (as set out in the relevant Final Terms). Investment in Inflation Index-Linked Notes involves risks not associated with an investment in conventional debt securities. In addition to the risk factors that may apply to Notes in general and Structured Notes in general, potential investors should be aware that in relation to Inflation Index-Linked Notes:

- (1) the payment of principal, interest and/or premium is linked to the change in the level of the relevant inflation or price index. If there is little or no change in inflation, the level of the inflation or price index may not change. If there is deflation, the level of the inflation or price index may decrease; consequently, the payment of principal, interest and/or premium, if any, may be less than expected, may be zero or may be the principal protected amount, if any (as specified in the relevant Final Terms);
- (2) the inflation or price index itself and the way such inflation or price index is calculated may change in the future. There can be no assurance that the sponsor of the relevant inflation or price index will not change the method by which it calculates the index. In addition, changes in the way the inflation or price index is

RISK FACTORS

calculated could reduce the level of the index, lower the redemption amount, interest amount and/or premium, if any, payable on the Notes and consequently significantly reduce the value of the Notes. If the relevant inflation or price index is substantially altered or has been terminated and/or a substitute index is employed to calculate the redemption amount, interest amounts and/or premium, if any, payable on the Notes, as described in the applicable Final Terms, that substitution may adversely affect the value of the Notes;

- (3) the historical levels of the relevant inflation or price index are not an indication of future levels of such index. Fluctuations and trends in the inflation or price index that may have occurred in the past are not necessarily indicative of fluctuations or trends that may occur in the future. Noteholders will receive the redemption amount, interest amounts and/or premium, if any, which will be affected by changes in the relevant inflation or price index and such changes may be significant. Changes in the inflation or price index may be a result of various factors over which the relevant Issuer has no control;
- (4) where an "adjusted" inflation or price index is being used in calculating the redemption amount, interest amounts and/or premium, if any, payable on the Notes, there is a risk that the adjustments that have been made by the sponsor of such "adjusted" inflation or price index have not been made accurately in reducing the impact of seasonally and trends which affect inflation. Conversely, where a "non-adjusted" inflation or price index is being used in calculating the redemption amount, interest amounts and/or premium, if any, payable on the Notes, Noteholders should be aware that such "non-adjusted" inflation or price index is subject to the effects of seasonality and trends which affect inflation;
- (5) in certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may redeem the Notes. Such action may have an effect on the value of the Notes;
- (6) if the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the indices on principal or interest payable will be magnified; and
- (7) the market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the inflation index or indices. The level of the inflation index or indices may be affected by the economic, financial and political events in one or more jurisdictions.

Potential investors in any such Notes should be aware that depending on the terms of the Inflation Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an inflation index or result of a formula, the greater the effect on yield.

(ii) *Foreign Exchange (FX) Rate-Linked Notes*

Foreign Exchange (FX) Rate-Linked Notes ("**Foreign Exchange (FX) Rate-Linked Notes**") are Notes whose redemption amount, interest amounts and/or premium, if any, may be linked to one or more currency exchange rate. An investment in Foreign Exchange (FX) Rate-Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On redemption of Foreign Exchange (FX) Rate-Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of one or more Subject Currencies against one or more Base Currencies. Accordingly, an investment in Foreign Exchange (FX) Rate-Linked Notes may bear similar market risks to a direct currency investment, and investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Foreign Exchange (FX) Rate-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

Fluctuations in exchange rates of the relevant currency (or basket of currencies) will affect the value of Foreign Exchange (FX) Rate-Linked Notes. Furthermore, investors who intend to convert gains or losses from the redemption or sale of Foreign Exchange (FX) Rate-Linked Notes into their home currency may be affected by fluctuations in exchange rates between their home currency and the relevant currency (or basket of currencies). Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency (or basket of currencies), regardless of other market forces. Purchasers of Foreign Exchange (FX) Rate-Linked Notes risk losing their entire investment if exchange rates of the relevant currency (or basket of currencies) do not move in the anticipated direction.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). If additional securities relating to particular currencies or particular currency indices are subsequently issued, the supply of securities relating to such currencies or currency indices, as applicable, in the market will increase, which could cause the price at which the Notes and such other securities trade in the secondary market to decline significantly. In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in exchange rates will affect the value of Foreign Exchange (FX) Rate-Linked Notes.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in currency exchange rates, may depend

RISK FACTORS

upon the time remaining to the redemption date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

If the Calculation Agent determines that a Disruption Event (as defined in the Foreign Exchange (FX) Rate-Linked Note Conditions) has occurred or exists on such valuation date, any consequential postponement of the valuation date, or any alternative provisions for valuation provided in any such Notes may have an adverse effect on the value and liquidity of such Notes. The timing of such dates (as scheduled or as so postponed or adjusted) may affect the value of the relevant Notes such that the Noteholder may receive a lower cash redemption amount and/or interest amount or other payment under the relevant Notes than otherwise would have been the case. The occurrence of such a Disruption Event in relation to any currency exchange rate comprising a basket may also have such an adverse effect on Notes related to such basket. In addition, any such consequential postponement may result in the postponement of the date of redemption of the Notes.

If Automatic Early Redemption Event applies in respect of Foreign Exchange (FX) Rate-Linked Notes, the Notes redeem automatically if the value (or the weighted sum of the values) of the relevant subject currency or currencies observed is 'greater than', 'greater than or equal' to, 'less than' or 'less than or equal to' (as specified in the applicable Final Terms) the specified level (the "**Automatic Early Redemption Level**"). In this case, the Notes will be redeemed on the date specified in the applicable Final Terms. The Underlying Reference will be observed on specified dates.

Each Note will redeem at an amount equal to the product of (i) the Calculation Amount and (ii) the sum of (a) the specified automatic early redemption percentage and (b) the automatic early redemption rate, and will pay interest accrued up to the date on which the Notes are redeemed.

(iii) *Dual Currency Notes*

The Issuers may issue Notes with principal, interest and/or premium payable in a currency which may be different from the currency in which the Notes are denominated ("**Dual Currency Notes**"). In addition to the risk factors that may apply to Notes in general and Structured Notes in general, potential investors should be aware that in relation to Dual Currency Notes:

- (1) the market price of such Notes may be volatile;
- (2) they may receive no interest and/or premium;
- (3) payment of principal, interest and/or premium (if applicable) may occur at a different time or in a different currency than expected;
- (4) in certain circumstances, Noteholders may need to specify additional information to receive a relevant currency (including an account in which they can receive amounts in the relevant currency) and payments of the relevant currency by the Issuer may be delayed or, in certain circumstances, the Issuer may be discharged from its payment obligations in respect of the Notes in the event that the Noteholders fail to specify such account within a prescribed period;
- (5) they may lose all or a substantial portion of their principal;

RISK FACTORS

- (6) there may be movements in currency exchange rates which may result in significant fluctuations that may not correlate with changes in interest rates, currencies or related factors;
- (7) the exchange rate used to calculate amounts payable in the settlement currency may be fixed prior to, on or after the Issue Date meaning the investors will not benefit from favourable changes in exchange rates during the terms of the Dual Currency Notes; and
- (8) settlement in the Settlement Currency may result in a lower return than if settlement had been made in the Specified Currency due to the risk on the exchange rate.

(iv) *Underlying Interest Rate-Linked Notes*

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon movements in underlying interest rates ("**Underlying Interest Rate-Linked Notes**"). Accordingly an investment in Underlying Interest Rate-Linked Notes may bear similar market risks to a direct interest rate investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Underlying Interest Rate Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in interest rates may be subject to significant fluctuations that may not correlate with changes in other indices and the timing of changes in the interest rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in interest rates, the greater the effect on yield.

Interest rates are determined by various factors which are influenced by macro economic, political or financial factors, speculation and central bank and government intervention. In recent years, interest rates have been relatively low and stable, but this may not continue and interest rates may rise and/or become volatile. Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in interest rates will affect the value of Underlying Interest Rate-Linked Notes.

If the amount of principal and/or interest payable are dependent upon movements in interest rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the interest rates on principal or interest payable will be magnified.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in interest rates, may depend upon the time remaining to the redemption date and the volatility of interest rates. Movements in interest rates may be dependent upon economic, financial and political events in one or more jurisdictions.

If 'Standard Automatic Early Redemption' applies in respect of Underlying Interest Rate-Linked Notes, the Notes redeem automatically if the underlying reference rate observed is 'greater than', 'greater than or equal' to, 'less than' or 'less than or equal to' the specified level (the "**Automatic Early Redemption Level**"). In this case, the Notes will be redeemed on

RISK FACTORS

the next Interest Payment Date. The Underlying Reference will be observed on specified dates.

Each Note will redeem at an amount equal to the product of (i) the Calculation Amount and (ii) the sum of (a) the specified automatic early redemption percentage and (b) the automatic early redemption rate, and may pay either (i) the interest accrued up to the Interest Payment Date on which the Notes are redeemed, (ii) no interest or (iii) the interest accrued up to date on which the Automatic Early Redemption Event occurred.

Key developments in 2018

During 2018 Retail & Private Banking made extensive investments in its hybrid banking model, whereby further developments in the digital sphere go hand-in-hand with optimisation of the branch network and considerable investment in updating employee skills.

New developments in digital tools

On 28 November 2018 BNP Paribas Fortis became the first bank in Belgium to offer Apple Pay. This important step means that, in combination with Google Pay, the Bank is now able to provide simple, fast and safe in-house mobile payment solutions to the vast majority of smartphone users.

The Easy Banking App home screen was re-designed, with expanded options including ‘click to call’, which enables direct phone contact with a specialist from the Easy Banking Centre, and also a wider range of investment services.

Following surveys among customers, BNP Paribas Fortis Retail & Private Banking took steps to match the information and offerings on the Easy Banking website more closely to their real needs. The information search function was made more user-friendly, the readability of the articles was improved and direct sales (products and services sold either digitally via Easy Banking Web or the Easy Banking App, or through the Easy Banking Centre) opportunities were expanded and simplified.

The Bank provided active customer support relating to these changes to the services. The range of digital services was highlighted in a number of media campaigns, and opportunities available via the Easy Banking App were presented at Bank events. Branch staff have now been equipped with a specially-designed ‘digital sales kit’ in order to ensure they are able to provide customers with comprehensive information. These improvements to the Easy Banking App and Easy Banking Web led to a rise in the number of digitally active customers, who totalled two million at the end of 2018. In December 2018, direct sales accounted for 40% of all Retail & Private Banking sales, well on the way to hitting the target of 50% by 2020. During the year, an average of just under a million customer contacts took place through digital channels – via the web or the app – every day.

More comprehensive digital information for customers

From May 2018 onwards, Private Banking ("PB") and Wealth Management ("WM") clients were able to consult a new website entitled 'My Experts', which features analysis by various Bank specialists, plus a range of exclusive content, including analysis on specific sectors of industry, financial and economic trends, and the latest news on wealth management topics. The User Experience has been optimised for smartphone, tablet and PC. At end-2018 the site numbered over 250,000 users.

Vision, the Bank's magazine specifically aimed at PB and WM clients, was thoroughly redesigned in 2018, in terms of both form and content, so as to meet customer needs more closely. Meanwhile the Private Banking Expertise Days, held in six prestigious locations, were attended by a total of over 1,500 clients. In addition to a plenary session focusing on the current situation in the financial markets, the Expertise Days also featured workshops on subjects of particular interest to Private Banking clients.

During the year, more than 2,200 entrepreneurs took part in 25 Digital Workshops run in conjunction with Google, in which emphasis was placed on acquiring the necessary skills to set up or develop online activities, such as creating a website or making use of social media for e-commerce.

In September, the Bank began emailing a regular newsletter to potentially interested Retail customers to inform them about products and services and range of exclusive benefits. These include loyalty rewards, conferred for example when the customer starts his/her first job or finishes paying off a mortgage loan.

Investing in employee upskilling and branch network optimisation

Over 28,900 person-days of training were provided to Retail & Private Banking staff during 2018. The Bank has been making strenuous efforts to improve employees' knowledge and skills on the digital front, inter alia through an interactive training programme called 'TomorrowBank', whose central goal is to help staff to acquire a thorough grasp of innovation themes, improve customer-orientation and step up their expertise in the digital sphere. The 'Proud Digital Banker' training programme is specifically designed to help staff put their knowledge of and interest in digital tools into practice.

The Bank is constantly assessing the way in which it comes into contact with its customers and reflecting on what it can do to provide them with an optimal service. In making this assessment, the latest technological developments are taken into account, changes in customer behaviour – involving more frequent use of digital banking tools and less frequent visits to the branch – and the need to optimise geographical coverage. Accordingly, on the basis of this ongoing assessment, the Retail branch network underwent further rationalisation during 2018. In addition, the Bank embarked on a comprehensive investment programme designed to reshape existing branches into 'enhanced' branches that incorporate the digital experience.

Moreover, new flagship branches were opened in Liege and Namur in the course of the year, while the existing flagship branches in Ghent and Brussels continued to play a full role in the local communities.

The offering for Priority Banking customers was also completely updated in 2018. Priority Banking is a tailor-made service in terms of both customer relationship – the client is served by a specially

trained and certified Personal Advisor – and service range, with specific investment opportunities, insurance offers and mortgage loan terms. In addition to the basic product and service range, Priority Banking Exclusive provides access to specialist information, expertise in succession and retirement planning, and an overall portfolio approach to investment.

Investing in sustainability

For the second year running, in 2018 BNPPF was accorded the prestigious title of ‘Bank of the Year’ by Financial Times Group publication The Banker magazine. The jury placed emphasis on the efforts made by the Bank to promote sustainable business and socially responsible investment ("SRI"). Some EUR 7 billion was managed through the BNP Paribas Private SRI Fund, currently the largest global strategic SRI fund in the Eurozone. As part of the cooperation between Private Banking & Wealth Management and the King Baudouin Foundation, EUR 1.5 million has been donated to social projects in 2018.

Meanwhile, ‘green loans’ proved extremely popular in both home loans and automobile financing segments during the year, due inter alia to strong promotional activities and attractive interest rates.

Last but not least, during 2018 the Bank ran CSR Workshops designed to help entrepreneurs meet the increasing demand from their customers for sustainable products and services. The Bank finances sustainable investment in this field by providing specially-adapted loan terms.

Accordingly, the Bank has been implementing digital transformation strategies designed to improve the Customer Experience and focus on the development of service channels and service models.

(ii) **Corporate Banking**

As detailed in the 2017 Annual Report, the Corporate Banking ("**CB**") division is now working under a new organisational structure designed to help CB become the preferred bank for our clients in Belgium and abroad by 2020. With this goal in mind, the division has been working on three priorities: increasing its process efficiency; enhancing its product and service offer; and improving the client-onboarding process.

With its well-developed, diversified and integrated business and service model, Corporate Banking is well-equipped to serve a wide range of clients, including small and medium-sized companies, Belgian and European corporates, financial institutions, institutional investors, public entities and local authorities. CB has a strong client base among large and medium-sized companies and is the market leader in these two categories, as well as a strong challenger in the public sector.

Providing a wide range of both traditional and bespoke specialised solutions and services, and drawing on the international network of the BNP Paribas Group across more than 70 countries, Corporate Banking continues to meet the financing, transaction banking, investment banking and insurance needs of its clients.

Corporate Banking made strenuous efforts during 2018 towards becoming the preferred bank for corporates in Belgium and abroad by providing them with convenient access to unique banking solutions using innovative digital tools. In particular, the service model requires some improvements in order to meet all clients' financial needs precisely and rapidly. With its new organisation, the division is now better equipped to respond to the evolving expectations of its clients.

Meanwhile the Corporate Banking division continued to drive ahead with its digital transformation roadmap. CB enhanced its servicing model by expanding its client - and data - driven digital channels and launching a number of new initiatives. To help both relationship managers and clients to pursue their digital transformation journey, tools have been rolled out and special digital channel advisors appointed to each Business Centre to help our customers use those tools. With the creation of a Sustainable Business Competence Centre ("**SBCC**"), 2018 was also an important year for Corporate Banking as regards supporting the transition to a more sustainable economy. Initiatives in this field came under four main headings: Decarbonisation, Human Capital, the Circular Economy and Smart Cities. During the year, CB embarked on a range of solutions intended to promote a low-carbon economy, support investment in education and health and help develop smart infrastructure in Belgian cities.

5. BNPPF 2018 Financial Results

In 2018, net income amounted to EUR 1,932 million, up by +1.8% in comparison with last year. When excluding non-recurrent items related to higher one-offs results in 2017, the depreciation of the Turkish lira and scope changes, the underlying net income showed an increase of +6.0%*.

The below analysis focuses on this underlying evolution.

Good results with a net income of EUR 1,932 million

In 2018, **revenues** of BNP Paribas Fortis amounted to EUR 8,053 million, up by 2.1%*. Lower revenues in Belgium² and Luxembourg, both suffering from the persistently low interest rate environment, were compensated by growing revenues at Personal Finance, Leasing Solutions and Arval as well as in Turkey.

- In Belgium, revenues decreased by 2.0%*:
 - o At Belgian Retail Banking ("**BRB**"), due to lower margin on deposits, impacted by the persistently low interest rate environment, and lower fees notably due to the adverse market conditions end of 2018;
 - o Partly compensated by higher income on commercial loans mainly thanks to volume growth;
 - o And at Corporate and Institutional Banking ("**CIB BE**"), thanks to good results of Corporate Banking that benefited from fees on some large deals while Global Markets suffered from the lacklustre context, especially in Forex and Fixed Income Trading.
- Revenues increased by 7.1%* in the other business lines essentially driven by the continued development at Personal Finance, Leasing Solutions and Arval, a rise in Turkey and despite lower revenues in Luxembourg, also impacted by the low interest rate environment.

Costs amounted to EUR 4,847 million, up by 0.4%* compared with 2017.

- In Belgium, costs decreased by 2.2%* thanks to the cost saving measures and the optimisation of the branch network.
- In the other business lines, costs increased by 4.4%* mainly at Leasing Solutions, Personal Finance and Arval to support the business development. They also increased in Turkey.

As a result, **gross operating income** increased by 4.7%* to EUR 3,207 million. The consolidated cost/income ratio³ stood at 60.2% compared to 59.5% in 2017. In Belgium, the ratio was at 67.3% compared to 66.2% in 2017.

Cost of risk stood at EUR 395 million, a low level of 20 basis points on outstanding customer loans, to be compared to 18 basis points in 2017. The cost of risk was even lower in Belgium (2 basis points) that benefited from some provision write-backs. It increased outside Belgium mainly due to changes of provisioning methodology in some operational divisions.

* Excluding non-recurrent items, i.e. at constant scope, constant exchange rates, and excluding other one-off results.

² Belgium includes Belgian Retail Banking (BRB), Corporate and Institutional Banking (CIB BE) and other activities of BNP Paribas Fortis in Belgium.

* Excluding non-recurrent items, i.e. at constant scope, constant exchange rates, and excluding other one-off results.

³ The cost income ratio is calculated by dividing the total operating expenses and depreciation (absolute value) by the total revenues (the net banking income), without excluding the non-recurrent items.

DESCRIPTION OF BNP PARIBAS FORTIS SA/NV

The share of earnings of equity-method entities was down by 16.1%*, at EUR 201 million, mainly due to a lower contribution from BNP Paribas Asset Management, which was impacted by the adverse market conditions at the end of 2018, and from AG Insurance.

Corporate income tax was lower by 11.5%* mainly driven by lower pre-tax income and the change in corporate tax law that came into force in 2018 in Belgium. The effective tax rate stood at 24%.

BNP Paribas Fortis generated EUR 1,932 million in **net income attributable to equity holders**, up by 6.0%* compared to last year.

Strong Financial Structure

The BNP Paribas Fortis **balance sheet total** amounted to EUR 291 billion at 31 December 2018, an increase of EUR 14 billion compared to the end of 2017.

Loans to customers increased by 6%*, of which 5%* in Belgium, 9%* both in Luxembourg and at Other Domestic Markets⁴ and 8%* in Turkey and in other segments⁵.

At 31 December 2018, BNP Paribas Fortis' **Common Equity Tier 1 ratio** stood at 13.9% well above the regulatory threshold (compared to 14.5% at 31 December 2017). The Bank's **Liquidity Coverage Ratio (LCR)** stood at 141%⁶ (compared to 120% at 31 December 2017). Both ratios reflect the strong financial structure of the bank.

Corporate governance

BNPPF is of the opinion that it complies with the large majority of the requirements of the Code. The main remaining deviation relates to Principle 8 of the Code "The company shall enter into a dialogue with shareholders and potential shareholders based on a mutual understanding of objectives and concerns". The reason that makes the company unable to comply with all the provisions of Principle 8 of the Code lies within the structure of the shareholdership of BNPPF. Specifically, BNPP, a public limited company (*'société anonyme'/'naamloze vennootschap'*), having its registered office address at boulevard des Italiens 16, 75009 Paris, France, registered under number 662 042 449 RCS Paris, holds 99.94% of the shares of BNPPF. The remaining 0.06% of the shares is held by minority shareholders. Nevertheless, BNPPF communicates on an ongoing basis with its various stakeholders through its website and other media and actively answers to the questions raised by its minority shareholders in the framework of the general shareholders' meetings.

BNPPF's Corporate Governance Charter is available on its public website.

7. General

The basis for any statements in this Base Prospectus made by BNPPF regarding its competitive position originate from BNPPF's evaluation of market trends and should generally reflect market views.

The business address of all members of the Board of Directors of BNPPF is Rue Royale 20, B-1000 Brussels, Belgium.

8. Trend information

Macroeconomic environment

Macroeconomic and market conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to macroeconomic and market conditions in Europe.

In 2018, global growth remained healthy at around 3.7% (according to the IMF), reflecting a stabilised growth rate in advanced economies (+2.4% after +2.3% in 2017) and in emerging economies (+4.6% after +4.7% in 2017). Since the economy was at the peak of its cycle in large developed countries, central banks continued to tighten accommodating monetary policy or planned to taper it. With inflation levels still moderate, however, central banks were able to manage this transition gradually, thereby limiting the risks of a marked downturn in economic activity. Thus, the IMF expects the global growth rate experienced over the last two years to continue in 2019 (+3.5%) despite the slight slowdown expected in advanced economies.

In this context, the following two risk categories can be identified:

DESCRIPTION OF BNP PARIBAS FORTIS SA/NV

Risks of financial instability due to the conduct of monetary policies

Two risks should be emphasised: a sharp increase in interest rates and the current, very accommodating monetary policy being maintained for too long.

On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less accommodating monetary policy in the euro zone (reduction in asset purchases started in January 2018, with an end in December 2018) involve risks of financial turbulence and economic slow down more pronounced than expected. The risk of an inadequately controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity and bond markets, etc.) as well as on certain interest rate sensitive sectors.

On the other hand, despite the upturn since mid-2016, interest rates remain low, which may encourage excessive risk-taking among some financial market participants: lengthening maturities of financings and assets held, less stringent credit policy, and an increase in leveraged financings. Some of these participants (insurance companies, pension funds, asset managers, etc.) have an increasingly systemic dimension and in the event of market turbulence (linked for example to a sharp rise in interest rates and/or a sharp price correction) they could be brought to unwind large positions in a relatively weak market liquidity.

Systemic risks related to increased debt

Macroeconomically, the impact of an interest rate increase could be significant for countries with high public and/or private debt-to-GDP ratio. This is particularly the case for certain European countries (in particular Greece, Italy and Portugal), which are posting public debt-to-GDP ratios often above 100%, but also for emerging countries. Between 2008 and 2018, emerging countries recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors.

The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation, and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecasted economic growth, possible downgrades of sovereign ratings and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the BNP Paribas Group (including BNPPF) and potentially alter its results.

It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks.

Laws and Regulations Applicable to Financial Institutions

Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPPF. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPPF notably include:

DESCRIPTION OF BNP PARIBAS FORTIS SA/NV

- the structural reforms comprising the Belgian banking law of 25 April 2014 (as amended) on the status and supervision of credit institutions, the "Volcker rule" in the US, which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks;
- regulations governing capital: CRD4/CRR, the international standard for TLAC BNPP's designation as a financial institution that is of systemic importance by the Financial Stability Board;
- the European Single Supervisory Mechanism and the ordinance of 6 November 2014;
- the Directive of 16 April 2014 related to deposit guarantee systems and its delegation and implementing Decrees, the Directive of 15 May 2014 establishing a Bank Recovery and Resolution framework, the Single Resolution Mechanism establishing the Single Resolution Council and the Single Resolution Fund;
- the Final Rule by the US Federal Reserve imposing tighter prudential rules on the US transactions of large foreign banks, notably the obligation to create a separate intermediary holding company in the US (capitalised and subject to regulation) to house their US subsidiaries;
- the new rules for the regulation of over-the-counter derivative activities pursuant to Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, notably margin requirements for non-cleared derivative products and the security derivatives traded by swap dealers, major swap participants, security-based swap dealers and major security-based swap participants, and the rules of the US Securities and Exchange Commission which require the registration of banks and major swap participants active on derivatives markets as well as transparency and reporting on derivative transactions;
- the new MiFID II and MiFIR, and European regulations governing the clearing of certain over-the-counter derivative products by centralised counterparties and the disclosure of securities financing transactions to centralised bodies;
- the GDPR came into force on 25 May 2018. This regulation aims to move the European data confidentiality environment forward and improve personal data protection within the European Union. Businesses run the risk of severe penalties if they do not comply with the standards set by the GDPR. This Regulation applies to all banks providing services to European citizens; and
- the finalisation of Basel 3 published by the Basel committee in December 2017, introducing a revision to the measurement of credit risk, operational risk and CVA risk for the calculation of risk-weighted assets. These measures are expected to come into effect in January 2022 and will be subject to an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027.

Moreover, in this tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers and personal data, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and more broadly that of its stakeholders, at the heart of its values. Thus, the code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area.

Cyber security and technology risk

BNPPF's ability to do business is intrinsically tied to the fluidity of electronic transactions as well as the protection and security of information and technology assets.

The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions.

The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services.

The outsourcing of a growing number of processes also exposes the BNP Paribas Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit.

Accordingly, the BNP Paribas Group has a second line of defence within the risk function dedicated to managing technological and cyber security risks. Thus, operational standards are regularly adapted to support BNPPF's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).

GENERAL DESCRIPTION OF THE PROGRAMME

credit ratings are A-1 (S&P), P-1 (Moody's) and F1 (Fitch). BNPPF's long-term credit ratings are A+ with a stable outlook (S&P), A2 with a stable outlook (Moody's) and A+ with a stable outlook (Fitch) and BNPPF's short-term credit ratings are A-1 (S&P), P-1 (Moody's) and F1 (Fitch).

S&P's credit ratings in respect of the Programme are: (i) A+ (senior unsecured debt maturing in one year or more), (ii) A-1 (senior unsecured debt maturing in less than one year), (iii) BBB+ (subordinated debt) and (iv) BBB- (junior subordinated debt). Moody's credit ratings in respect of the Programme (where BNPPF acts as Issuer) are: (i) A2 (senior unsecured), (ii) Baa2 (subordinated), (iii) Baa3 (junior subordinated) and (iv) P-1 (short-term). Moody's credit ratings in respect of the Programme (where BP2F acts as Issuer (guaranteed by BNPPF)) are: (i) A2 (senior unsecured), (ii) Baa2 (senior subordinated), (iii) Baa2 (subordinated), (iv) Baa3 (junior subordinated) and (v) P-1 (short-term). Fitch's credit ratings in respect of the Programme are A+ (long-term senior unsecured) and F1 (short-term senior unsecured).

An obligor rated 'A' by S&P has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The rating may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. An obligor rated A-1 by S&P has strong capacity to meet its financial commitments. It is rated in the highest category by S&P. An S&P negative outlook means a rating may be lowered. An S&P rating outlook assesses the potential direction of a long-term credit rating over the intermediate term (typically six months to two years). In determining a rating outlook, consideration is given to any changes in the economic and/or fundamental business conditions. An outlook is not necessarily a precursor of a rating change. A short-term obligation rated 'A-1' by S&P is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. An obligation rated 'A' by S&P is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The rating may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. An obligation rated 'BBB' by S&P exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Obligations rated 'A' by Moody's are considered upper-medium grade and are subject to low credit risk. Obligations rated 'Baa' by Moody's are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics. Moody's appends numerical modifiers 1, 2, and 3

GENERAL DESCRIPTION OF THE PROGRAMME

to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. Issuer's (or supporting institutions) rated 'P-1' by Moody's have a superior ability to repay short-term debt obligations. A Moody's rating outlook is an opinion regarding the likely direction of a rating over the medium term. A Moody's stable outlook means that the rating is not likely to change.

An "A" rating by Fitch indicates a high credit quality. 'A' ratings by Fitch denote expectations of low default risk with the capacity for payment of financial commitments considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating by Fitch to denote relative status within major rating categories. An 'F1' rating by Fitch indicates the strongest intrinsic capacity for timely payment of financial commitments. Rating outlooks applied by Fitch indicate the direction a rating is likely to move over a one- to two-year period and reflect financial or other trends that have not yet reached the level that would trigger a rating action, but which may do so if such trends continue. The majority of Fitch outlooks are generally stable, which is consistent with the historical migration experience of ratings over a one- to two-year period. Positive and negative rating outlooks do not imply that a rating change is inevitable and, similarly, ratings with stable outlooks can be raised or lowered without a prior revision to the outlook, if circumstances warrant such an action.

The information set out above relating to the description of the ratings has been extracted from the web-site of the relevant rating agency. Each of the Issuer and the Guarantor confirms that such information has been accurately reproduced and that, so far as it is aware and is able to ascertain from such web-sites, no facts have been omitted which would render the reproduced information inaccurate or misleading. This paragraph should be read in conjunction with the paragraphs under the heading "Responsibility Statement" above.

Each of Moody's, S&P and Fitch is established in the European Union and registered under Regulation (EC) No 1060/2009 (as amended) (the "**CRA Regulation**"). As such, each of Moody's, S&P and Fitch is included in the list of registered credit rating agencies published by the European Securities and Markets Authority on its website (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. Nevertheless, some Notes issued under the Programme may be assigned a specific rating that will not necessarily be the same as the rating assigned to the Programme or may not receive any credit rating. Where a Series of Notes is rated, such rating will be disclosed in the relevant Final Terms. A

GENERAL DESCRIPTION OF THE PROGRAMME

security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the relevant assigning rating agency Please also refer to "*Credit ratings assigned to the Issuers, Guarantor or any Notes associated with an investment in those Notes may not reflect all risks*" in the Risk Factors section of this Base Prospectus.

 - (iii) any other financial intermediary appointed after the date of the applicable Final Terms and whose name is published on (A) the website www.bnpparibasfortis.be, in the case of each Tranche of Notes, and (B) the website www.bp2f.lu, only where BP2F is the relevant Issuer, and, in either case, identified as an Authorised Offeror in respect of the relevant Non-exempt Offer.

General Consent

- (b) if (and only if) Part B of the applicable Final Terms specifies "General Consent" as "Applicable", the relevant Issuer hereby offers to grant its consent to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of Notes by any other financial intermediary which satisfies the following conditions:

RESTRICTIONS AND CONDITIONS FOR THE USE OF THIS BASE PROSPECTUS

In consideration of the Issue offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Notes in [Belgium][France][Luxembourg][The Netherlands] during the Offer Period and subject to the other conditions to such consent, each as specified in the Base Prospectus, we hereby accept the offer by the Issuer in accordance with the Authorised Offeror Terms (as specified in the Base Prospectus) and confirm that we are using the Base Prospectus accordingly.";
and

- (iii) it notifies the Issuer in writing on the day it publishes the Acceptance Statement of its decision to use this Base Prospectus (such notice shall be sent to docsecurities.mbc@bnpparibasfortis.com in the case of BNPPF and to info@bp2f.lu in the case of BP2F).

The "**Authorised Offeror Terms**", being the terms to which the relevant financial intermediary agrees in connection with using this Base Prospectus, are that the relevant financial intermediary:

 - II. comply with the restrictions set out under "*Plan of Distribution*" in this Base Prospectus which would apply if the relevant financial intermediary were a Dealer [and consider the relevant manufacturer's target market assessment and distribution channels identified under the "MiFID II product governance" legend set out in the applicable Final Terms];

- VIII. co-operate with the relevant Issuer, the Guarantor (where applicable) and the relevant Dealer in providing relevant information (including, without limitation, documents and records maintained pursuant to paragraph VI above) and such further assistance as is reasonably requested upon written request from such Issuer, the Guarantor (where applicable) or the relevant Dealer in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any regulator or regulatory process. For this purpose, "**relevant information**" is information that is available to or can be acquired by the relevant financial intermediary:

 - XI. ensure that it does not, directly or indirectly, cause the relevant Issuer, the Guarantor (where applicable) or the relevant Dealer to breach any Rule or subject such Issuer, the Guarantor (where applicable) or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
 - XII. immediately inform the relevant Issuer, the Guarantor (where applicable) and the relevant Dealer if at any time it becomes aware, or suspects, that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;

affiliates and controlling persons (each a "**Relevant Party**") incurs any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) (a "**Loss**") arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by the relevant financial intermediary, including (without limitation) any unauthorised action by the relevant financial intermediary or failure by it to observe any of the above restrictions or requirements or the making by it of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the relevant Issuer, the Guarantor (where applicable) or the relevant Dealer, the relevant financial intermediary shall pay to the relevant Issuer, the Guarantor (where applicable) or the relevant Dealer, as the case may be, an amount equal to the Loss. - (C) agrees and accepts that:
- I. the contract between the relevant Issuer and the relevant financial intermediary formed upon acceptance by the relevant financial intermediary of the relevant Issuer's offer to use the Base Prospectus with its consent in connection with the relevant Non-exempt Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;
 - II. subject to (C)IV below, the English courts have jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the relevant Issuer and the relevant financial intermediary submit to the exclusive jurisdiction of the English courts;
 - III. for the purposes of (C)II and (C)IV, the relevant financial intermediary waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
 - IV. to the extent allowed by law, the relevant Issuer, the Guarantor, where applicable, and each relevant Dealer may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions; and

Any financial intermediary who is an Authorised Offeror falling within (b) above who meets the conditions set out in (b) and the other conditions stated in "*Common Conditions to Consent*" below and who wishes to use this Base Prospectus in connection with a Non-exempt Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.

RESTRICTIONS AND CONDITIONS FOR THE USE OF THIS BASE PROSPECTUS

Common Conditions to Consent

The conditions to the relevant Issuer's consent to the use of this Base Prospectus in the context of the relevant Non-exempt Offer are (in addition to the conditions described in paragraph (b) above if Part B of the applicable Final Terms specifies "*General Consent*" as "Applicable") that such consent:

- (a) is only valid during the Offer Period specified in the applicable Final Terms; and
- (b) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Notes in Belgium, France, Luxembourg and/or the Netherlands, as specified in the applicable Final Terms.

The consent referred to above only relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

The only Relevant Member States which may, in respect of any Tranche of Notes, be specified in the applicable Final Terms (if any Relevant Member States are so specified) as indicated in (b) above, will be Belgium, France, Luxembourg and/or the Netherlands, and accordingly each Tranche of Notes may only be offered to Investors as part of a Non-exempt Offer in Belgium, France, Luxembourg and/or the Netherlands, as specified in the applicable Final Terms, or otherwise in circumstances in which no obligation arises for the relevant Issuer or any Dealer to publish or supplement a prospectus for such offer.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO PURCHASE OR PURCHASING ANY NOTES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. NO ISSUER WILL BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE NON-EXEMPT OFFER OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER. NONE OF THE ISSUERS, THE GUARANTOR AND, FOR THE AVOIDANCE OF DOUBT, ANY DEALER HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF THE INFORMATION DESCRIBED ABOVE.

Non-Exempt Offers: Offer Price

The offer price at which the Authorised Offeror will offer the Notes to the Investor will be the Issue Price or (where agreed with the relevant Dealer) such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Notes to such Investor in compliance with any applicable laws and regulations including any local obligation to offer Notes at the same price to the same category of Investors. Neither the Issuer nor the Guarantor will be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Notes to such Investor.

RESTRICTIONS AND CONDITIONS FOR THE USE OF THIS BASE PROSPECTUS

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuer, the Guarantor or the Dealers which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the EEA (including Belgium, France, The Netherlands and the United Kingdom), Hong Kong, Japan, Switzerland and the United States, see "*Plan of Distribution*".

PRIIPs REGULATION/ IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes (or Pricing Supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II") or (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PLAN OF DISTRIBUTION

This section sets out an overview of certain restrictions on who is permitted to purchase the Notes in certain jurisdictions.

PLAN OF DISTRIBUTION

The following section applies to both Exempt Notes and Non-exempt Notes.

General

Except for those countries or jurisdictions where a public offering of the Notes, or possession or distribution of any offering material in relation thereto, is permitted on the basis of (a) the approval by the CSSF of this Base Prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Luxembourg and (b) the certificates of approval as provided by the CSSF to the competent authorities in such countries or jurisdictions, no action has been or will be taken in any country or jurisdiction by the Issuers, the Guarantor or the Dealers that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons into whose hands the Base Prospectus or any Final Terms comes are required by the Issuers, the Guarantor and the Dealers to comply, in all cases at their own expense, with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material.

Each of the Dealers has agreed to comply, in all cases at its own expense, to the best of its knowledge and belief, with all relevant securities laws, regulations and directives in each country or jurisdiction in which it subscribes for, purchases, offers, sells or delivers Notes or has in its possession or distributes this Base Prospectus or any other offering material.

In the case of Exempt Notes only, selling restrictions may be supplemented or modified by the agreement of the relevant Issuer, the Guarantor (in the case of Notes issued by BP2F) and the Dealers following a change in, or in the interpretation or application of, a relevant law, regulation or directive. Any such supplement or modification will be set out in the Pricing Supplement issued in respect of the issue of Notes to which it relates or in a supplement to this Base Prospectus.

Terms and conditions of the Offer

In the event of an offer of any Notes which is an offer to the public within the meaning of the Prospectus Directive but which is not made in circumstances contemplated in Article 3(2) of the Prospectus Directive (an "Offer"), the general conditions in relation to such Offer are as set out below, as further specified for each Series of Notes in the applicable Final Terms.

Offer size

The anticipated size of the offer of the Notes to the public will be set out in the applicable Final Terms as a fixed amount, as a minimum amount subject to increase, or as a range. The actual principal amount of Notes offered can be decreased or increased by the relevant Issuer at any time before the Issue Date. It will be determined by the relevant Issuer, after consultation with the arranger(s) of such offer, taking into account prevailing market conditions (including those in the debt and equity markets) and other relevant criteria and factors, including (but not limited to) demand for the Notes during the subscription period, broader economic and financial conditions and prospects and conditions affecting the relevant Issuer's ability to source or price hedging transactions with respect to its obligations under the Notes on terms satisfactory to it.

Once the results of the Offer are determined, the actual principal amount of Notes that will be offered, allotted to the subscribers and issued will be filed with the appropriate competent authority(ies) and communicated in the same manner in which the Base Prospectus and the applicable Final Terms have been published.

PLAN OF DISTRIBUTION

The Noteholders will be directly notified by, or on behalf of the placers as mentioned in item 10(l) of Part B of the Final Terms (the "**Placing Agents**"), of the number of Notes which has been allotted to them as soon as possible after the Issue Date.

Subscription, payment, delivery and allotment

The subscription period of the Offer (the "**Offer Period**") will be set out in the applicable Final Terms. However, the Offer Period may be (a) subject to an early termination due to reasons including (but not limited to) oversubscription or a decrease in the offer size in the circumstances set out under the heading "Offer size" above, or (b) subject to an extension as referred to in the timetable set out under the heading "Indicative Timetable" below.

"**Subscription**" (and "**subscribe**" and "**subscriber**") refers not only to the initial acquisition of the Notes from the relevant Issuer by the first purchaser, but to any purchase during the Offer Period.

The subscription price of the Notes payable by subscribers to the Placing Agents will be specified in the applicable Final Terms.

The minimum number of Notes which may be subscribed per subscriber is one Note of the lowest Specified Denomination and thereafter in multiples of one (1) such lowest Specified Denomination, unless otherwise specified in the applicable Final Terms. There is no maximum number of Notes which may be subscribed per subscriber unless otherwise stated in the applicable Final Terms.

If the Final Terms do not include the subscription price and/or other pricing data relating to the Notes such as the rate of Interest, a pricing statement disclosing this information will be published before the Issue Date, and any such pricing statement will specify rights of withdrawal (if any) which arise under Article 8 of the Prospectus Directive. Unless otherwise indicated in the applicable Final Terms, the pricing statement will be published in the same manner as the Base Prospectus and the applicable Final Terms and in accordance with Article 8 of the Prospectus Directive and article 10 of the Prospectus Act 2005.

Payment for the Notes must be received by the relevant Placing Agent from subscribers on or before the Issue Date by debit of a cash account.

The delivery of the Notes will take place as described in the Base Prospectus and the applicable Final Terms. On or about the Issue Date, the relevant securities account of each Noteholder will be credited with the relevant amount of Notes purchased.

By subscribing for, or subsequently otherwise acquiring, Notes, Noteholders are bound by the Terms and Conditions and are deemed to have acknowledged and accepted the terms pursuant to which the Notes are being offered as set out in the Base Prospectus together with the applicable Final Terms.

Unless otherwise indicated in the applicable Final Terms, in case of an early termination of the subscription period due to oversubscription or a decrease in the Offer size in the circumstances set out under the heading "Offer size" above, allotment of the Notes will be made, to the extent possible, on the basis of objective allotment criteria. Any payment received in connection with the subscription of Notes which are not allotted will be returned within seven Business Days ("**Business Days**" in this section means days on which banks are open for general business in the relevant Non-exempt Offer Jurisdiction and in the principal financial centre of the settlement currency (or, where the settlement currency is euro, the TARGET2 is operating)) after the date of receipt of such payment. However, there will be no entitlement to interest in respect of such returned payments.

Indicative timetable

An indicative timetable listing certain expected key dates for the Offer, such as (but not limited to) the publication of the prospectus, the latest time and date for subscriptions, the publication of the pricing statement (if relevant), and the announcement of the offer size will be specified in the applicable Final Terms. However, the timetable for the Offer is subject to acceleration or extension. Unless otherwise indicated in the applicable Final Terms, any acceleration or extension of the timetable for the Offer will be announced in the same manner in which the Base Prospectus and the applicable Final Terms have been published.

Cancellation of the Offer

The relevant Issuer reserves the right to cancel, at any time on or before the Issue Date and for any reason, the Offer and issue of the Notes, it being understood that in such case no Notes will be issued. In the event of a cancellation, and unless otherwise indicated in the applicable Final Terms, such cancellation will be communicated in the same manner in which the Base Prospectus and the applicable Final Terms have been published.

The Offer may be cancelled if any of the following events occur:

- the Notes are not or will not be admitted to trading and listing on the relevant stock exchange on the Issue Date (or, in the case of an extension of the timetable, such later date as is determined by the relevant Issuer as the latest date for such admission);
- there has been a change in national or international financial, political or economic conditions or currency exchange rates or exchange controls that would, in the view of the relevant Issuer or the relevant Dealer, Manager or Lead Manager, as the case may be, be likely to prejudice materially the success of the offering and/or distribution of the Notes and/or dealings in the Notes in the secondary market;
- there has been, in the view of the relevant Issuer or the relevant Dealer, Manager or Lead Manager, an adverse change, financial or otherwise in the condition or general affairs of the relevant Issuer that would be likely to prejudice materially the success of the offering;
- the relevant Dealer, Manager or Lead Manager, as the case may be, determines, in its absolute discretion, that it is unable to source or price appropriate hedging transactions relating to the relevant Issuer's obligations under the Notes on terms which are satisfactory to it;
- the Underwriting Agreement (as defined below) (if any) is terminated by the underwriter in accordance with its terms;
- the Placing and Purchase Agreement (as defined below) (if any) is terminated in accordance with its terms; or
- in any other circumstances where the relevant Issuer considers it necessary or desirable.

Subscription fees and taxes

Noteholders will bear fees and taxes including the following:

- a fee payable by the relevant Issuer to the relevant Dealer or/and to any Placing Agent if included in the subscription price of the Notes paid by subscribers on subscription;

PLAN OF DISTRIBUTION

- any costs arising from holding their Notes on a securities account with a financial intermediary;
- any financial service costs which may be charged by any financial intermediary; and
- taxes on stock market transactions other than upon initial subscription.

Other fees and charges

Except as stated above or in the applicable Final Terms, the relevant Issuer will not impose any charges or fees in respect of the Notes. Prospective purchasers should note, however, that they may be required to bear certain fees and charges for custodial, nominee, transfer and clearing services charged by the Relevant Clearing System(s) and/or any intermediaries for the holding, transfer or redemption of Notes. Prospective purchasers of Notes should contact any relevant intermediaries for further details of these fees and charges.

In the event that prospective Noteholders are required to be notified of any event and unless otherwise indicated in the applicable Final Terms, such notice will be published in the same manner in which the Final Terms and the Base Prospectus have been published.

Underwriting and placing arrangements

The Dealer(s) or Manager(s) underwriting or subscribing the relevant Notes mentioned in Item 8(a) of Part B of the applicable Final Terms (the "**Subscriber(s)**") may enter into an underwriting and subscription agreement with the relevant Issuer on or about the Issue Date of the relevant Tranche of such Notes (the "**Subscription Agreement**"). Under the terms of the Subscription Agreement and the amended and restated programme agreement between the Issuer and the Dealers dated on or about 5 June 2019 (as amended, supplemented and/or restated from time to time) (the "**Programme Agreement**") and subject to the satisfaction of certain conditions, the Subscriber will agree to subscribe for the Notes. The Subscription Agreement may be terminated in certain circumstances by the Subscriber, prior to payment being made to the relevant Issuer. Any such termination is likely to result in a cancellation of the Offer, as described under the heading "*Cancellation of the Offer*" above.

The relevant Issuer and the Subscriber may also enter into a placing and purchase agreement with the Placing Agents on or about the first day of the Offer Period (the "**Placing and Purchase Agreement**"). If such an agreement is entered into, the Placing Agents will agree to use their best endeavours, during the Offer Period and pursuant to the Offer, to procure subscribers for an aggregate principal amount of Notes equal to the anticipated Offer size of the Notes at the subscription price. If a Placing and Purchase Agreement is entered into, each Placing Agent will also agree to purchase from the Subscriber on the Issue Date an aggregate principal amount of Notes equal to the principal amount of Notes placed by such Placing Agent pursuant to the Offer with the subscribers it has procured.

Each Placing Agent shall be entitled to deduct, before payment to the Subscriber, a commission representing a percentage of the principal amount of the Notes placed by it. The commission will be specified in the applicable Final Terms. The Placing and Purchase Agreement may be terminated in certain circumstances by the Subscriber or the Placing Agents, prior to payment being made to the Subscriber. Any such termination is likely to result in the cancellation of the Offer, as described under the heading "*Cancellation of the Offer*" above.

NBB–SSS

To accept the Notes for clearing and settlement in the NBB–SSS, the NBB may require that X/N Notes are only held by Eligible Investor(s). In that case such condition will be specified in the applicable Final Terms.

SELLING RESTRICTIONS

The following is only a description as at the date of this Base Prospectus of certain restrictions that may vary from time to time. Prospective investors and purchasers of Notes must inform themselves about all the relevant, applicable and up-to-date restrictions prior to investing in the Notes. Moreover the selling restrictions that are applicable to a Tranche of Notes may be modified in the relevant Final Terms if agreed by the relevant Issuer, the Guarantor (if applicable) and the relevant Dealer(s). Each Dealer has undertaken and each further Dealer appointed under the Programme will be required to undertake that it will, to the best of its knowledge, comply, in all cases at its own expense, with all applicable securities laws, regulations and directives in each country or jurisdiction in which it subscribes for, purchases, offers, sells or delivers Notes or has in its possession or distributes this Base Prospectus or any other such offering material and has agreed that it will only do so if it has been approved by the relevant Issuer and, if applicable, the Guarantor.

Where an issue of Notes is to be issued pursuant to a Drawdown Prospectus, references in these selling restrictions to "Base Prospectus" and "Final Terms" shall be construed to be references to the relevant Drawdown Prospectus where applicable.

THIS LEGEND SHALL CEASE TO APPLY UPON THE EXPIRY OF THE PERIOD OF 40 DAYS AFTER COMPLETION OF THE DISTRIBUTION OF ALL THE NOTES OF THE TRANCHE OF WHICH THIS NOTE FORMS PART"; AND

- (e) it understands that the Issuer and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of such acknowledgements, representations or agreements made by it are no longer accurate, it shall promptly notify the Issuer; and if it is acquiring any Notes as a fiduciary or agent for one or more accounts it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

TAXATION

This section gives out an overview of certain tax considerations relating to Notes.

TAXATION

The following section applies to both Exempt Notes and Non-exempt Notes.

TRANSACTIONS INVOLVING THE NOTES MAY HAVE TAX CONSEQUENCES FOR PROSPECTIVE INVESTORS WHICH MAY DEPEND, AMONGST OTHER THINGS, UPON THE STATUS OF THE PROSPECTIVE INVESTOR AND LAWS RELATING TO TRANSFER AND REGISTRATION TAXES, PROSPECTIVE INVESTORS WHO ARE IN ANY DOUBT ABOUT THE TAX POSITION OF ANY ASPECT OF TRANSACTIONS INVOLVING NOTES SHOULD CONSULT THEIR OWN TAX ADVISERS.

The following is a general description of certain Belgian, Luxembourg, Netherlands, French, Swiss and United States tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes. Prospective purchasers of Notes should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of Belgium, Luxembourg and/or The Netherlands of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date (or even before with retroactive effect). The information contained within this section is limited to taxation issues, and prospective investors should not apply any information set out below to other areas, including but not limited to, the legality of transactions involving the Notes.

Taxation in Belgium

The following summary describes the principal Belgian tax considerations with respect to the holding and selling of Notes. This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Notes. In some cases, different rules can be applicable.

This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this Base Prospectus, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

For Belgian tax purposes, if interest is in a foreign currency, it is converted into Euro on the date of payment or attribution.

Each prospective holder of Notes should consult a professional adviser with respect to the tax consequences of an investment in the Notes, taking into account the influence of each regional, local or national law.

The tax treatment in Belgium of the Notes will differ depending on whether the issuer of the Notes is BNPPF or BP2F. Notes issued by BNPPF will hereafter be referred to as "**Belgian Notes**" while Notes issued by BP2F will be referred to as "**Foreign Notes**".

Belgian Notes may be cleared through the NBB–SSS. The withholding tax treatment in respect of Notes cleared through the NBB–SSS is different from that of other Notes and is set out below under the heading "*Tax treatment applicable to Belgian Notes held in the NBB–SSS*".

Moreover, the tax treatment in respect of Notes not held in the NBB–SSS depends on whether the Notes qualify as Structured Notes, as defined below.

(a) Tax treatment of Foreign Notes and Belgian Notes that are not held in the NBB–SSS

(i) Structured Notes

On 25 January 2013, the Belgian tax authorities issued a circular letter on the Belgian tax treatment of income from structured securities characterised by an uncertain return on investment due to the variation of the coupons or the repayment terms at maturity, such as securities whose return is linked to the evolution of underlying products. According to the circular letter, the transfer of structured securities to a third party (other than the issuer) results in taxation as interest income of the "*pro rata* interest", calculated on an unclear formulae. In addition, any amount paid in excess of the initial issue price upon redemption or repayment of the structured securities is considered as interest for Belgian tax purposes. It is highly debatable whether the circular letter is in line with Belgian tax legislation. Furthermore, it is unclear whether the Belgian tax authorities will seek to apply the principles set out in the circular letter to the structured Notes (hereafter referred to as the "**Belgian Structured Notes**" and the "**Foreign Structured Notes**", together the "**Structured Notes**").

It is assumed that any gains realised upon redemption or repayment of the Structured Notes by the Issuer will indeed be viewed as interest by the Belgian tax authorities (and any such gains are therefore referred to as "interest" for the purposes of the following paragraphs), but that the effective taxation of the "*pro rata* interest" in case of sale to a third party (i.e. other than the Issuer) would not be possible, on the basis that it is currently impossible to determine the amount of the "*pro rata* interest".

Repayment or redemption by the Issuer*Belgian resident individuals*

Belgian resident individuals, i.e. individuals who are subject to Belgian personal income tax ("*Personenbelasting/Impôt des personnes physiques*"), who are holding the Structured Notes as a private investment are subject to the following tax treatment with respect to the Structured Notes in Belgium. Other rules may be applicable in special situations, in particular when Belgian resident individuals acquire the Structured Notes for professional purposes or when their transactions with respect to the Structured Notes fall outside the scope of the normal management of their own private estate.

Interest payments on Belgian Structured Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on Foreign Structured Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Structured Notes in their personal income tax return, provided Belgian withholding tax was levied on these interest payments.

Nevertheless, Belgian resident individuals may elect to declare interest on the Structured Notes in their personal income tax return. Also, if interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the income tax liability.

Belgian resident companies

Belgian resident companies, i.e. companies that are subject to Belgian corporate income tax ("*Vennootschapsbelasting/Impôt des sociétés*"), are subject to the following tax treatment with respect to the Structured Notes in Belgium. Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992.

Interest received by Belgian resident companies on the Structured Notes will be subject to Belgian corporate income tax at the applicable corporate income tax rates (the ordinary corporate income tax rate is currently in principle 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.), as of assessment year 2021 linked to a taxable period starting at the earliest on 1 January 2020). If the income has been subject to a foreign withholding tax, a foreign tax credit will be applied on the Belgian tax due. For interest income, the foreign tax credit is generally equal to a fraction where the numerator is equal to the foreign tax and the denominator is equal to 100 minus the rate of the foreign tax, up to a maximum of 15/85 of the net amount received (subject to some further limitations). Capital losses are in principle tax deductible.

Interest payments on the Belgian Structured Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on the Foreign Structured Notes made through a paying agent in Belgium are in principle be subject to a 30 per cent. withholding tax, but can under certain circumstances be exempt from Belgian withholding tax, **provided that** certain formalities are complied with. For zero or capitalisation bonds, an exemption can only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6°, b) of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992. The withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

Other Belgian resident legal entities

Belgian resident legal entities, i.e. legal entities that are subject to Belgian tax on legal entities ("*Rechtspersonenbelasting/Impôt des personnes morales*"), are subject to the following tax treatment with respect to the Structured Notes in Belgium.

Interest payments on Belgian Structured Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on Foreign Structured Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium. If Belgian withholding tax was levied, no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the Belgian resident legal entity itself is responsible for the deduction and payment of the 30 per cent. withholding tax.

Belgian non-residents

Interest income on Belgian Structured Notes paid to non-residents of Belgium and interest income on Foreign Structured Notes paid to non-residents of Belgium through a professional intermediary in Belgium will, in principle, be subject to a 30 per cent. withholding tax. Lower rates may apply if the holder of the Structured Notes is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. In addition, non-resident corporate investors who have allocated the Foreign Structured Notes to the exercise of a professional activity in Belgium through a Belgian establishment may benefit from a withholding tax exemption, **provided that** certain formalities are complied with. If interest on Foreign Structured Notes is not collected

through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident individuals who do not use the Structured Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax interest on the Notes to Belgium, will be subject to tax in Belgium if the interest is obtained or received in Belgium.

Non-resident investors who have allocated the Structured Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same income tax treatment as Belgian resident companies or Belgian resident individuals holding the Notes for professional purposes (see above).

Sale to a third party

No Belgian withholding tax should apply with respect to the Structured Notes.

Belgian resident individuals

Individuals that are Belgian residents for tax purposes, i.e. who are subject to Belgian personal income tax ("*Personenbelasting/Impôt des personnes physiques*"), are currently not liable to Belgian income tax on the capital gains (if any) realised upon disposal of the Structured Notes to a third party, **provided that** the Structured Notes have not been used for their professional activity and that the capital gain is realised within the framework of the normal management of their private estate. Capital losses realised upon disposal of the Structured Notes held as a non-professional investment are in principle not tax deductible.

However, Belgian resident individuals may be subject to a 33 per cent. Belgian income tax (plus local surcharges) if the capital gains on the Structured Notes are deemed to be speculative or outside the scope of the normal management of the individuals' private estate. Capital losses arising from such transactions are not tax deductible.

Capital gains realised upon transfer of Structured Notes held for professional purposes are taxable at the ordinary progressive income tax rates (plus local surcharges), except for Structured Notes held for more than five years, which are taxable at a separate rate of 16.5 per cent. (plus local surcharges). Capital losses on the Structured Notes incurred by Belgian resident individuals holding the Structured Notes for professional purposes are in principle tax deductible.

Belgian resident companies

Companies that are Belgian residents for tax purposes, i.e. that are subject to Belgian corporate income tax ("*Vennootschapsbelasting/Impôt des sociétés*"), are liable to Belgian corporate income tax on the capital gains (if any) realised upon disposal of the Structured Notes to a third party, irrespective of whether such Structured Notes relate to shares or other assets or indices. The current standard corporate income tax rate in Belgium is currently in principle 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.) as of assessment year 2021 linked to a taxable period starting at the earliest on 1 January 2020. Capital losses realised upon disposal of the Structured Notes are in principle tax deductible. Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992.

Other Belgian resident legal entities

Non-corporate legal entities that are Belgian residents for tax purposes, i.e. that are subject to Belgian income tax on legal entities ("*Rechtspersonenbelasting/Impôt des personnes morales*"), are currently not liable to Belgian income tax on capital gains (if any) realised upon disposal of the Structured Notes to a third party.

Capital losses realised upon disposal of the Structured Notes are in principle not tax deductible.

Belgian non-residents

Non-resident individuals who do not use the Structured Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax capital gains on the Notes to Belgium, will be subject to tax in Belgium if the capital gains are obtained or received in Belgium and are deemed to be realised outside the scope of the normal management of the individual's private estate. Capital losses are generally not deductible.

Non-resident investors who have allocated the Structured Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same income tax treatment as Belgian resident companies or Belgian resident individuals holding the Notes for professional purposes (see above).

(ii) Other Notes

The following summary describes the principal Belgian tax considerations with respect to Notes other than Structured Notes and that are not held in the NBB–SSS.

For Belgian tax purposes, periodic interest income and amounts paid by the relevant Issuer in excess of the issue price (whether or not on the maturity date) are qualified and taxable as "interest". In addition, if the Notes qualify as fixed income securities within the meaning of article 2, §1, 8° of the Belgian Income Tax Code of 1992, in case of a realisation of the Notes to a third party between two interest payment dates, an income equal to the *pro rata* of accrued interest corresponding to the period during which the investor held the Notes in the period between the two interest payment dates is also taxable as interest. For the purposes of the following paragraphs, any such gain and accrued interest are therefore referred to as interest.

Belgian resident individuals

Belgian resident individuals, i.e. individuals who are subject to Belgian personal income tax ("*Personenbelasting/Impôt des personnes physiques*"), and who hold the Notes as a private investment, are in Belgium subject to the following tax treatment with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Interest payments on Belgian Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on Foreign Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Notes in their personal income tax return, provided Belgian withholding tax was levied on these interest payments. However, they may elect to declare interest in their personal income tax return.

TAXATION

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return and will be taxed at a flat rate of 30 per cent.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the normal management of one's private estate or unless the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Belgian resident companies

Belgian resident companies, i.e. companies that are subject to Belgian corporate income tax ("*Vennootschapsbelasting/Impôt des sociétés*"), are in Belgium subject to the following tax treatment with respect to the Notes. Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992.

Interest derived by Belgian resident companies on the Notes and capital gains realised on the Notes will be subject to Belgian corporate income tax at the applicable corporate income tax rates (the ordinary corporate income tax rate is currently in principle 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.), as of assessment year 2021 linked to a taxable period starting at the earliest on 1 January 2020). If the income has been subject to a foreign withholding tax, a foreign tax credit will be applied on the Belgian tax due. For interest income, the foreign tax credit is generally equal to a fraction where the numerator is equal to the foreign tax and the denominator is equal to 100 minus the rate of the foreign tax, up to a maximum of 15/85 of the net amount received (subject to some further limitations). Capital losses are in principle tax deductible.

Interest payments on the Belgian Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on the Notes made through a paying agent in Belgium are in principle be subject to a 30 per cent. withholding tax, but can under certain circumstances be exempt from Belgian withholding tax, **provided that** certain formalities are complied with. For zero or capitalisation bonds, an exemption can only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6°, b) of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992. The withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

Other Belgian resident legal entities

Belgian non-profit legal entities, i.e. legal entities that are subject to Belgian income tax on legal entities ("*Rechtspersonenbelasting/Impôt des personnes morales*"), are subject to the following tax treatment with respect to the Notes in Belgium.

Interest payments on Belgian Notes will be subject to a 30 per cent. withholding tax in Belgium. Similarly, interest payments on Foreign Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium. If Belgian withholding tax was levied, no further Belgian income tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the Belgian resident legal entity itself is responsible for the deduction and payment of the 30 per cent. withholding tax.

TAXATION

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gain qualifies as interest (as defined above). Capital losses are in principle not tax deductible.

Belgian non-residents

Interest income on Belgian Notes paid to non-residents of Belgium and interest income on Foreign Notes paid to non-residents of Belgium through a professional intermediary in Belgium will, in principle, be subject to a 30 per cent. withholding tax. Lower rates may apply if the holder of the Notes is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. In addition, non-resident corporate investors who have allocated Foreign Notes to the exercise of a professional activity in Belgium through a Belgian establishment may benefit from a withholding tax exemption, **provided that** certain formalities are complied with. If interest on Foreign Notes is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident individuals who do not use the Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax interest on the Notes to Belgium, will be subject to tax in Belgium if interest is obtained or received in Belgium.

Non-resident individuals who do not use the Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax capital gains on the Notes to Belgium, will be subject to tax in Belgium if the capital gains are obtained or received in Belgium and are deemed to be realised outside the scope of the normal management of the individual's private estate. Capital losses are generally not deductible.

Non-resident investors who have allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same income tax treatment as Belgian resident companies or Belgian resident individuals holding the Notes for professional purposes (see above).

(b) Tax treatment applicable to Belgian Notes held in the NBB–SSS

Withholding tax

The holding of the Notes in the NBB clearing and settlement system permits most types of investors (the "**Eligible Investors**", see below) to collect interest on their Notes free of withholding tax, and to trade their Notes on a gross basis.

Participants in the NBB system must keep the Notes they hold for the account of Eligible Investors on so called "**X accounts**", and those they hold for the account of non-Eligible Investors on "**N accounts**". Payments of interest made through X accounts are free of withholding tax; payments of interest made through N accounts are subject to a withholding tax of 30 per cent., which the NBB deducts from the payment and pays over to the tax authorities. In the case of Notes issued at a discount, the difference between the issue price and the principal amount constitutes interest for these purposes.

Transfers of Notes between an X account and an N account give rise to certain adjustment payments on account of withholding tax:

- A transfer from an N account (to an X account or a N account) gives rise to the payment by the transferor non-Eligible Investor to the NBB of withholding tax on the accrued fraction of interest

TAXATION

calculated from the last interest payment date up to the transfer date. The withholding tax is due in euro, and is calculated based on the rate of exchange published two business days earlier by the NBB.

- A transfer from an X account (or an N Account) to an N account gives rise to the refund by the NBB to the transferee non-Eligible Investor of withholding tax on the accrued fraction of interest calculated from the last interest payment date up to the transfer date. The refund is payable in euro, and is calculated based on the rate of exchange published two business days earlier by the NBB.
- Transfers of Notes between two X accounts do not give rise to any adjustment on account of withholding tax.

These adjustment mechanics are such that parties trading the Notes on the secondary market, irrespective of whether they are Eligible or non-Eligible Investors, are in a position to quote prices on a gross basis.

The main categories of Eligible Investors are as follows:

- Belgian resident corporate investors;
- corporate investors who are non-residents of Belgium, whether they have a permanent establishment in Belgium or not;
- individuals who are non-residents of Belgium, unless their holding of the Notes is connected to a permanent establishment they have in Belgium; and
- investment funds governed by foreign law that are an indivisible estate managed by a management company for the account of the participants (such as *fonds de placement/beleggingsfondsen*) and whose units are not publicly offered or marketed in Belgium.

The main categories of non-Eligible Investors are:

- Belgian resident individuals; and
- most Belgian non profit organisations.

(The above categories summarise the detailed definitions contained in Article 4 of the Belgian royal decree of 26 May 1994 on the deduction of withholding tax ("*Arrêté Royal du 26 mai 1994 relatif à la perception et à la bonification du précompte mobilier/Koninklijk Besluit van 26 mei 1994 over de inhouding en de vergoeding van de roerende voorheffing*"), to which investors should refer for a precise description of the relevant eligibility rules.)

When opening a securities account for the holding of Notes or other securities kept in the NBB–SSS, investors are required to provide the financial institution where this account is kept with a statement as to their tax status. This statement need not be periodically reissued, save that investors need to inform the financial institution of any changes to the information contained in it. No such statement is required of investors who are non-residents of Belgium and keep their Notes on a securities account through Euroclear, Clearstream, Frankfurt, SIX SIS, Switzerland, Monte Titoli, Italy, INTERBOLSA, Portugal and Euroclear, France.

Belgian resident individuals

For Belgian resident individuals, i.e., natural persons who are subject to Belgian personal income tax ("*Personenbelasting/Impôt des personnes physiques*") and who hold the Notes as a private investment, payment of the 30 per cent. withholding tax fully discharges them from their personal income tax liability with respect to these interest payments. This means that they do not have to declare interest in respect of the Notes in their personal income tax return, **provided that** Belgian withholding tax has effectively been levied on the interest.

Nevertheless Belgian resident individuals may elect to declare interest in respect of the Notes in their personal income tax return. Interest income which is declared in this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s) taking into account the taxpayer's other declared income, whichever is more beneficial). The Belgian withholding tax levied may be credited.

Capital gains realised on the sale of the Notes are in principle tax exempt, except to the extent the capital gains are realised outside the scope of the management of one's private estate or except to the extent they qualify as interest (as described in "*Other Notes*" above). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Belgian resident companies

Interest attributed or paid to companies that are Belgian residents for tax purposes, i.e. which are subject to Belgian corporate income tax ("*Vennootschapsbelasting/Impôt des sociétés*"), as well as capital gains realised upon the disposal of Notes are taxable at the ordinary corporate income tax rate of currently in principle 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.) as of assessment year 2021 linked to a taxable period starting at the earliest on 1 January 2020. Capital losses realised upon the disposal of the Notes are in principle tax deductible.

Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992.

Belgian resident legal entities

For Belgian legal entities subject to Belgian legal entities tax ("*Rechtspersonenbelasting/impôt des personnes morales*") and which have been subject to the 30 per cent. withholding tax on interest payments, such withholding tax constitutes the final taxation.

Belgian legal entities which have received interest income on the Notes without deduction for or on account of Belgian withholding tax are required to declare and pay the 30 per cent. withholding tax to the Belgian tax authorities themselves.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains qualify as interest (as described in "*Other Notes*" above). Capital losses are in principle not tax deductible.

Belgian non-residents

Noteholders who are not residents of Belgium for Belgian tax purposes and who are not holding the Notes through a permanent establishment in Belgium will not become liable for any Belgian tax on income or capital gains by reason only of the acquisition or disposal of the Notes, **provided that** they qualify as Eligible Investors and that they hold their Notes in an X account.

If the Notes are not entered into an X account by the Eligible Investor, withholding tax on the interest is in principle applicable at the rate of currently 30 per cent., possibly reduced pursuant to a double taxation agreement. In addition, non-resident corporate investors who have allocated Foreign Notes to the exercise of a professional activity in Belgium through a Belgian establishment may benefit from a withholding tax exemption, **provided that** certain formalities are complied with.

Non-resident individuals who do not use the Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax interest on the Notes to Belgium, will be subject to income tax in Belgium if the interest is obtained or received in Belgium.

Non-resident individuals who do not use the Notes for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax capital gains on the Notes to Belgium, will be subject to tax in Belgium if the capital gains are obtained or received in Belgium and are deemed to be realised outside the scope of the normal management of the individual's private estate. Capital losses are generally not deductible.

Non-resident investors who have allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same income tax treatment as Belgian resident companies or Belgian resident individuals holding the Notes for professional purposes (see above).

(c) Belgian tax on stock exchange transactions

A tax on stock exchange transactions ("*Taks op de Beursverrichtingen/Taxe sur les operations de bourse*") will be levied on the sale and acquisition of the Notes on the secondary market if (i) executed in Belgium through a professional intermediary or (ii) deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals having their usual residence in Belgium, or legal entities established in Belgium.

The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is 0.12 per cent. with a maximum amount of Euro 1,300 per transaction and per party or, as the case may be, 0.35 per cent. with a maximum amount of Euro 1,600 per transaction and per party. The tax is due separately from each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However, if the intermediary is established outside of Belgium, the tax will in principle be due by the ordering private individual or legal entity, unless that individual or entity can demonstrate that the tax has already been paid. Professional intermediaries established outside of Belgium can, subject to certain conditions and formalities, appoint a Belgian representative for tax purposes, which will be liable for the tax on stock exchange transactions in respect of the transactions executed through the professional intermediary.

Exemptions are available, inter alia, for certain categories of Belgian institutional investors and non-residents acting for their own account, provided that certain formalities are respected. Transactions on the primary market are not subject to this tax.

A tax on repurchase transactions ("*Taks op de reportverrichtingen/Taxe sur les reports*") at the rate of 0.085 per cent. will be due from each party to any such transaction entered into or settled in Belgium in which a stockbroker acts for either party (with a maximum amount of Euro 1,300 per transaction and per party or, as the case may be, Euro 1,600 per transaction and per party).

Neither the tax on stock exchange transactions nor the tax on repurchase transactions will be payable by exempt persons acting for their own account, including investors who are not Belgian residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status, and certain Belgian institutional investors as defined in Article 126/1, 2° of the Code of miscellaneous taxes and duties ("*Wetboek diverse rechten en taksen/Code des droits et taxes divers*") for the tax on stock exchange transactions and Article 139, second paragraph, of the same code for the tax on repurchase transactions.

As stated below, the European Commission has published a proposal for a Directive for a FTT. The proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time. Luxembourg decided not to participate in the enhanced cooperation on introducing an FTT.

(d) Tax on securities accounts

Belgian resident and non-resident individuals are subject to a tax on securities accounts ("*Taks op de effectenrekeningen/Taxe sur les comptes-titres*") at a rate of 0.15 per cent. on their share in the average value of the qualifying financial instruments (including but not limited to shares, notes and units of undertakings for collective investment) held on one or more securities accounts during a reference period of twelve consecutive months starting on 1 October and ending on 30 September of the subsequent year ("**Tax on Securities Accounts**").

No Tax on Securities Accounts will be due provided the holder's share in the average value of the qualifying financial instruments on those accounts amounts to less than EUR 500,000. If, however, the holder's share in the average value of the qualifying financial instruments on those accounts amounts to EUR 500,000 or more, the Tax on Securities Accounts will be due on the entire share of the holder in the average value of the qualifying financial instruments on those accounts (and, hence, not only on the part which exceeds the EUR 500,000 threshold).

Qualifying financial instruments held by non-resident individuals only fall within the scope of the Tax on Securities Accounts provided they are held on securities accounts with a financial intermediary established or located in Belgium. Note that pursuant to certain double tax treaties, Belgium has no right to tax capital. Hence, to the extent the Tax on Securities Accounts is viewed as a tax on capital within the meaning of these double tax treaties, treaty protection may, subject to certain conditions, be claimed.

A financial intermediary is defined as (i) a credit institution or a stockbroking firm as defined by Article 1, §2 and §3 of the Law of 25 April 2014 on the status and supervision of credit institutions and investment companies and (ii) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and

TAXATION

supervision of portfolio management and investment advice companies, which are, pursuant to national law, admitted to hold financial instruments for the account of customers.

The Tax on Securities Accounts is in principle due by the financial intermediary established or located in Belgium if (i) the holder's share in the average value of the qualifying financial instruments held on one or more securities accounts with said intermediary amounts to EUR 500,000 or more or (ii) the holder instructed the financial intermediary to levy the Tax on Securities Accounts due (e.g. in case such holder holds qualifying financial instruments on several securities accounts held with multiple intermediaries of which the average value does not amount to EUR 500,000 or more, but of which the holder's share in the total average value of these accounts amounts to at least EUR 500,000 EUR). Otherwise, the Tax on Securities Accounts would have to be declared and would be due by the holder itself unless the holder provides evidence that the Tax on Securities Accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint a Tax on the Securities Accounts representative in Belgium, subject to certain conditions and formalities ("**Tax on the Securities Accounts Representative**"). Such a Tax on the Securities Accounts Representative will then be liable towards the Belgian Treasury for the Tax on the Securities Accounts due and for complying with certain reporting obligations in that respect.

Belgian resident individuals will have to report in their annual income tax return various securities accounts held with one or more financial intermediaries of which they are considered as a holder within the meaning of the Tax on Securities Accounts. Non-resident individuals have to report in their annual Belgian non-resident income tax return various securities accounts held with one or more financial intermediaries established or located in Belgium of which they are considered as a holder within the meaning of the Tax on Securities Accounts.

Prospective investors are urged to consult their own tax advisors as to the tax consequences of the application of this new tax on their investment in Notes.

Taxation in Luxembourg

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*) as well as personal income tax (*impôt sur le revenu*). Investors may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident in Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

(a) *Withholding Tax*

(i) *Non-resident holders of Notes*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

(ii) *Resident holders of Notes*

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent. In addition, pursuant to the Relibi Law, Luxembourg resident individuals can opt to self declare and pay a 20 per cent. levy on interest payments made by paying agents located in a Member State of the European Union other than Luxembourg or a Member State of the European Economic Area (the "**Levy**"). Such withholding tax as described above or the Levy will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding tax will be assumed by the Luxembourg paying agent.

(b) *Income Taxation*

(i) *Non-resident holders of Notes*

A non-resident holder of Notes, not having a permanent establishment or permanent representative in Luxembourg to which/whom such Notes are attributable, is not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes. A gain realised by such non-resident holder of Notes on the sale or disposal, in any form whatsoever, of the Notes is further not subject to Luxembourg income tax.

A non-resident corporate holder of Notes or an individual holder of Notes acting in the course of the management of a professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which or to whom such Notes are attributable, is subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes and on any gains realised upon the sale or disposal, in any form whatsoever, of the Notes.

(ii) *Resident holders of Notes*

Holders of Notes who are residents of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

- Luxembourg resident corporate holder of Notes

A corporate holder of Notes must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form

whatsoever, of the Notes, in its taxable income for Luxembourg income tax assessment purposes.

A corporate holder of Notes that is governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective investment, as amended, or by the law of 13 February 2007 on specialised investment funds, as amended, or by the law of 23 July 2016 on reserved alternative investment funds and which does not fall under the special tax regime set out in Article 48 thereof is neither subject to Luxembourg income tax in respect of interest accrued or received, any redemption premium or issue discount, nor on gains realised on the sale or disposal, in any form whatsoever, of the Notes.

- Luxembourg resident individual holder of Notes

An individual holder of Notes, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax at progressive rates in respect of interest received, redemption premiums or issue discounts, under the Notes, except if (i) withholding tax has been levied on such payments in accordance with the Relibi Law, or (ii) the individual holder of the Notes has opted for the application the Levy. A gain realised by an individual holder of Notes, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of Notes is not subject to Luxembourg income tax, provided this sale or disposal took place more than six months after the Notes were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax has been levied on such interest in accordance with the Relibi Law.

An individual holder of Notes acting in the course of the management of a professional or business undertaking must include this interest in its taxable basis. If applicable, the tax levied in accordance with the Relibi Law will be credited against his/her final tax liability.

(c) *Net Wealth Taxation*

Luxembourg net wealth tax will not be levied on a holder of a Note unless:

- (i) such holder is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions to the exception of the following entities that are net wealth tax exempt, being (A) undertakings for collective investment (UCITS) within the meaning of the law of 17 December 2010, as amended, (B) specialized investment funds within the meaning of the law of 13 February 2007, as amended, (C) family wealth management companies governed by the law of 11 May 2007, as amended, (D) securitisation vehicles governed by the law of 22 March 2004, as amended, (E) investment companies in risk capital governed by the law of 15 June 2004, as amended and (F) reserved alternative investment funds governed by the law of 14 July 2016; or
- (ii) such Note is attributable to an enterprise or part thereof which is carried on through a permanent establishment or a permanent representative or a fixed base of business in Luxembourg;

However, please note that (i) securitisation companies governed by the law of 22 March 2004 on securitisation, as amended, or (ii) capital companies governed by the law of 15 June 2004 on venture capital vehicles, as amended, or (iii) capital companies governed by the law of 13 July 2005 on professional pension institutions, as amended, or (iv) reserved alternative investment funds governed

by the law of 23 July 2016 and which fall under the special tax regime set out under article 48 thereof may, under certain conditions, be subject to minimum net wealth tax.

This minimum net wealth tax amounts to EUR 4,815, if the relevant holder of a Note holds assets such as fixed financial assets, receivables owed to affiliated companies, transferable securities, postal checking accounts, checks and cash, in a proportion that exceeds 90 per cent. of its total balance sheet value and if the total balance sheet value of these very assets exceeds EUR 350,000. Alternatively, if the relevant holder of a Note holds 90 per cent. or less of financial assets or if those financial assets do not exceed EUR 350,000, a minimum net wealth tax varying between EUR 535 and EUR 32,100 would apply depending on the size of its balance sheet.

In respect of individuals, the Luxembourg law of 23 December 2005 has abolished the net wealth tax with effect from 1 January 2006.

(d) *Inheritance and Gift Taxation*

- (i) No Luxembourg inheritance tax is levied on the transfer of the Notes upon death of a Noteholder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes. However, where a holder of Notes is a resident of Luxembourg for tax purposes at the time of his/her death, the Notes are included in his/her taxable estate for inheritance tax assessment purposes.
- (ii) Luxembourg gift tax will be levied in case the gift is made pursuant to a notarial deed signed before a Luxembourg notary or is registered in Luxembourg.

(e) *Other Taxes and Duties*

Under current Luxembourg tax law and current administrative practice, it is not compulsory that the Notes be notarised, filed, recorded or enrolled with any court, or other authority in Luxembourg or that registration tax, transfer tax, capital tax, stamp duty or any other similar tax or duty (other than court fees and contributions for the registration with the Chamber of Commerce) be paid in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of Luxembourg) of the Notes, in accordance therewith or the performance of the Issuers' obligations under the Notes, except if the Notes are either (i) physically attached as an annex to an act (*annexés à un acte*) that itself is subject to mandatory registration or (ii) deposited in the minutes of a notary (*déposés au rang des minutes d'un notaire*). In such cases, as well as in case of a voluntary registration, the Notes will be subject to a fixed EUR 12 duty payable by the party registering, or being ordered to register, the Notes.

(f) *Value Added Tax*

There is no Luxembourg value-added tax payable in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes or the transfer of Notes. Luxembourg value-added tax may, however, be payable in respect of fees charged for certain services rendered to BP2F, if for Luxembourg value-added tax purposes such services are rendered, or are deemed to be rendered, in Luxembourg and an exemption from Luxembourg value-added tax does not apply with respect to such services.

(g) *Residence*

A holder of a Note will not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of such Note or the execution, performance, delivery and/or enforcement of that or any other Note.

Taxation in The Netherlands

General

The following summary outlines the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes, but does not purport to be a comprehensive description of all Netherlands tax considerations that may be relevant. For purposes of Netherlands tax law, a holder of Notes may include an individual or entity who does not have the legal title of these Notes, but to whom nevertheless the Notes or the income thereof is attributed based on specific statutory provisions or on the basis of such individual or entity having an interest in the Notes or the income thereof. This summary is intended as general information for holders of the Notes who are residents or deemed residents of the Netherlands for Netherlands tax purposes. This summary is intended as general information only and each prospective investor should consult a professional tax adviser with respect to the tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes.

This summary is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) investment institutions (*fiscale beleggingsinstellingen*);
- (ii) pension funds, exempt investment institutions (*vrijgestelde beleggingsinstellingen*) or other entities that are not subject to or exempt from Netherlands corporate income tax;
- (iii) holders of Notes holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the relevant Issuer and holders of Notes of whom a certain related person holds a substantial interest in an Issuer. Generally speaking, a substantial interest in an Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutory defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (iv) persons to whom the Notes and the income from the Notes are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of the Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) and the Netherlands Gift and Inheritance Tax Act 1956 (*Successiewet 1956*);
- (v) entities which are a resident of Aruba, Curacao or Sint Maarten that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Saint Eustatius or Saba, to which permanent establishment or permanent representative the Notes are attributable; and
- (vi) individuals to whom Notes or the income there from are attributable to employment activities which are taxed as employment income in the Netherlands.

For the purpose of the Netherlands tax consequences described herein, it is assumed that the relevant Issuer is neither a resident of the Netherlands nor deemed to be a resident of the Netherlands for Netherlands tax purposes.

Where this summary refers to the Netherlands, such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

Netherlands Withholding Tax

All payments made by the relevant Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Netherlands Corporate and Individual Income Tax

If a holder of Notes is a resident of the Netherlands or deemed to be a resident of the Netherlands for Netherlands corporate income tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of an enterprise to which the Notes are attributable, income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are generally taxable in the Netherlands (at up to a maximum rate of 25 per cent.).

If an individual is a resident of the Netherlands or deemed to be a resident of the Netherlands for Netherlands individual income tax purposes income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are taxable at the progressive rates (at up to a maximum rate of 51.75 per cent. in 2019) under the Netherlands Income Tax Act 2001, if:

- (i) the individual is an entrepreneur (*ondernemer*) and has an enterprise to which the Notes are attributable or the individual has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Notes are attributable; or
- (ii) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which includes activities with respect to the Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor condition (ii) above applies, an individual that holds the Notes, must determine taxable income with regard to the Notes on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. With regard to 2019 this deemed return on income from savings and investments ranges from 1.94 per cent. to 5.60 per cent. of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year (1 January), insofar as the individual's yield basis exceeds a certain threshold (*heffingvrij vermogen*). The individual's yield basis is determined as the fair market value of certain qualifying assets held by the individual less the fair market value of certain qualifying liabilities on 1 January. The fair market value of the Notes will be included as an asset in the individual's yield basis. The applicable rates will be updated annually on the basis of historic market yields. The deemed return on income from savings and investments is taxed at a rate of 30 per cent.

Gift and Inheritance Tax

Residents of the Netherlands

Generally, gift tax (*schenkbelasting*) or inheritance tax (*erfbelasting*) will be due in the Netherlands in respect of the acquisition of the Notes by way of a gift by, or on behalf of, or on the death of, a holder of Notes that is a resident or deemed to be a resident of the Netherlands for the purposes of Netherlands Gift and Inheritance Tax Act 1956 at the time of the gift or his or her death. A gift made under a condition precedent is for purposes of the Netherlands Gift and Inheritance Tax Act 1956 deemed to be a made at the time the condition precedent is fulfilled and is subject to gift tax if the donor is, or is deemed to be a resident of the Netherlands at that time.

TAXATION

A holder of Netherlands nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands Gift and Inheritance Tax Act 1956 if he or she has been resident in the Netherlands and dies or makes a gift within ten years after leaving the Netherlands. A holder of any other nationality is deemed to be a resident of the Netherlands for the purposes of the Gift and Inheritance Tax Act 1956 if he or she has been resident in the Netherlands and makes a gift within a twelve months period after leaving the Netherlands. The same twelve-month rule may apply to entities that have transferred their seat of residence out of the Netherlands.

Non-residents of the Netherlands

No gift or inheritance tax will be due in the Netherlands in respect of the acquisition of the Notes by way of a gift by, or as a result of the death of a holder that is neither a resident nor deemed to be a resident of the Netherlands for the purposes of the Netherlands Gift and Inheritance Tax Act 1956. However, inheritance tax will be due in the case of a gift of the Notes by, or on behalf of, a holder who at the date of the gift was neither a resident nor deemed to be a resident of the Netherlands for the purposes of the Netherlands Gift and Inheritance Tax Act 1956, but such holder dies within 180 days after the date of the gift and at the time of his or her death is a resident or deemed to be a resident of the Netherlands for the purposes of the Netherlands Gift and Inheritance Tax Act 1956. A gift made under a condition precedent is deemed to be made at the time the condition precedent is fulfilled and is subject to gift tax if the donor is, or is deemed to be a resident of the Netherlands at that time.

Value Added Tax

In general, no value added tax will arise in respect of payments in consideration for the issue of the Notes or in respect of a cash payment made under the Notes, or in respect of a transfer of Notes.

Other Netherlands Taxes and Duties

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Notes.

Taxation in France

The following is a summary addressing only the French compulsory withholding tax treatment of income arising from the holding of the Notes. This summary is based on the laws and regulations in full force and effect in France as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect.

This summary is prepared on the assumption that neither BNPPF nor BP2F is and will be a French resident for French tax purposes and any transactions in connection with the Notes are not and will not be attributed or attributable to a French branch, permanent establishment or other fixed place of business of BNPPF or BP2F in France.

In respect of those Notes which are treated as debt for French tax purposes, all payments by the relevant Issuer in respect of such Notes will be made free of any compulsory withholding or deduction for or on account of any income tax imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A I of the French *Code Général des Impôts* and subject to certain exceptions, interest and similar revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject, to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which

the payment has been made. Such interest and similar revenues are also subject to social contributions (CSG, CRDS and solidarity levy) which are withheld at an aggregate rate of 17.2 per cent. subject to certain exceptions.

In respect of those Notes which are not treated as debt for French tax purposes, all payments by the relevant Issuer in respect of such Notes will be made free of any compulsory withholding or deduction for or on account of any income tax imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

Taxation in Switzerland

The following summary does not purport to be a comprehensive description of all Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and, in particular, does not consider specific facts or circumstances that may apply to a particular purchaser. It is for general information only and does not discuss all tax consequences of an investment in Notes under the tax laws of Switzerland. This summary is based on the tax laws of Switzerland currently in force and as applied on the date of this Base Prospectus which are subject to changes (or changes in interpretation) which may have retroactive effect. Prospective purchasers are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes in the light of their particular circumstances.

Swiss Income Tax

Swiss Resident Noteholders

Interest Payments or Redemption of Notes

Swiss residents receiving periodic interest payments during the investment or at redemption as one-time-interest generally must include these interest payments in their financial statements and/or in their income tax returns and owe individual income tax or corporate income tax on the relevant amounts.

Notes which are not straight debt instruments but have components of debt instruments and derivatives intertwined generally qualify as combined instruments. The tax treatment of such Notes depends on whether the Notes are considered as transparent or not for Swiss income tax purposes.

If the Note is considered as not transparent for Swiss income tax purposes, any amount received by the Noteholder (upon sale, lapse, exercise or redemption) in excess of the amount invested (at issue or upon purchase) is treated as taxable income in the hands of the Noteholder if the Note qualifies as a note with predominant one-time interest payment. If the Note does not qualify as a note with predominant one-time interest payment, the Noteholder is subject to tax on the periodic interest payments and (at redemption) on the difference between initial issuance price and the redemption price. For the purpose of determining whether the Note is a note with predominant one-time interest payment the difference between initial issuance price and the redemption price is treated as one-time interest.

If the Note is considered as transparent for Swiss income tax purposes, it will be split notionally in a debt instrument and a derivative instrument component. Gains or losses on the derivative instrument component are treated as capital gains or losses (see below). Interest payments received during the investment, at lapse or exercise or at redemption as one-time interest related to the debt instrument component are treated as taxable income in the hands of the Noteholder. Such a treatment is also applicable for the purpose of determining whether the Note is a note with predominant one-time interest payment.

The Note is generally considered as transparent if the debt and the derivative components are traded separately or if the different elements of the Note (such as the guaranteed redemption amount, the issuance

price of the debt component, the interest rates determining the issuance price of the debt component) are separately stated in the sales documentation as well as in the offering prospectus and if each one of such components is separately evaluated. Such evaluation has to be performed through calculations of financial mathematics determining the intrinsic value of the debt instrument and the derivative instrument components contained in the Note. In particular, the calculations have to determine the notional issuance price of the debt instrument, based on the interest rate taken into account by the issuer which has to be at market value. The Swiss Federal Tax Administration has to approve such calculations. Such calculations have to be reviewed on a quarterly basis in order to take into account the evolution of the interest rates. If the tax authorities are not provided with sufficient information the Notes can be treated as not transparent. Products with prevalent structures but for which the issuer does not provide the information allowing to distinguish the different elements of a product as described above are made transparent in retrospect by the tax authorities, banks or other channels of distribution if the following requirements are fulfilled: (a) the issuer of the product must have at least a single-A-rating; and (b) the product at hand has to be admitted to official quotation at the commercial exchange market or, at least, a market maker has to insure liquid trading of the product at hand. Liquid trading by a market maker is a condition that the key data of the product can be used as credible basis of calculation.

Capital Gains

Swiss Resident Private Noteholders

Swiss resident Noteholders who do not qualify as so-called professional securities dealer for income tax purposes ("*gewerbsmässiger Wertschriftenhändler*") and who hold the Notes as part of their private (as opposed to business) assets are hereby defined as Swiss Resident Private Noteholders.

Swiss Resident Private Noteholders realise a tax free capital gain upon the disposal of Notes which do not qualify as notes with predominant one-time interest payment and realise taxable income if the Notes qualify as notes with one-time predominant interest payment.

The tax treatment of capital gains on Notes which qualify as combined instruments (see above) depends on whether the Note qualifies as tax transparent or not. Notes which are not transparent for Swiss income tax purposes (see above) generally qualify as notes with predominant one-time interest payment and are treated as such. Notes which qualify as tax transparent are notionally split into a debt instrument and a derivative instrument component. The debt instrument component follows the usual tax treatment either as note with predominant one-time interest payment or as note with no predominant one-time interest payment as applicable. Capital gains arising from the derivative instrument component of transparent Notes are generally not subject to income tax in the hands of Swiss Resident Private Noteholders.

Swiss Resident Business Noteholders

Gains realised on the sale of Notes, by Swiss resident individual Noteholders holding the Notes as part of their business assets as well as by Swiss resident legal entity Noteholders, are part of their business profit subject to individual income tax or corporate income taxes, respectively. The same applies to Swiss Resident Private Noteholders who qualify as so-called professional securities dealer ("*gewerbsmässiger Wertschriftenhändler*").

Non-Swiss Resident Noteholders

Under present Swiss tax law, a Noteholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on interest or gains realised on sale or redemption of the Notes.

Swiss Stamp Duties

The sale or transfer of the Notes with a duration of more than one year may be subject to Swiss stamp duty at the current rate up to 15 bps per party, if such sale or transfer is made by or through the intermediary of a Swiss bank or other securities dealer as defined in the Swiss Stamp Tax Act and no exemption applies.

Notes qualified as units in a foreign investment fund may be subject to the Swiss transfer stamp duty of up to rate up to 15 bps per party at issue.

Swiss Withholding Tax

All payments in respect of the Notes by a non-Swiss resident Issuer are currently not subject to the Swiss withholding tax ("*Verrechnungssteuer*").

On 4 November 2015, the Swiss Federal Council announced that it had mandated the Swiss Federal Finance Department to appoint a group of experts to prepare a proposal for reform of the Swiss withholding tax system. The proposal presented by the group of experts as recommendations for a reform of the Swiss withholding tax on December 2018 provides, among other things, for a replacement of the current debtor-based regime applicable to interest payments with a paying agent-based regime for Swiss withholding tax. This paying agent-based regime is expected to be similar to the one contained in the draft legislation published by the Swiss Federal Council on 17 December 2014, which was subsequently withdrawn on 24 June 2015. However, on 23 October 2017, the Swiss Federal Economic Affairs and Taxation Committee of the Swiss National Council filed a parliamentary initiative reintroducing the request to replace the current debtor-based regime applicable to interest payments with a paying agent-based system that (i) subjects all interest payments made to individuals resident in Switzerland to Swiss withholding tax and (ii) provides an exemption from Swiss withholding tax for interest payments to all other persons (including Swiss corporations).

If this legislation or similar legislation were enacted and an amount of, or in respect of, Swiss withholding tax were to be deducted or withheld from that payment, neither the Issuer nor the Paying Agent would be obliged to pay additional amounts with respect to any Note as a result of the deduction or imposition of such Swiss withholding tax.

Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of FATCA. The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland. On 8 October 2014, the Swiss Federal Council approved a mandate for negotiations with the U.S. on changing the current direct-notification-based regime to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the U.S. tax authorities.

International Automatic Exchange of Information in Tax Matters

Switzerland has concluded a multilateral agreement with the European Union on the international automatic exchange of information (the "**AEOI**") in tax matters. The agreement became effective as of 1 January 2017 and applies to all 28 EU member states and also Gibraltar. Also on 1 January 2017 the multilateral competent authority agreement on the automatic exchange of financial account information (the "**MCAA**"), and based on the MCAA, a number of bilateral AEOI agreements with other countries became effective. Based on such agreements and the implementing laws of Switzerland, Switzerland collects data in respect of

financial assets, including, as the case may be, Notes, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in an EU member state or resident in a treaty state from 2017 or 2018, exchanges the data since 2018 or 2019, in each case depending on the effectiveness of the relevant agreement. Switzerland has signed and intends to sign further AEOI agreements with further countries, which, subject to ratification, will become effective at a later date. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective can be found on the website of the State Secretariat for International Financial Matters.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986 (the "**Code**"), commonly known as FATCA, a foreign financial institution (as defined by FATCA) may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting or related requirements. Each of the Issuers is a foreign financial institution for these purposes. A number of jurisdictions (including Luxembourg and Belgium) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes but generally will be required to report information with respect to its account holders to the relevant tax authorities. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes that are treated as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal income tax purposes issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding, unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional Notes (as described in "*Terms and Conditions of the Notes - Further Issues*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

**TERMS AND CONDITIONS OF THE NOTES AND
THE GUARANTEE**

TERMS AND CONDITIONS OF THE NOTES

The following section applies to both Exempt Notes and Non-exempt Notes.

PART 1: MEDIUM TERM NOTES

This section sets out the generic terms and conditions that are applicable to all types of Notes in definitive form or in dematerialised form.

PART 1 : MEDIUM TERM NOTES

The following is the text of the terms and conditions which, subject to completion and, in the case of Exempt Notes (as defined below) only, amendment or variance in accordance with the provisions of the relevant Final Terms in relation to any particular Tranche or Series, will (i) be endorsed on the Notes in definitive form (if any) issued (where applicable) in exchange for the Global Note(s) representing each Series or (ii) in the case of Dematerialised Notes, will be made applicable to such Notes.

Any reference in these Conditions (as defined below) to "relevant Final Terms" or "applicable Final Terms" shall be deemed to include a reference to "relevant Pricing Supplement" or "applicable Pricing Supplement", as the case may be, where relevant.

Notes will be issued in series (each a "**Series**") having one or more issue dates and the same maturity date (if any), bearing interest (if any) on the same basis and at the same rate and on terms otherwise identical. Each Series may be issued in tranches (each a "**Tranche**") as further described in Condition 12 (the issue date of the first Tranche of Notes being the "**Issue Date**"). The specific terms of each Series will be set forth in a set of final terms ("**Final Terms**") based on the form included in the Base Prospectus dated 5 June 2019, as supplemented from time to time.

The Notes are issued pursuant to an Amended and Restated Agency Agreement dated 5 June 2019 (as amended or supplemented from time to time, the "**Agency Agreement**") between BNP Paribas Fortis Funding ("**BP2F**") and BNP Paribas Fortis SA/NV ("**BNPPF**" and together with BP2F, the "**Issuers**" and each, an "**Issuer**"), BNP Paribas Fortis SA/NV (the "**Guarantor**"), BNP Paribas Securities Services, Luxembourg Branch as fiscal agent (the "**Fiscal Agent**"), registrar (the "**Registrar**"), principal paying agent (the "**Principal Paying Agent**") and transfer agent (the "**Transfer Agent**"), BNP Paribas Securities Services, Luxembourg Branch, BNP Paribas Fortis SA/NV (each such entity, together with any third party appointed in such capacity as calculation agent, a "**Calculation Agent**"), BNP Paribas Fortis SA/NV as alternative principal paying agent (the "**Alternative Principal Paying Agent**") (together with the Principal Paying Agent and any additional or other paying agents in respect of the Notes from time to time appointed, the "**Paying Agents**") and as transfer agent (together with the Transfer Agent referred to above and any additional or other transfer agents in respect of the Notes from time to time appointed, the "**Transfer Agents**") and BNP Paribas Fortis SA/NV as domiciliary agent (the "**Domiciliary Agent**"). For the purposes of these Conditions, "**Principal Paying Agent**" means, in relation to any Series of Notes, the Fiscal Agent or the Principal Paying Agent specified above or the Alternative Principal Paying Agent, as specified on the relevant Note. The initial Calculation Agent (if any) is specified on the relevant Note. In relation to the Notes issued by BNPPF which are specified in the relevant Final Terms to be cleared through the book-entry securities settlement system (the "**NBB-SSS**") operated by the National Bank of Belgium or any successor thereto (the "**NBB**") (the "**X/N Notes**"), BNPPF has, in addition to the Agency Agreement, also entered into a clearing agreement in respect of Dematerialised Notes (as defined below) with the NBB and the Domiciliary Agent on 13 June 2016 (the "**Dematerialised Notes Clearing Agreement**") and a clearing agreement in respect of X/N Notes that are in bearer form dated on or about 9 June 2017 (the "**Bearer Notes Clearing Agreement**", together with the Dematerialised Notes Clearing Agreement as amended or supplemented from time to time, the "**Clearing Agreements**"). The Noteholders (as defined below), the holders of the coupons (the "**Coupons**") appertaining to interest bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the "**Talons**") (the "**Couponholders**") and the holders of the instalment receipts (the "**Receipts**") appertaining to the payment of principal by instalments (the "**Receiptholders**") are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Final Terms (or Pricing Supplement, in the case of Exempt Notes) attached to or endorsed on this Note or, in the case of Dematerialised Notes, applicable to such Notes, which complete (or, in the case of a Pricing Supplement,

complete, supplement, modify and/or replace, as the case may be) these terms and conditions (the "**Conditions**") (which term shall include one or more of the parts to these terms and conditions containing additional terms and conditions relating to (i) payouts (set out at Part 2 of these Conditions (the "**Payout Conditions**")), (ii) inflation index-linked notes (set out at Part 3 of these Conditions (the "**Inflation Index-Linked Note Conditions**")), (iii) foreign exchange (FX) rate-linked notes (set out at Part 4 of these Conditions (the "**Foreign Exchange (FX) Rate-Linked Note Conditions**")) or (iv) underlying interest rate-linked notes (set out at Part 5 of these Conditions (the "**Underlying Interest Rate-Linked Note Conditions**" and, together with the Inflation Index-Linked Note Conditions and Foreign Exchange (FX) Rate-Linked Note Conditions, the "**Additional Terms and Conditions**")) and, in the case of a Note which is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive (an "**Exempt Note**"), may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the Conditions, replace or modify the Conditions for the purposes of this Note (such conditions, together with the applicable Final Terms, the "**Terms and Conditions**"). References to the "**applicable Final Terms**" or "**relevant Final Terms**" are, unless otherwise stated, to Part A of the Final Terms (or, in the case of Exempt Notes, Pricing Supplement) (or the relevant provisions thereof) attached to or endorsed on this Note or are, in the case of Dematerialised Notes, applicable to such Notes. These Conditions may be amended, modified, or varied in relation to any Series of Exempt Notes by the terms of the relevant Final Terms in relation to such Series. Without limitation to the generality of these Conditions, Exempt Notes may be issued on a partly-paid, instalment or other basis, where the interest rate, aggregate principal amount and/or other terms may be varied from time to time (as specified in the applicable Final Terms relating thereto).

Copies of the Agency Agreement and the Clearing Agreements are available for inspection at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents. If the Notes are to be admitted to trading on the regulated market of the Luxembourg Stock Exchange, the applicable Final Terms will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu). If the Notes are to be admitted to trading on the regulated market of the Luxembourg Stock Exchange, the Brussels Stock Exchange and/or the Amsterdam Stock Exchange, the applicable Final Terms will be published at www.bnpparibasfortis.be. If this Note is an Exempt Note, the applicable Pricing Supplement will only be obtainable by a Noteholder holding one or more Notes and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Paying Agent as to its holding of such Notes and identity.

1. Form, Denomination and Title

1.1 *Bearer Notes, Registered Notes, Exchangeable Bearer Notes*

Notes are issued in (a) bearer form ("**Bearer Notes**", which expression includes Notes which are specified to be Exchangeable Bearer Notes) in the denominations specified in the relevant Final Terms (the "**Specified Denomination(s)**"), (b) in the case of Notes issued by BP2F only, in definitive registered form ("**Registered Notes**") in amounts of the Specified Denomination or an integral multiple thereof ("**Authorised Denominations**") or (c) in the case of Notes issued by BP2F only, in bearer form exchangeable for Registered Notes ("**Exchangeable Bearer Notes**"), in each case, serially numbered.

Bearer Notes are issued with Coupons (and, in the case of Notes which, when issued in definitive form, have more than 27 interest payments remaining, a Talon) attached, save in the case of Notes which do not bear interest in which case references to interest (other than in relation to interest due after the Maturity Date (being the date specified in or determined as specified in the applicable Final Terms)), Coupons and Talons in the Terms and Conditions are not applicable. Any Bearer Note the principal amount of which is redeemable in instalments is issued with one or more Receipts attached.

Title to the Bearer Notes and the Receipts, Coupons and Talons appertaining thereto shall pass by delivery. Except as otherwise required by law, title to the Registered Notes shall pass by registration in the register (the "**Register**") which the relevant Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement. The provisions relating to the holding of a note register at the registered office of the issuer company contained in Article 470-1 of the Luxembourg law on commercial companies dated 10 August 1915, as amended (the "**Companies Act 1915**") shall not apply to the Registered Notes.

Except as ordered by a court of competent jurisdiction or required by law, the holder of any Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as the absolute owner of any such Note, Receipt, Coupon or Talon, as the case may be, for the purpose of receiving payment thereof or on account thereof and for all other purposes, whether or not such Note, Receipt, Coupon or Talon shall be overdue and notwithstanding any notice of ownership, theft or loss thereof or any writing thereon made by anyone.

In the Terms and Conditions, "**Noteholder**" means the bearer of any Bearer Note and the Receipts relating to it or the person in whose name a Registered Note is registered (as the case may be), "**holder**" (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Bearer Note, Receipt, Coupon or Talon or the person in whose name a Registered Note is registered (as the case may be) and capitalised terms have the meanings given to them on such Notes, the absence of any such meaning indicating that such term is not applicable to such Note.

1.2 Dematerialised Notes

BNPPF may issue notes in dematerialised form in accordance with Article 468 et seq. of the Belgian Company Code ("**Dematerialised Notes**"). The Dematerialised Notes are issued in accordance with Article 468 of the Belgian Company Code. The Dematerialised Notes will be represented by a book-entry in the records of the securities settlement system operated by the NBB or any successor thereto (the "**NBB-SSS**").

Notes issued by BNPPF will be issued in the Specified Denomination specified in the applicable Final Terms and may only be settled through the NBB-SSS in principal amounts equal to that denomination or integral multiples thereof.

The Dematerialised Notes can be held by their holders through the participants in the NBB-SSS, including Euroclear Bank SA/NV ("**Euroclear**"), Euroclear France SA, Clearstream Banking AG ("**Clearstream, Frankfurt**"), Monte Titoli SPA, SIX SIS AG and INTERBOLSA S.A. and through other financial intermediaries which in turn hold the Dematerialised Notes through Euroclear and Clearstream, Frankfurt or other participants in the NBB-SSS. The Dematerialised Notes are transferred by account transfer. Payments of principal, interest and other sums due under the Dematerialised Notes will be made in accordance with the rules of the NBB-SSS through the NBB. Holders of Dematerialised Notes are entitled to exercise the rights they have, including exercising their voting rights and other associative rights (for purposes of Article 474 of the Belgian Company Code) against BNPPF in accordance with the Terms and Conditions, upon submission of an affidavit drawn up by the NBB, Euroclear, Clearstream, Frankfurt or any other participant duly licensed in Belgium to keep dematerialised securities accounts showing their position in the Dematerialised Notes (or the position held by the financial institution through which their Dematerialised Notes are held with the NBB, Euroclear, Clearstream, Frankfurt or such other participant, in which case an affidavit drawn up by the financial institution will also be required).

The person who is for the time being shown in the records of the NBB-SSS or of an approved participant or sub-participant as the holder of a particular principal amount of Dematerialised Notes shall for all purposes be treated by BNPPF and the Domiciliary Agent as the holder of such principal

This Condition 3.2 is applicable in relation to Notes issued by the relevant Issuer to which both the following conditions apply, namely (a) the Notes have a Maturity Date and (b) the Notes are being issued on a subordinated basis ("**Senior Subordinated Notes**").

The obligations of the relevant Issuer in respect of the Senior Subordinated Notes constitute senior subordinated obligations of such Issuer and rank *pari passu* (subject to mandatorily preferred debts under applicable laws) without any preference among themselves and at least equally and rateably

with all other present and future outstanding senior subordinated obligations, including guarantees and other obligations of a similar nature of such Issuer. Accordingly, the liabilities of the relevant Issuer under or pursuant to the Senior Subordinated Notes shall in the event of a *concourse de tous les créanciers sur l'ensemble du patrimoine/samenloop van alle schuldeisers op het geheel van het vermogen* (competition between all creditors over all assets (including *faillite/faillissement*) (bankruptcy)) and liquidation *volontaire ou forcée/vrijwillige of gedwongen vereffening* (voluntary or compulsory liquidation) of the relevant Issuer or any other event under Belgian or Luxembourg law having equivalent or similar effect (each a "**Winding Up**") be irrevocably subordinated in right of payment to the claims of the depositors (in the case of BNPPF) and the Senior Creditors and by the holding of Senior Subordinated Notes, the holder thereof irrevocably waives its rights to equal treatment with such depositors (in the case of BNPPF) and Senior Creditors. This Condition 3.3 is applicable in relation to Notes issued by the relevant Issuer to which both the following conditions apply, namely (a) the Notes do not have a Maturity Date and (b) the Notes are issued on a subordinated basis ("**Junior Subordinated Notes**").

The obligations of the relevant Issuer in respect of Junior Subordinated Notes constitute direct, unsecured and junior subordinated obligations of such Issuer, conditional as described below, and rank (a) *pari passu* without any preference among themselves and with any other Junior Subordinated Notes and, in the case of BNPPF, the Junior Subordinated Guarantees granted by the Guarantor under Condition 3.6, (b) junior to all present and future unsecured obligations of such Issuer which are or are expressed to be subordinated to the unsecured, unsubordinated obligations of such Issuer but not further or otherwise ("**Senior Subordinated Obligations**"), (c) at least equally and rateably with all other present and future obligations of such Issuer which rank or are expressed to rank junior to the Senior Subordinated Obligations and (d) in priority to the rights and claims of holders of all classes of equity (including holders of preference shares (if any)) issued by such Issuer, subject to mandatory provisions of Belgian law (in the case of Junior Subordinated Notes issued by BNPPF) or the laws of Luxembourg (in the case of Junior Subordinated Notes issued by BP2F).

Claims in respect of the Junior Subordinated Notes are subordinated to the claims of Senior and Subordinated Creditors (as defined below), including holders of Senior Subordinated Notes and, in the case of BNPPF, holders of Senior Subordinated Notes issued by BP2F, in respect of a Senior Subordinated Guarantee granted by the Guarantor, and except in a Winding-Up of the relevant Issuer, payments of principal and interest by the relevant Issuer in respect of Junior Subordinated Notes will be conditional upon such Issuer being solvent at the time of payment by that Issuer and no principal or interest shall be due and payable in respect of Junior Subordinated Notes except to the extent that (assuming a payment was then due by the relevant Issuer) such Issuer could make such payment in whole or in part, rateably with payments in respect of Other *Pari Passu* Claims (as defined below), and still be solvent immediately thereafter. For the purposes of the Terms and Conditions the relevant Issuer shall be solvent if (a) it is able to pay its debts as they fall due and (b) its Assets exceed its Liabilities (in each case as defined below) (other than its Liabilities to persons who are not Senior and Subordinated Creditors). A report as to the solvency of the relevant Issuer by two directors of such Issuer or (if such Issuer is in winding-up, liquidation or bankruptcy) the liquidator of such Issuer, shall in the absence of proven error be treated and accepted by such

Issuer, the Noteholders, and the Couponholders and the Receiptholders (if any) as correct and sufficient evidence thereof.

If the relevant Issuer would not otherwise be solvent for the purposes of the Terms and Conditions, the amount of the principal and sums which would otherwise be payable as interest on Junior Subordinated Notes will be available to meet the losses of such Issuer.

3.4 *Senior Guarantee*

This Condition 3.4 is applicable in relation to any Senior Notes issued by BP2F.

The Guarantor has, by the guarantees endorsed on such Senior Notes (the "**Senior Guarantees**"), unconditionally and irrevocably guaranteed the due and punctual payment of all amounts due from BP2F under such Senior Notes and the Receipts and Coupons relating to them (including any additional amounts payable under Condition 7 below), when and as the same shall become due and payable, whether by declaration or acceleration or otherwise.

For the purposes of the Terms and Conditions the Guarantor shall be solvent if (a) it is able to pay its debts as they fall due and (b) its Assets exceed its Liabilities (in each case as defined below) (other than its Liabilities to persons who are not Senior and Subordinated Creditors). In the case of Junior Subordinated Notes, on any Optional Interest Payment Date (as defined below) there may be paid (if the relevant Issuer or the Guarantor, as the case may be, so elects but subject to Condition 3.3 and 3.6, if such Notes have the benefit of a Junior Subordinated Guarantee) the interest accrued in respect of the Interest Period ending on the day immediately preceding such date but the relevant Issuer or the Guarantor, as the case may be, shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the relevant Issuer or (where such Issuer is BP2F) the Guarantor for any purpose. Where Arrears of Interest are paid in part, each such payment shall be applied in or towards satisfaction of the full amount of the Arrears of Interest accrued in respect of the earliest Interest Period in respect of which Arrears of Interest have accrued and have not been paid in full. Arrears of Interest shall bear interest at the rate applicable to the Notes for the relevant period.

If upon due presentation or, in respect of Dematerialised Notes, on the relevant due date for redemption, payment of principal is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the Interest Rate for the Interest Period ending immediately prior to the relevant date of redemption in the manner provided in this Condition 4 to the Relevant Date (as defined in Condition 7).

4.2 *Business Day Convention*

If any date which is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Relevant Business Day (as defined below), then, if the convention (the "**Business Day Convention**") specified is (a) the Floating Rate Convention, such date shall be postponed to the next day which is a Relevant Business Day unless it would thereby fall into the next calendar month, in which event (i) such date shall be brought forward to the immediately preceding Relevant Business Day and (ii) each subsequent such date shall be the last Relevant Business Day of the month in which such date would have fallen had it not been subject to adjustment, (b) the Following Business Day Convention, such date shall be postponed to the next day which is a Relevant Business Day, (c) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Relevant Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Relevant Business Day or (d) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Relevant Business Day.

4.3 *Interest Rate on Fixed Rate Notes*

If the Interest Rate is specified as being Fixed Rate and unless, in the case of Exempt Notes only, otherwise specified in the relevant Final Terms, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant "**Fixed Coupon Amount**" (converted into the Settlement Currency as provided in Condition 4.14 in the case of Dual Currency Interest Notes) and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination (converted into the Settlement Currency as provided in Condition 4.14 in the case of Dual Currency Interest Notes).

4.4 *Interest Rate on Floating Rate Notes – Screen Rate Determination*(a) *LIBOR, EURIBOR, LIBID and LIMEAN*

(i) If the Interest Rate or Rate is specified as being Floating Rate and Screen Rate Determination is specified as "Applicable: IBOR" in the relevant Final Terms as the manner in which the Interest Rate or Rate is to be determined, the Interest Rate or Rate, as the case may be, will be determined by the Calculation Agent as either:

(A) the quotation; or

(B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the quotations,

(expressed as a percentage rate per annum) for the Relevant Rate(s) which appears or appear, as the case may be, on the page, section or other part of the specified information service specified in the relevant Final Terms (the "**Relevant Screen Page**") (or such replacement page on that service which displays the information) as at the Relevant Time indicated in the applicable Final Terms (the "**Screen Page Benchmark**") on the relevant Interest Determination Date plus or minus (as indicated in the applicable Final Terms) the Spread (if any) and as adjusted by the Spread Multiplier (if any), all as determined by the Calculation Agent. If five or more of such quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such quotations.

(ii) If the Relevant Screen Page is not available or if, in the case of subparagraph (i)(A), no quotation appears on the Relevant Screen Page (or such replacement page on that service which displays the information) or, in the case of subparagraph (i)(B), fewer than three quotations appear on the Relevant Screen Page (or such replacement page on that service which displays the information), in each case as at the Relevant Time, except as provided in paragraph (iii) below, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its quotation (expressed as a percentage rate per annum) for the Relevant Rate at the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with quotations, the Interest Rate or Rate, as the case may be, for the Interest Accrual Period shall be the arithmetic mean (rounded if necessary to the nearest 0.001 with 0.0005 being rounded upwards) of the relevant quotations, eliminating the highest quotation (or in the event that two or more quotations are identical, one of the highest) and the lowest (or in the event that two or more quotations are identical, one of the lowest), plus or minus (as applicable) the Spread (if any) and as adjusted by the Spread Multiplier (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with a quotation as provided in the preceding paragraph, the Interest Rate or Rate, as the case may be, for the relevant Interest Accrual Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest 0.001, with 0.0005 being rounded upwards) of the rates per annum, as communicated to the Calculation Agent by the Reference Banks or any two or more of them, at which such banks

were offered (where the Relevant Rate is an offered rate), at which such banks offered (where the Relevant Rate is a bid rate) or the mean of the rates at which such banks were offered and at which they offered (where the Relevant Rate is a mid rate), at the Relevant Time on the relevant Interest Determination Date, deposits in the relevant currency for a period equal to that which would have been used for the Relevant Rate by leading banks in the interbank market of the Relevant Financial Centre, plus or minus (as applicable) the Spread (if any) and as adjusted by the Spread Multiplier (if any), as determined by the Calculation Agent.

If fewer than two of the Reference Banks provide the Calculation Agent with such rates, the Interest Rate or Rate, as the case may be, for the relevant Interest Accrual Period shall be the rate for deposits in the relevant currency for a period equal to that which would have been used for the Relevant Rate, or the arithmetic mean (rounded as provided above) of the rates for deposits in the relevant currency for a period equal to that which would have been used for the Relevant Rate, at which, at the Relevant Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the interbank market of the Relevant Financial Centre, plus or minus (as applicable) the Spread (if any) and as adjusted by the Spread Multiplier (if any), as determined by the Calculation Agent.

If the Interest Rate or Rate, as the case may be, cannot be determined in accordance with the foregoing provisions of this paragraph (ii), the Interest Rate or Rate, as the case may be, shall be equal to the last Relevant Rate available on the Relevant Screen Page plus or minus (as appropriate) the Spread (if any) and as adjusted by the Spread Multiplier (if any), as determined by the Calculation Agent except that if the Calculation Agent determines that the absence of the quotation is due to the discontinuation of the Screen Page Benchmark or the occurrence of a Benchmark Fallback Event, then the Relevant Rate will be determined in accordance with paragraph (iii) below.

- (iii) If the Calculation Agent determines at any time prior to any Interest Determination Date, that the Screen Page Benchmark has been discontinued or a Benchmark Fallback Event has occurred, the Calculation Agent will use, as a substitute for the Screen Page Benchmark, an alternative reference rate determined by the Calculation Agent to be the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction or region of the Specified Currency (each a "**Relevant Nominating Body**") that is consistent with industry accepted standards, provided that, if two or more alternative reference rates are selected by any Relevant Nominating Body, the Calculation Agent shall determine which of those alternative reference rates is most appropriate to preserve the economic features of the relevant Notes. If the Calculation Agent notifies the Issuer that it is unable to determine such an alternative, the Calculation Agent will as soon as reasonably practicable (and in any event before the business day prior to the applicable Interest Determination Date) appoint an agent (the "**Benchmark Determination Agent**"), which will determine whether a substitute or successor rate, which is substantially comparable to the Screen Page Benchmark, is available for the purpose of determining the Relevant Rate on each Interest Determination Date falling on or after the date of such determination. If the Benchmark Determination Agent determines that there is an industry accepted successor rate, the Benchmark Determination Agent will notify

the Issuer of such successor rate to be used by the Calculation Agent to determine the Interest Rate or Rate.

If the Benchmark Determination Agent or the Calculation Agent, as applicable, has determined a substitute or successor rate in accordance with the foregoing paragraph (such rate, the "**Replacement Benchmark**"), for the purpose of determining the Interest Rate or Rate on each Interest Determination Date falling on or after such determination:

- (A) the Benchmark Determination Agent or the Calculation Agent, as applicable, will also determine the changes (if any) required to the applicable Business Day Convention, the definition of Business Day, the Interest Determination Date, the Day Count Fraction, and any method for obtaining the Replacement Benchmark, including any adjustment needed to make such Replacement Benchmark comparable to the Screen Page Benchmark (including, where applicable, and if Unwind Costs is specified as applicable in the applicable Final Terms, to reflect any increased costs to the Issuer of providing such exposure to the Replacement Benchmark), in each case acting in good faith and in a commercially reasonable manner that is consistent with industry-accepted practices for such Replacement Benchmark;
- (B) references to the Screen Page Benchmark in these Conditions will be deemed to be references to the relevant Replacement Benchmark, including any alternative method for determining such rate as described in (A) above;
- (C) the Benchmark Determination Agent or the Calculation Agent, as applicable, will notify the Issuer of the Replacement Benchmark, and the details described in (A) above, as soon as reasonably practicable; and
- (D) the Issuer will give notice to the Noteholders in accordance with Condition 13 (*Notices*), the Principal Paying Agent and the Calculation Agent of the Replacement Benchmark, and the details described in (A) above as soon as reasonably practicable but in any event no later than 5:00 p.m. (London time) on the business day prior to the applicable Interest Determination Date.

The determination of the Replacement Benchmark and the other matters referred to above by the Benchmark Determination Agent or the Calculation Agent, as applicable, will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Principal Paying Agent and the Noteholders, unless the Issuer, the Calculation Agent or the Benchmark Determination Agent determines at a later date that the Replacement Benchmark is no longer substantially comparable to the Benchmark or does not constitute an industry accepted successor rate, in which case the Calculation Agent shall appoint or re-appoint a Benchmark Determination Agent, as the case may be (which may or may not be the same entity as the original Benchmark Determination Agent or the Calculation Agent) for the purpose of confirming the Replacement Benchmark or determining a substitute Replacement Benchmark in an identical manner as described in this paragraph (iii). If the Replacement Benchmark Determination Agent or the Calculation Agent, as applicable, is unable to or otherwise does not determine a substitute Replacement Benchmark, then the Replacement Benchmark will remain unchanged.

The Benchmark Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the Settlement Currency as appointed by the Issuer, (y) the Issuer or (z) an affiliate of the Issuer.

If the relevant Benchmark Fallback Event may also constitute an Administrator/Benchmark Event in the determination of the Calculation Agent pursuant to Condition 5.15(b), the provisions of this Condition 4.4(b) will apply.

(b) SONIA

If the Interest Rate or Rate is specified as being Floating Rate and Screen Rate Determination is specified as "Applicable: SONIA" in the applicable Final Terms as the manner in which the Interest Rate or Rate is to be determined, the Interest Rate or Rate, as the case may be, will be determined by the Calculation Agent on the basis of the following provisions:

- (i) Where the Calculation Method is specified in the applicable Final Terms as being "Compounded Daily", the Interest Rate or Rate, as the case may be, for the relevant Interest Accrual Period will be the Compounded Daily SONIA plus or minus (as indicated in the applicable Final Terms) the Spread (if any) and as adjusted by the Spread Multiplier (if any), all as determined by the Calculation Agent.
- (ii) Where the Calculation Method is specified in the applicable Final Terms as being "Weighted Average", the Interest Rate or Rate, as the case may be, for the relevant Interest Accrual Period will be the Weighted Average SONIA plus or minus (as indicated in the applicable Final Terms) the Spread (if any) and as adjusted by the Spread Multiplier (if any), all as determined by the Calculation Agent, on the Interest Determination Date and the resulting percentage being rounded (if necessary) to the fifth decimal place, with 0.000005 being rounded upwards.
- (iii) The following definitions shall apply for the purpose of this Condition 4.4(b):

"**Compounded Daily SONIA**" means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment in Sterling (with the daily Sterling overnight reference rate as the reference rate for the calculation of interest) calculated by the Calculation Agent on the Interest Determination Date in accordance with the following formula:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{SONIA}_{i-\text{pLBD}} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where the resulting percentage will be rounded (if necessary) to the fifth decimal place, with 0.000005 being rounded upwards.

"**d**" means, in respect of an Interest Accrual Period, the number of calendar days in such Interest Accrual Period;

"**d₀**" means, in respect of an Interest Accrual Period, the number of London Business Days in the relevant Interest Accrual Period;

PART 1 : MEDIUM TERM NOTES

"**i**" means a series of whole numbers from one to d_0 , each representing the relevant London Business Days in chronological order from (and including) the first London Business Day in the relevant Interest Accrual Period;

"**Lock-out Period**" means, in respect of an Interest Accrual Period, the period from (and including) the day following the Interest Determination Date for such Interest Accrual Period to (but excluding) the Interest Period Date falling at the end of such Interest Accrual Period;

"**London Business Day**" means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

"**n_i**" means, in respect of a London Business Day i , the number of calendar days from (and including) such London Business Day i up to (but excluding) the following London Business Day;

"**Observation Lookback Period**" means, in respect of an Interest Accrual Period, the period from (and including) the date falling p London Business Days prior to the first day of the relevant Interest Accrual Period and ending on (but excluding) the date which is p London Business Days prior to the Interest Period Date falling at the end of such Interest Accrual Period;

"**p**" means, in respect of an Interest Accrual Period where "Lag" is specified as the Observation Method in the applicable Final Terms, the number of London Business Days specified for "p" in the applicable Final Terms (or, if no such number is specified, five London Business Days);

"**Reference Day**" means each London Business Day in the relevant Interest Accrual Period that is not a London Business Day falling in the Lock-out Period;

"**SONIA i**" means:

- (A) if "Lag" is specified as the Observation Method in the applicable Final Terms, the SONIA Rate in respect of p LBD in respect of the relevant London Business Day i ; or
- (B) if "Lock-out" is specified as the Observation Method in the applicable Final Terms:
 - I. in respect of any London Business Day i that is a Reference Day, the SONIA Rate in respect of the London Business Day immediately preceding such Reference Day; otherwise
 - II. the SONIA Rate in respect of the London Business Day immediately preceding the Interest Determination Date for the relevant Interest Accrual Period;

"**SONIA_{i-pLBD}**" means:

- (A) if "Lag" is specified as the Observation Method in the applicable Final Terms, in respect of a London Business Day i , SONIA i in respect of the London Business Day falling " p " London Business Days prior to such London Business Day i ("**pLBD**"); or

- (B) if "Lock-out" is specified as the Observation Method in the applicable Final Terms, in respect of a London Business Day i, SONIA i in respect of such London Business Day i.

"**SONIA Rate**" means, in respect of any London Business Day, a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Business Day, as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the London Business Day immediately following such London Business Day; and

"**Weighted Average SONIA**" means:

- (A) where "Lag" is specified as the Observation Method in the applicable Final Terms, the sum of the SONIA Rate in respect of each calendar day during the relevant Observation Lookback Period divided by the number of calendar days during such Observation Lookback Period. For these purposes, the SONIA Rate in respect of any calendar day which is not a London Business Day shall be deemed to be the SONIA Rate in respect of the London Business Day immediately preceding such calendar day; or
- (B) where "Lock-out" is specified as the Observation Method in the applicable Final Terms, the sum of the SONIA Rate in respect of each calendar day during the relevant Interest Accrual Period divided by the number of calendar days in the relevant Interest Accrual Period, provided that, for any calendar day of such Interest Accrual Period falling in the Lock-out Period for the relevant Interest Accrual Period, the SONIA Rate for such calendar day will be deemed to be the SONIA Rate in respect of the London Business Day immediately preceding the first day of such Lock-out Period. For these purposes, the SONIA Rate in respect of any such calendar day which is not a London Business Day shall, subject to the preceding proviso, be deemed to be the SONIA Rate in respect of the London Business Day immediately preceding such calendar day.
- (iv) If, in respect of any London Business Day, the SONIA Rate is not available on the Relevant Screen Page (and has not otherwise been published by the relevant authorised distributors), such SONIA Rate shall be:
- I. (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at the close of business on the relevant London Business Day; plus (ii) the arithmetic mean of the spread of SONIA to the Bank Rate over the previous five days in respect of which SONIA has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads); or
 - II. if such Bank Rate is not available, the SONIA Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the immediately preceding London Business Day on which the SONIA Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors), and

such rate shall be deemed to be the SONIA Rate for such London Business Day.

Notwithstanding the foregoing, in the event of the Bank of England publishing guidance as to (i) how the SONIA Rate is to be determined or (ii) any rate that is to replace the SONIA Rate, the Calculation Agent shall follow such guidance to determine the SONIA Rate for so long as the SONIA Rate is not available or has not been published by the authorised distributors.

In the event that the relevant Interest Rate or Rate, as applicable, cannot be determined in accordance with the foregoing provisions in respect of an Interest Period, the Interest Rate or Rate, as applicable, shall be (i) that determined as at the immediately preceding Interest Determination Date (though substituting, where a different Spread, Spread Multiplier, Maximum Interest Rate and/or Minimum Interest Rate is to be applied to the relevant Interest Period from that which applied to the immediately preceding Interest Period, the Spread, Spread Multiplier, Maximum Interest Rate and/or Minimum Interest Rate relating to the relevant Interest Period, in place of the Spread, Spread Multiplier, Maximum Interest Rate and/or Minimum Interest Rate relating to the immediately preceding Interest Period); or (ii) if there is no such preceding Interest Determination Date, the initial Interest Rate or Rate, as applicable, which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the first scheduled Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (subject to the application of the relevant Spread, Spread Multiplier or Maximum Interest Rate or Minimum Interest Rate in respect of such Interest Period).

4.5 *ISDA Determination for Floating Rate Notes*

If the Interest Rate or Rate is specified as being Floating Rate and ISDA Determination is specified in the applicable Final Terms as the manner in which the Interest Rate or Rate is to be determined, the Interest Rate or Rate, as the case may be, for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this Condition 4.5, "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms;
- (b) the Designated Maturity is a period specified in the applicable Final Terms; and
- (c) the relevant Reset Date is the day specified in the applicable Final Terms,

provided, however, that if the application of the above provisions does not result in the determination of an ISDA Rate for any Interest Period, then the ISDA Rate for such Interest Period shall be equal to the ISDA Rate last determined in relation to the Notes without recourse to the provisions of this proviso.

For the purposes of this Condition 4.5, "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

4.6 *Minimum/Maximum Interest Rates, Spreads and Spread Multipliers*

If any figure is expressed to be as adjusted by a Spread or Spread Multiplier, such adjustment shall be made by adding or subtracting any Spread specified in the relevant Final Terms or multiplying by any Spread Multiplier specified in such Final Terms, subject always to the next paragraph.

If a Maximum or Minimum Interest Rate is specified in such Final Terms, then the Interest Rate shall in no event exceed the maximum or be less than the minimum.

If a Maximum or Minimum Interest Rate is specified in such Final Terms, then the Rate shall in no event exceed the maximum or be less than the minimum.

Unless otherwise specified in the applicable Final Terms, the Minimum Interest Rate shall be deemed to be zero.

4.7 *Calculation*

The amount of interest payable in respect of any Note for any period for which a Fixed Coupon Amount is not specified or not applicable shall be calculated by multiplying the product of the Interest Rate and the Calculation Amount of such Note by the Day Count Fraction and rounding, if necessary, the resultant figure to the nearest minimum unit of the Specified Currency (half of such unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 4.14. For this purpose a "**minimum unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period will be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

4.8 *Determination and Publication of Interest Rate, Rate and Interest Amounts by the Calculation Agent*

The Calculation Agent will, as soon as practicable or (in the case of Floating Rate Notes) as soon as practicable after the Relevant Time on each Interest Determination Date, determine the Interest Rate and/or Rate, as the case may be, and calculate the amount of interest payable (the "Interest Amounts") in respect of each Specified Denomination of the Notes (in the case of Bearer Notes and Dematerialised Notes) and the minimum Specified Denomination (in the case of Registered Notes) for the relevant Interest Accrual Period or Interest Period, as the case may be, and cause the Interest Rate and the Interest Amounts for each Interest Period and the relevant Interest Payment Date to be notified to the Principal Paying Agent, the relevant Issuer, the Guarantor, the Registrar, the Domiciliary Agent (if applicable), each of the Paying Agents, any competent authority, stock exchange and/or quotation system on which the Notes are admitted to listing, trading and/or quotation and the Noteholders as soon as possible after their determination but in no event later than the fourth Relevant Business Day thereafter. The Interest Amounts and the Interest Payment Date so published may subsequently be amended by the Calculation Agent in the event of an extension or shortening of the Interest Period. In such case, the Interest Amount will be recalculated using the same Interest Rate and making such calculation on the same basis as for the original calculation, but for such longer or shorter Interest Period, and notice of any such change will be given to the Noteholders. If the Notes become due and payable under Condition 9, the accrued interest, the Interest Rate payable and/or the Rate in respect of the Notes shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made. The determination of the Interest Rate and/or Rate and the Interest Amounts by the Calculation Agent

shall (in the absence of manifest error) be final and binding upon all parties. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.

4.9 *Calculation Agent and Reference Banks*

The relevant Issuer will procure that there shall at all times be four Reference Banks with offices in the Relevant Financial Centre (or, in the case of Notes denominated in euro, in the financial centre or centres selected by the relevant Issuer) and a Calculation Agent if provision is made for them in the Terms and Conditions applicable to such Notes and for so long as it is outstanding. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Calculation Agent will appoint another Reference Bank with an office in the Relevant Financial Centre (or, in the case of Notes denominated in euro, in the financial centre or centres in the euro-zone) to act as such in its place. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Interest Rate or Rate for any Interest Period or to calculate the Interest Amounts, the relevant Issuer will appoint the London office of a leading bank engaged in the London interbank market to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

4.10 *Definitions*

As used in these Conditions and the Additional Terms and Conditions:

"Additional Business Centre(s)" means the city or cities specified as such in the relevant Final Terms.

"Affiliate" means in relation to any entity (the **"First Entity"**), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes **"control"** means ownership of a majority of the voting power of an entity.

"Benchmark" means either the London interbank offered rate (**"LIBOR"**), the Euro-zone interbank offered rate (**"EURIBOR"**), London interbank bid rate (**"LIBID"**) or London interbank mean rate (**"LIMEAN"**), as specified in the relevant Final Terms.

"Benchmark Fallback Event" means, in relation to any Benchmark, any of the following, as determined by the Calculation Agent:

- (a) the Benchmark ceasing to exist or ceasing to be published for a period of at least six (6) consecutive Business Days or having been permanently or indefinitely discontinued;
- (b) the making of a public statement or publication of information (provided that, at the time of any such event, there is no successor administrator that will provide the Benchmark) by or on behalf of (i) the administrator of the Benchmark or (ii) the supervisor, insolvency official, resolution authority, central bank or competent court having jurisdiction over such administrator stating that (x) the administrator has ceased or will cease permanently or indefinitely to provide the Benchmark (y) the Benchmark has been or will be permanently or indefinitely discontinued, or (z) the Benchmark has been or will be prohibited from being used or that its use has been or will be subject to restrictions or adverse consequences, either generally, or in respect of the Notes, provided that, if such public statement or publication mentions that the event or circumstance referred to in (x), (y) or (z) above will occur on a date falling later than three (3) months after the relevant public statement or publication, the

Benchmark Fallback Event shall be deemed to occur on the date falling three (3) months prior to such specified date (and not the date of the relevant public statement);

- (c) it has or will prior to the next Interest Determination Date (as applicable), become unlawful for the Calculation Agent or any other party responsible for determining the Benchmark to calculate any payments due to be made to any Noteholder using the Benchmark (including, without limitation, under BMR, if applicable); or
- (d) the making of a public statement or publication of information that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Benchmark or the administrator of the Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the use of the Benchmark is not or will not be permitted under any applicable law or regulation, such that the Calculation Agent or any other party responsible for determining the Benchmark is unable to perform its obligations in respect of the Notes.

For the avoidance of doubt, a change in the methodology of the Benchmark shall not, absent the occurrence of one of the above, be deemed a Benchmark Fallback Event.

"**Business Day**" means a Relevant Business Day or, if different for any purpose, as specified in the Final Terms.

"**Calculation Amount**" has the meaning given in the relevant Final Terms.

"**Compulsory Interest Payment Date**" means any Interest Payment Date if, in the calendar year immediately preceding such Interest Payment Date, any dividend has been declared or paid on any class of share capital of the Guarantor and if the Guarantor is solvent.

"**Currency - Reference Dealers Determination**" means that, if applicable, the Settlement Currency Exchange Rate for a Settlement Currency Exchange Rate Observation Date will be determined on the basis of quotations provided by Reference Dealers on that Settlement Currency Exchange Rate Observation Date for a transaction between the currencies and at the time in each case specified in the applicable Final Terms on such day. The Calculation Agent will request each of the Reference Dealers to provide a firm quotation of its Settlement Currency Exchange Rate for a transaction where the amount of Settlement Currency equals the amount of the Specified Currency. If four quotations are provided, the rate for a Settlement Currency Exchange Rate Observation Date will be the arithmetic mean of the quotations provided, without taking into account the quotations having the highest and lowest value. If exactly three quotations are provided, the rate for a Settlement Currency Exchange Rate Observation Date will be the quotation provided by the Reference Dealer that remains after disregarding the quotations having the highest and lowest values. For these purposes, if more than one quotation has the same highest value or lowest value, then one of such quotations shall be disregarded. If exactly two quotations are provided, the rate for a Settlement Currency Exchange Rate Observation Date will be the arithmetic mean of the quotations received. If only one quotation is provided, the rate for a Settlement Currency Exchange Rate Observation Date will be the rate quoted by that Reference Dealer. If no such quotations are received by the Calculation Agent, any such rate of exchange will be determined by the Calculation Agent by reference to such other sources as it, having taken into account any relevant market practice, considers to be appropriate.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "**Calculation Period**"), such day count fraction as may be specified in the Terms and Conditions or the applicable Final Terms:

- (a) if "**Actual/Actual (ICMA)**" is so specified:
- (i) where the Calculation Period is equal to or shorter than the Regular Period during which it falls, the actual number of days in the Calculation Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
 - (ii) where the Calculation Period is longer than one Regular Period, the sum of:
 - (A) the actual number of days in such Calculation Period falling in the Regular Period in which it begins divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
 - (B) the actually number of days in such Calculation Period falling in the next Regular Period divided by the product of (a) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year;
- (b) if "**Actual/Actual**" is so specified, the actual number of days in the Calculation Period divided by 365 (or, if any portion of the Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (c) if "**Actual/365 (Fixed)**" is so specified, the actual number of days in the Calculation Period divided by 365;
- (d) if "**Actual/360**" is so specified, the actual number of days in the Calculation Period divided by 360;
- (e) if "**30/360**", "**360/360**" or "**Bond Basis**" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1) + (D_2 - D_1)]}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

 - (B) if fewer than two leading dealers provide the Calculation Agent with bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates on such day, the Calculation Agent shall determine the FX Settlement Disruption Exchange Rate in its discretion.
- (d) For the avoidance of doubt, no Interest Period or Interest Accrual Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 6.10, and no additional interest will be paid in respect of any postponement of the date for payment.
- (e) For the avoidance of doubt, nothing contained in this Condition 6.10 shall prevent the Issuer and/or Calculation Agent from determining that an Additional Disruption Event and/or Optional Additional Disruption Event has occurred, in which case, the provisions of Inflation Index-Linked Note Condition 4.7 or Foreign Exchange (FX) Rate-Linked Note Condition 7, as applicable, shall prevail in the event of any conflict between such Conditions and this Condition 6.10.

9.2 *Senior Subordinated Notes*

This Condition 9.2 is applicable in relation to Senior Subordinated Notes.

Any holder of a Senior Subordinated Note may, by notice to the Fiscal Agent or, in the case of X/N Notes, the Domiciliary Agent and the relevant Issuer, declare his Note to be due and payable, and such Note shall accordingly become immediately due and payable at its principal amount together with accrued interest to the date of repayment if an order is made or an effective resolution is passed for the bankruptcy (*faillissement/faillite*), or liquidation (*vereffening/liquidation*) of the relevant Issuer or the Guarantor, as the case may be.

9.3 *Junior Subordinated Notes*

This Condition 9.3 is applicable in relation to Junior Subordinated Notes.

9.4 *Subordinated Tier 2 Notes – Enforcement*

This Condition 9.4 is applicable in relation to Subordinated Tier 2 Notes.

If default is made in the payment of any principal or interest due in respect of the Subordinated Tier 2 Notes or any of them and such default continues for a period of 30 days or more after the due date any holder may, without further notice, institute proceedings for the dissolution or liquidation of the Issuer.

In the event of the dissolution or liquidation (other than on a solvent basis) of the relevant Issuer, any holder may give notice to the relevant Issuer that the relevant Subordinated Tier 2 Note is, and shall accordingly forthwith become, immediately due and repayable at its principal amount, together with interest accrued to the date of repayment.

10. Meeting of Noteholders, Modifications, Substitution, Waivers and Determinations

10.1 Meetings of Noteholders

- (a) In the case of Notes issued by BP2F, the Agency Agreement contains provisions for convening meetings of Noteholders to consider any matter affecting their interest, including modification by Extraordinary Resolution of the Notes (including the Terms and Conditions in so far as the same may apply to such Notes). An Extraordinary Resolution duly passed by the Noteholders will be binding on all the Noteholders, whether present or not at any meeting and whether or not they voted on the resolution and on all relevant Couponholders subject to applicable laws, except that any Extraordinary Resolution proposed, *inter alia*, (1) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment of interest thereon, (2) to reduce or cancel the principal amount or any Instalment Amount of, or any premium payable on redemption of, the Notes, (3) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating the Interest Amount in the respect thereof, (4) if there is shown on the face of the Notes a Minimum Interest Rate and/or a Maximum Interest Rate, to reduce such Minimum Interest Rate and or Maximum Interest Rate, (5) to change any method of calculating the Final Redemption Amount or Early Redemption Amount or, in the case of Zero Coupon Notes, to change the method of calculating the Amortised Face Amount, (6) to change the currency or currencies of payment of the Notes, (7) to cancel or change the provisions of any Guarantee, (8) to take any steps which the relevant Note specifies may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (9) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, will only be binding if passed at a meeting of the Noteholders (or at any adjournment thereof) at which a special quorum (provided for in the Agency Agreement) is present. The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three quarters of the votes cast on such resolution, a resolution in writing signed by or on behalf of the holders of not less than three quarters in principal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Fiscal Agent) by or on behalf of the holders of not less than three quarters in principal amount of the Notes for the time being outstanding, shall, in each case be effective as an Extraordinary Resolution of the Noteholders. For the avoidance of doubt, the provisions of Articles 470-3 to 470-19 of the Companies Act 1915 are hereby excluded.
- (b) In the case of Notes issued by BNPPF, the Agency Agreement contains provisions for convening meetings of Noteholders (the "**Meeting Provisions**") to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined below) of a modification of any of these Terms and Conditions.

Meetings of Noteholders may be convened to consider matters relating to the Notes, including the modification or waiver of any provision of the applicable Terms and Conditions. Any such modification or waiver may be made if sanctioned by an Extraordinary Resolution. For the avoidance of doubt, any such modification or waiver shall always be subject to the consent of the Issuer. An "**Extraordinary Resolution**" means a resolution passed at a meeting of Noteholders duly convened and held in accordance with the Terms and Conditions and the Meeting Provisions by a majority of at least 75 per cent. of the votes cast.

All meetings of Noteholders will be held in accordance with the Meeting Provisions. Such a meeting may be convened by the Issuer and shall be convened by the Issuer upon the request in writing of Noteholders holding not less than one fifth of the aggregate principal amount of the outstanding Notes. A meeting of Noteholders will be entitled (subject to the consent of the Issuer) to modify or waive any provision of the applicable Terms and Conditions (including any proposal (1) to modify the maturity of the Notes or the dates on which interest is payable in respect of the Notes, (2) to reduce or cancel the principal amount of, or interest on, the Notes, (3) to change the currency of payment of the Notes, or (4) to modify the provisions concerning the quorum required at any meeting of Noteholders) in accordance with the quorum and majority requirements set out in the Meeting Provisions. Resolutions duly passed in accordance with these provisions shall be binding on all Noteholders, whether or not they are present at the meeting and whether or not they vote in favour of such a resolution.

Convening notices for meetings of the Noteholders shall be made in accordance with the Meeting Provisions.

For so long as the relevant provisions relating to meetings of bondholders of the (old) Belgian Companies Code of 7 May 1999 (the "**Old Code**") apply and may not be derogated from, where any provision of the Meeting Provisions would conflict with the relevant mandatory provisions of the Old Code, the mandatory provisions of the Old Code will apply.

10.2 *Modification of Agency Agreement*

The Issuers and the Guarantor shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

10.3 *Modification upon Significant Alteration Event (Issuer) or Force Majeure (Issuer)*

If this Condition 10.3 is specified as being applicable in the applicable Final Terms, and if a Significant Alteration Event (Issuer) or a Force Majeure (Issuer) has occurred and the Issuer and/or the Calculation Agent reasonably considers that, subject to any changes being made to these Conditions or the Additional Terms and Conditions, it is possible for the Issuer to continue the Notes under similar conditions as those that existed prior to the occurrence of the Significant Alteration Event (Issuer) or Force Majeure (Issuer), the Issuer and/or the Calculation Agent may make such changes to the terms of the Notes (including, but not limited to, the yield, underlying, the level of underlying, maturity date, early redemption date, the date on which any interest is payable or a calculation, valuation or determination is made) as it deems necessary to effect to replicate as closely as possible the economic position that existed prior to the occurrence of the Significant Alteration Event (Issuer) or Force Majeure (Issuer) **provided that** no costs will be payable by Noteholders in respect of or as a result of any such adjustment made.

10.4 *Substitution*

(a) Substitution Events

- (i) The occurrence of any of the following events, in respect of the Issuer or the Guarantor, as the case may be, shall constitute a "**Substitution Event**":
- (ii) a divestment in respect of the Issuer;

(b) Substitution Conditions

A substitution of the Issuer pursuant to sub-condition (c) below may only occur following a Substitution Event if the following conditions (the "**Substitution Conditions**") are satisfied:

- (i) the Issuer confirms that there are no payment arrears in respect of the Notes, the Receipts or the Coupons and that there is no indication that payments will imminently be in arrears or that there may be any issues in making any payments in respect of the Notes, the Receipts or the Coupons;
- (ii) all actions, conditions and things required to be taken, fulfilled and done to ensure that the Notes represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (iii) the Substitute becomes party to the Agency Agreement (unless the Substitute is already a party to the Agency Agreement) with any appropriate consequential amendments, as if it had been an original party to it;
- (iv) each stock exchange on which the Notes are listed has confirmed that, following the proposed substitution of the Substitute, the Notes will continue to be listed on such stock exchange;
- (v) if appropriate, the Substitute has appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Notes; and
- (vi) the Issuer has given at least 30 days' prior notice of the date of such substitution to the Noteholders in accordance with Condition 13.

(c) Substitution (Issuer)

An Issuer, or any previous Substitute, may following the occurrence of a Substitution Event, but is not obliged to, without the consent of the Noteholders or the Couponholders, substitute for itself as principal debtor under the Notes, the Receipts, the Coupons and the Talons any company (the "**Substitute**") which is the Guarantor (save where such Issuer is

BNPPF), BNPP, or any of the consolidated subsidiaries of BNPP (the "**BNP Paribas Group**").

The substitution shall be made by a deed poll (the "**Deed Poll**"), to be substantially in the form scheduled to the Agency Agreement as Schedule 8, and may take place only if:

- (i) the Substitute shall, by means of the Deed Poll, agree to indemnify each Noteholder and Couponholder against any tax, duty, assessment or governmental charge which is imposed on it by (or by any authority in or of) the jurisdiction of the country of the Substitute's residence for tax purposes and, if different, of its incorporation with respect to any Note, Receipt, Coupon or Talon and which would not have been so imposed had the substitution not been made, as well as against any tax, duty, assessment or governmental charge, and any cost or expense, relating to the substitution;
- (ii) where the Substitute is not the Guarantor, the obligations of the Substitute under the Deed Poll, the Notes, Receipts, Coupons and Talons shall be unconditionally and irrevocably guaranteed by the Guarantor by means of the Deed Poll;
- (iii) all action, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Deed Poll and the Notes, Receipts, Coupons and Talons represent valid, legally binding and enforceable obligations of the Substitute and, in the case of the Deed Poll (where the Substitute is not the Guarantor), of the Guarantor have been taken, fulfilled and done and are in full force and effect;
- (iv) the Substitute shall have become party to the Agency Agreement, with any appropriate consequential amendments, as if it had been an original party to it;
- (v) legal opinions addressed to the Noteholders shall have been delivered to them (care of the Fiscal Agent) from a lawyer or firm of lawyers with a leading securities practice in each jurisdiction referred to in (i) above and in England that the Deed Poll, the Notes (and, where applicable, the Receipts, Coupons and Talons) represent valid, legally binding and enforceable obligations of the Substitute and, where the Substitute is not the Guarantor, of the Guarantor;
- (vi) the relevant Issuer shall have given at least 14 days' prior notice of such substitution to the Noteholders, stating that copies or, pending execution, the agreed text of all documents in relation to the substitution which are referred to above, or which might otherwise reasonably be regarded as material to Noteholders, will be available for inspection at the specified offices of each of the Paying Agents;
- (vii) the creditworthiness of the Substitute at such time being at least equal to the creditworthiness of the Issuer (or of any previous Substitute), as determined by the Calculation Agent by reference to, inter alia, the long term senior debt ratings (if any) assigned by S&P Global Ratings Europe Limited ("**S&P**"), Moody's Investors Service Ltd. and/or Fitch Ratings Limited, or any successor rating agency or agencies thereto, or such other rating agency as the Calculation Agent determines to the Substitute or, as the case may be, to the Issuer (or to any previous Substitute);
- (viii) the Issuer has obtained from the Substitute an undertaking that the substitution will not be materially prejudicial to the interests of the Noteholders and that it will not deduct any costs relating to the substitution from amounts due to the Holder

References in Condition 9 to obligations under the Notes shall be deemed to include obligations under the Deed Poll, and, where the Deed Poll contains a guarantee, the events listed in Condition 9 shall be deemed to include that guarantee not being (or being claimed by the Guarantor not to be) in full force and effect. The Issuer and the Substitute shall also notify the Luxembourg Stock Exchange in respect of such a substitution, procure that a supplement to the Base Prospectus be prepared (if required) and comply with the relevant rules and regulations of the Luxembourg Stock Exchange and/or such other competent authority, stock exchange and/or quotation system on which the Notes are admitted to listing, trading and/or quotation.

Where the Substitute is the Guarantor, any substitution of the Guarantor as the Issuer shall not result in an Event of Default under Condition 9.1(h).

For the purposes of article 1275 of the Luxembourg civil code, the Noteholders and the Couponholders, by subscribing for, or otherwise acquiring the Notes or the Coupons, are deemed (i) to have expressly consented to any substitution of BP2F effected in accordance with this Condition 10.4 and to the release of the Issuer from any and all obligations in respect of the Notes; and (ii) to have accepted such substitution and the consequences thereof or/and with any local requirement in the jurisdiction(s) where all or some of the outstanding Notes have been offered, placed or distributed.

(d) Substitution (Guarantor)

BNPPF or any company previously substituted for it in accordance with this sub-condition (d), in each case as Guarantor in respect of any Notes ("**Existing Guarantor**") may, following the occurrence of a Substitution Event, but is not obliged to, without the consent of the Noteholders, substitute another company in the BNP Paribas Group (the "**Substitute Guarantor**") for itself in its capacity as Existing Guarantor, subject to:

- (i) the creditworthiness of the Substitute Guarantor at such time being at least equal to the creditworthiness of BNPPF (or of any previous Substitute under this Condition), as determined by the Calculation Agent by reference to, inter alia, the long term senior debt ratings (if any) assigned by S&P and/or Moody's Investors Service Ltd. and/or Fitch Ratings Limited, or any successor rating agency or agencies thereto, or such other rating agency as the Calculation Agent determines to the Substitute Guarantor or, as the case may be, to BNPPF (or to any previous Substitute under this Condition);
- (ii) the Substitute Guarantor having entered into a guarantee (the "**Substitute Guarantee**") in respect of the Notes in substantially the same form as the relevant BNPPF Note Guarantees and such other documents (if any) as may be necessary to give full effect to the substitution (the "**Documents**") and (without limiting the generality of the foregoing) pursuant to which the Substitute Guarantor shall undertake in favour of each Noteholder to be bound by these Terms and Conditions and the provisions of the Agency Agreement as fully as if the Substitute Guarantor had been named in these Terms and Conditions, the Documents and the Agency Agreement as the guarantor in respect of the Notes in place of BNPPF (or of any previous Substitute under this Condition);
- (iii) the Substitute Guarantee and the Documents having been delivered to BNP Paribas Securities Services, Luxembourg Branch to be held by BNP Paribas Securities Services, Luxembourg Branch for so long as any Notes remain outstanding and for so long as any claim made against the Substitute Guarantor or the Issuer by any Noteholder in relation

to the Notes, the Substitute Guarantee or the Documents shall not have been finally adjudicated, settled or discharged;

- (iv) each stock exchange on which the Notes are listed having confirmed that following the proposed substitution of the Substitute Guarantor (or of any previous Substitute under this Condition) it will continue to list the Notes;
- (v) if appropriate, the Substitute Guarantor having appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Notes or the Substitute Guarantee;
- (vi) BNPPF (or any previous Substitute under this Condition) having given at least 30 days' prior notice of the date of such substitution to the Noteholders in accordance with Condition 13
- (vii) BNPPF (or any previous Substitute under this Condition) confirming that there are no payments in arrears and that there is no indication that payments will imminently be in arrears or that there may be any issues in making payments in respect of principal and interest (if any); and
- (viii) BNPPF (or any previous Substitute under this Condition) having obtained from the Substitute Guarantor an undertaking that the substitution will not be materially prejudicial to the interests of the Holders and that it will not deduct any costs relating to the substitution from amounts due to the Noteholder.

10.5 Exclusion of termination condition (condition résolutoire)

For the avoidance of doubt, no Noteholder, Receiptholder or Couponholder may initiate proceedings against BP2F based on article 470-21 of the Companies Act 1915.

10.6 Subordinated Tier 2 Notes – Variation following a Capital Disqualification Event

This Condition 10.6 is applicable in relation to Subordinated Tier 2 Notes issued by BNPPF only.

In the case of Subordinated Tier 2 Notes which have a minimum Specified Denomination of EUR 100,000 or more the Issuer has the option to specify in the Final Terms that a Capital Disqualification Event Variation is applicable. Where such Capital Disqualification Event Variation is specified in the Final Terms as being applicable and the Issuer has satisfied the Fiscal Agent that a Capital Disqualification Event (as defined in Condition 5.10) has occurred and is continuing, then the Issuer may, subject to the other provisions of this Condition 10.6 (without any requirement for the consent or approval of the Noteholders (subject to the notice requirements below)) vary the terms of all (but not some only) of the Subordinated Tier 2 Notes so that they remain or, as appropriate, become, Qualifying Securities.

In connection with any variation in accordance with this Condition 10.6, the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Any variation in accordance with this Condition 10.6 is subject to the Issuer (i) obtaining the permission therefor from the Relevant Regulator (if required) or the Relevant Resolution Authority (if required), **provided that** at the relevant time such permission is required to be given; and (ii) giving not less than 30 and not more than 60 days' notice to the Noteholders, in accordance with Condition 13, which notice shall be irrevocable. Any such notice shall specify the relevant details of

the manner in which such variation shall take place and where the holders can inspect or obtain copies of the new Terms and Conditions of the Subordinated Tier 2 Notes.

As used in this Condition 10.6:

"**Qualifying Securities**" means securities issued by the Issuer that:

- (a) rank equally with the ranking of the Subordinated Tier 2 Notes;
- (b) have terms not materially less favourable than the terms of the Subordinated Tier 2 Notes (as reasonably determined by the Issuer in consultation with an independent investment bank of international standing, and **provided that** a certification to such effect of two Directors of the Issuer shall have been delivered to the Fiscal Agent prior to the issue of the relevant securities), **provided that** such securities:
 - (i) contain terms such that they comply with the then Applicable Banking Regulation in relation to Tier 2 Capital;
 - (ii) include terms which provide for the same (or, from a Noteholder's perspective, more favourable) Interest Rate from time to time, Interest Payment Dates, Maturity Date and Early Redemption Amount(s) as apply from time to time to the relevant Series of Subordinated Tier 2 Notes immediately prior to such variation;
 - (iii) shall preserve any existing rights under the Terms and Conditions to any accrued interest, principal and/or premium which has not been satisfied;
 - (iv) do not contain terms providing for the mandatory or voluntary deferral of payments of principal and/or interest;
 - (v) do not contain terms providing for loss absorption through principal write down, write-off or conversion to ordinary shares; and
 - (vi) are otherwise not materially less favourable to Noteholders;
- (c) if the Subordinated Tier 2 Notes which have been varied were listed on a regulated market or multilateral trading facility, such securities are listed on the same regulated market or multilateral trading facility or on such other regulated market in the European Economic Area as selected by the Issuer (if such securities were listed on a regulated market) or on such other multilateral trading facility in the European Economic Area as selected by the Issuer (if such securities were listed on a multilateral trading facility); and
- (d) where the Subordinated Tier 2 Notes which have been varied had a published rating from a Rating Agency immediately prior to their variation each such Rating Agency has ascribed, or announced its intention to ascribe, an equal or higher published rating to the relevant Subordinated Tier 2 Notes.

10.7 *Determinations*

Unless otherwise specified, the calculation or determination of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised pursuant to the Terms and Conditions will be calculated, determined, formed or exercised by the Calculation Agent. In performing its duties pursuant to the Notes, the Issuer and the Calculation Agent shall, unless otherwise specified, act in good faith and in a commercially reasonable manner. Any delay, deferral or forbearance by the

Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer and the Guarantor shall, in the absence of wilful misconduct and/or gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

Any calculation, determination, formation of any opinion or exercise of any discretion by the Calculation Agent pursuant to the Notes shall (in the absence of manifest error) be final, conclusive and binding on the Issuer, the Guarantor (if applicable) and the Noteholders. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation to the extent permitted under applicable law.

The Calculation Agent, the Issuer and the Guarantor (if any) will have no responsibility for good faith errors or omissions in any calculations made or provided by the Calculation Agent to the extent permitted under applicable law. The calculations and determinations of the Calculation Agent will be made in accordance with the Terms and Conditions having regard, in each case, to the relevant criteria stipulated in the Terms and Conditions and, where relevant, on the basis of information provided to or obtained by it and after such further enquiries as it deems necessary.

In case the Calculation Agent is required to, or permitted by, these Conditions and/or any Additional Terms and Conditions to exercise certain discretions in relation to the Notes (in accordance with these Conditions and/or any Additional Terms and Conditions), and which discretions may include, without limitation, determinations or adjustments relating to the yield, underlying, the level of underlying, maturity date, early redemption date, the date on which any interest is payable or a calculation, valuation or determination is made, the Calculation Agent will, in exercising such discretions, act in good faith and in a commercially reasonable manner and, where such discretion has an impact on the terms of any Notes, exercise such discretion with a view to replicate as closely as possible the economic position that existed prior to the occurrence of the event giving rise to the exercise of such discretion.

11. Replacement of Notes, Receipts, Coupons and Talons

If a Note, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed it may be replaced, subject to applicable laws and the regulations of the relevant competent authority, stock exchange and/or quotation system, at the specified office of such Paying Agent as may from time to time be designated by the relevant Issuer for the purpose and notice of whose designation is given to the Noteholders in accordance with Condition 13 (in the case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Registered Notes), in each case on payment by the claimant of the fees and costs reasonably incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there will be paid to the relevant Issuer on demand the amount payable by such Issuer in respect of such Notes, Receipts, Coupons or further Coupons) and otherwise as such Issuer may require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. The replacement of the Bearer Notes or Coupons in the case of loss or theft shall be subject to the procedure of the Involuntary Dispossession Act 1996.

12. Further Issues

The relevant Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes having the same Terms and Conditions as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon, the date from which

interest starts to accrue and the date of issue and so that the same shall be consolidated and form a single Series with such Notes, and references in the Terms and Conditions to "Notes" shall be construed accordingly.

13. Notices

13.1 Dematerialised Notes

Save where another means of effective communication has been specified herein or in the relevant Final Terms and subject to Condition 13.2 below, notices in respect of Dematerialised Notes may be given by delivery of the relevant notice to the NBB–SSS for communication by it to entitled holders. If such delivery is not practicable, notices will be deemed to be validly given if published as provided in Condition 13.3 below.

13.2 Notes admitted to listing, trading and/or quotation

So long as any Notes are admitted to listing, trading and/or quotation by any competent authority, stock exchange or quotation system, notices to the Noteholders will, save where another means of effective communication has been specified herein or, in the case of Exempt Notes only, in the relevant Final Terms, be deemed to be validly given if:

- (a) in the case of Notes admitted to listing on the official list and to trading on the Luxembourg Stock Exchange (so long as such Notes are admitted to listing on the official list and to trading on the Luxembourg Stock Exchange and any applicable laws, rules or regulations so require), published in a leading newspaper having general circulation in Luxembourg (which is expected to be *the Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange (www.bourse.lu), and/or in such other manner as may be required by applicable laws, rules and regulations from time to time; and/or
- (b) in the case of Notes admitted to listing, trading and/or quotation by any other competent authority, stock exchange and/or quotation system, if published in such manner as may be required by the applicable laws, rules and regulations of that competent authority, stock exchange and/or quotation system from time to time.

13.3 In any other cases

Where both Condition 13.1 and Condition 13.2 are inapplicable, notices will, save where another means of effective communication has been specified herein or, in the case of Exempt Notes only, in the relevant Final Terms, be deemed to be validly given if published in a leading daily newspaper having general circulation in the United Kingdom (which is expected to be the *Financial Times*), or, if such publication is not practicable, if published in a leading English language daily newspaper having general circulation in Europe.

13.4 General

For the avoidance of doubt, where both Condition 13.1 and Condition 13.2 apply, notices must be given in the manner specified in Condition 13.1 and Condition 13.2 in order to be deemed to be validly given.

Notices to Noteholders of any Notes may, at the sole discretion of the Issuer and solely for informational purposes, also be published on the website of the Issuer and/or, in the case of Exempt Notes only, of any other entity specified in the relevant Final Terms for this purpose.

Unless otherwise specified in the applicable Final Terms, any notice will be deemed to have been validly given on the date and time of such notification (or, if required to be notified in more than one manner, on the first date on which notification shall have been made in all required manners).

Couponholders will be deemed for all purposes to have notice of the contents of any notice validly given to Noteholders in accordance with this Condition.

14. Currency Indemnity

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under the Terms and Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

15. Rounding

For the purposes of any calculations referred to in the Terms and Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

16. Governing Law and Jurisdiction

16.1 Governing Law

The Agency Agreement, the Notes, the Receipts and the Coupons and all non-contractual obligations arising out of or in connection with the Agency Agreement, the Notes, the Receipts and the Coupons are governed by and shall be construed in accordance with English law except for (a) in the case of Notes issued by BP2F, Conditions 3.2 and 3.3 and all non-contractual obligations arising out of or in connection therewith which shall be governed by and shall be construed in accordance with Luxembourg law and Conditions 3.5, 3.6, 3.7 and 3.8 and all non-contractual obligations arising out of or in connection therewith which shall be governed by and shall be construed in accordance with Belgian law and (b) in the case of Notes issued by BNPPF, Conditions 1.2, 3.2, 3.3, 3.7 and 10.1(b) and all non-contractual obligations arising out of or in connection therewith which shall be governed by and shall be construed in accordance with Belgian law.

Guarantees to which Condition 3.4 applies and all non-contractual obligations arising out of or in connection with them are governed by English law.

Guarantees to which Condition 3.5 applies and all non-contractual obligations arising out of or in connection with them and Guarantees to which Condition 3.6 applies and all non-contractual obligations arising out of or in connection with them are governed by and shall be construed in accordance with Belgian law. Guarantees to which Condition 3.8 applies and all non-contractual obligations arising out of or in connection with them are governed by and shall be construed in accordance with Belgian law.

16.2 *Jurisdiction*

Subject as provided below and subject to any mandatory rules of the Brussels Recast Regulation (as defined below), the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Notes, the Receipts, the Coupons and/or the Talons including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, the Receipts, the Coupons and/or the Talons (a "**Dispute**") and accordingly each of the Issuers, the Guarantor and any Noteholders, Receiptholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.

For the purposes of this Condition 16.2, the Issuer and the Guarantor waive any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

To the extent allowed by law, the Noteholders, the Receiptholders and the Couponholders may, in respect of any Dispute or Disputes, take (A) proceedings in any other court with jurisdiction; and (B) concurrent proceedings in any number of jurisdictions.

If Essential Trigger is specified as applicable in the applicable Final Terms and to the extent that any proceedings in respect of the Notes relate to consumers (as such term is used in Regulation (EU) No 1215/2012 of the European Parliament and of the Council of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (the "**Brussels Recast Regulation**")), notwithstanding this Condition 16.2, the Issuer will be required to, and such consumers may, in respect of any Dispute in respect of the Notes, take proceedings in the jurisdictions specified in Article 18 of the Brussels Recast Regulation.

16.3 *Service of Process*

Each of the Issuers and the Guarantor irrevocably appoints BNP Paribas London Branch (10 Harewood Avenue, London NW1 6AA, United Kingdom) as its agent for service of process in any proceedings before the English courts in relation to any Dispute. If such process agent is unable or unwilling for any reason so to act, each of the Issuers and the Guarantor irrevocably agrees to appoint a substitute process agent and shall immediately notify Noteholders (in the case of Notes issued by BP2F) of such appointment in accordance with Condition 13. Each of the Issuers and the Guarantor agree that failure by a process agent to notify it of any process will not invalidate the relevant proceedings. Nothing shall affect the right to serve process in any manner permitted by law.

17. Recognition of Bail-in and Loss Absorption

17.1 Acknowledgment

By its acquisition of the Notes, each Noteholder (which, for the purposes of this Condition 17, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

- (a) to be bound by the effect of the exercise of the Bail-in or Loss Absorption Power (as defined below) by the Relevant Resolution Authority (as defined below), which may include and result in any of the following, or some combination thereof:
 - (i) the reduction of all, or a portion, of the Amounts Due (as defined below);
 - (ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Issuer or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the Issuer or another person;
 - (iii) the cancellation of the Notes; and/or
 - (iv) the amendment or alteration of the redemption date of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period;
- (b) that the terms are subject to, and may be varied, if necessary, to give effect to, the exercise of the Bail-in or Loss Absorption Power by the Relevant Resolution Authority.
- (c) For these purposes, the "**Amounts Due**" means, in relation to any Notes, the amounts payable upon redemption of such Notes, and any accrued and unpaid interest on such Notes which has not been previously cancelled or otherwise is no longer due.

17.2 Bail-in or Loss Absorption Power

For these purposes:

- (a) the "**Bail-in or Loss Absorption Power**" is any power existing from time to time under any laws, regulations, rules or requirements applicable in Belgium or Luxembourg, whether relating to (i) the transposition of Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time, the "**BRRD**"), including without limitation, in respect of Belgium, the Belgian law of 25 April 2014 *op het statuut en toezicht op kredietinstellingen en beursvennootschappen / relative au statut et au contrôle des établissements de crédit et des sociétés de bourse*, and in respect of Luxembourg, the Luxembourg law of 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the "**BRR Act 2015**"), (ii) Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (as amended from time to time, the "**Single Resolution Mechanism Regulation**"), or (iii) any other laws, regulations,

rules or requirements arising under Belgian or Luxembourg law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (or an affiliate of such Regulated Entity) can be reduced (in part or in whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted (in part or in whole) into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution.

- (b) A reference to a "**Regulated Entity**" in respect of any entity incorporated or established in Luxembourg, to any institution or entity referred to in points (1), (2), (3) or (4) of Article 2(1) of the BRR Act 2015, and in respect of any entity incorporated or established in Belgium, any entity referred to in Article 3, 42° of the Belgian Banking Law.
- (c) A reference to the "**Relevant Resolution Authority**" is in respect of Belgium, the National Bank of Belgium, in respect of Luxembourg, the *Commission de Surveillance du Secteur Financier*, acting in its capacity as resolution authority (*Conseil de Résolution*) within the meaning of Article 3(1) of BRRD, the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise against the Issuer of any Bail-in or Loss Absorption Power from time to time (including the European Central Bank, the Council of the European Union and the European Commission, when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

17.3 *Payment of Interest and Other Outstanding Amounts Due*

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Bail-in or Loss Absorption Power by the Relevant Resolution Authority with respect to the Issuer unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer under the laws and regulations in effect in France and the European Union applicable to the Issuer or other members of its group.

17.4 *No Event of Default*

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or another person, as a result of the exercise of the Bail-in or Loss Absorption Power by the Relevant Resolution Authority with respect to the Issuer, nor the exercise of any Bail-in or Loss Absorption Power by the Relevant Resolution Authority with respect to the Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

17.5 *Notice to Noteholders*

Upon the exercise of any Bail-in or Loss Absorption Power by the Relevant Resolution Authority with respect to the Notes, the Issuer will give notice to the Noteholders in accordance with Condition 13 (*Notices*) as soon as practicable regarding such exercise of the Bail-in or Loss Absorption Power. The Issuer will also deliver a copy of such notice to the Principal Paying Agent for information purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-in or Loss Absorption Power nor the effects on the Notes described in Condition 17.1 above.

17.6 Duties of Principal Paying Agent

Upon the exercise of any Bail-in or Loss Absorption Power by the Relevant Resolution Authority, the Issuer and each Noteholder (including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the Agency Agreement shall impose no duties upon the Principal Paying Agent whatsoever, in each case with respect to the exercise of any Bail-in or Loss Absorption Power by the Relevant Resolution Authority.

Notwithstanding the foregoing, if, following the completion of the exercise of the Bail-In Power by the Relevant Resolution Authority, any Notes remain outstanding (for example, if the exercise of the Bail-In Power results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent's duties under the Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the Issuer and the Principal Paying Agent shall agree pursuant to an amendment to the Agency Agreement.

17.7 Pro-rating

If the Relevant Resolution Authority exercises the Bail-in or Loss Absorption Power with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the Issuer or the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes pursuant to the Bail-in or Loss Absorption Power will be made on a pro-rata basis.

17.8 Conditions Exhaustive

The matters set forth in this Condition 17 shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer and any holder of a Note.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

PART 2: ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

This section sets out different economic or "payout" terms in respect of different types of Notes. These terms are optional provisions and only some of them will apply to the relevant Notes. The applicable Final Terms will specify which of the provisions apply to the relevant Notes. This section must be read in conjunction with the Note Conditions set out in Part 1 (in respect of Notes in definitive form) and, in respect of Notes in global form, with the provisions of the relevant Global Note (as described under "Summary of Provisions Relating to Global Notes and Certain Provisions with Respect to Dematerialised Notes") and, where applicable, with the Additional Terms and Conditions set out in Part 3 and/or Part 4 and/or Part 5.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

The following terms and conditions (the "**Payout Conditions**"), subject to completion in the applicable Final Terms, relate to the payouts in respect of the Notes. In particular, certain sections of the Payout Conditions will be set out and completed in the applicable Final Terms. In the event of any inconsistency between the terms and conditions of the Notes (the "**Note Conditions**") or the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (a) the Note Conditions and/or the Payout Conditions and (b) the Final Terms, the Final Terms shall prevail. The descriptions of the payouts, interest rates and/or related provisions included in italics below do not form part of the Payout Conditions, are included for information purposes only and are subject to the detailed terms of the relevant payout or interest rate, as applicable.

1. FIXED INCOME INTEREST RATES AND PAYOUTS

(a) Fixed Income Interest Rates

The following Interest Rate will apply to the Notes if specified in the applicable Final Terms:

(i) FI Digital Coupon

If FI Digital Coupon is specified as applicable in the applicable Final Terms:

- (A) if the FI Digital Coupon Condition is satisfied in respect of the relevant FI Interest Valuation Date:

$$\text{Min} \left(\text{Global Cap A}, \text{Max} \left(\text{Global Floor A}, \left(\sum_{i=1}^n \text{Gearing A}_{(i)} \times \text{FI Rate A}_{(i)} \right) + \text{Constant A} \right) \right); \text{ or}$$

- (B) if the FI Digital Coupon Condition is not satisfied in respect of the relevant FI Interest Valuation Date:

$$\text{Min} \left(\text{Global Cap B}, \text{Max} \left(\text{Global Floor B}, \left(\sum_{i=1}^n \text{Gearing B}_{(i)} \times \text{FI Rate B}_{(i)} \right) + \text{Constant B} \right) \right)$$

Description of the Payout

A FI Digital Coupon provides that the Notes bear interest at one of 2 specified rates depending upon whether or not the specified Digital Coupon Condition is satisfied. The specified rate can be (i) a fixed percentage or (ii) a fixed percentage (which may be equal to zero) plus a floating rate, where the floating rate may be the sum of one or more floating interest rates or inflation rates with individual gearings applied. The payout may be subject to a minimum level (equal to the Global Floor) or a maximum level (equal to the Global Cap). The Gearing may be zero, a negative or a positive number and the fixed percentage may be equal to zero.

The Digital Coupon Condition is indexed to the value of the Underlying Reference(s) (which may be one or more Inflation Index/Indices or one or more Underlying Interest Rates) comparative to a barrier level(s) which can be fixed or step up or down.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

(ii) Range Accrual Coupon

If Range Accrual Coupon is specified as applicable in the applicable Final Terms:

$$\text{Min} \left\{ \text{Global Cap}, \text{Max} \left(\text{Global Floor}, \text{Min} \left[\text{Local Cap}, \text{Max} \left(\text{Local Floor}, \text{Global Margin} + \sum_{i=1}^n \text{Gearing}_{(i)} \times \text{FI Rate}_{(i)} \right) \right] \times \frac{n}{N} \right) \right\}$$

Where:

"n" is the number of Range Accrual Days in the relevant Range Period on which the Range Accrual Coupon Condition is satisfied; and

"N" is the number of Range Accrual Days in the relevant Range Period.

If Deemed Range Accrual is specified as applicable in the applicable Final Terms, the FI DC Barrier Value for each Range Accrual Day in the period from (and including) the Range Cut-off Date to (and including) the Range Period End Date will be deemed to be the FI DC Barrier Value on the Range Cut-off Date.

Description of the Payout

*A Range Accrual Coupon provides that the Notes bear interest on the basis of a rate calculated by reference to the number of Range Accrual Days in the relevant Range Accrual Period where the Range Accrual Coupon Condition is satisfied. The interest payable on each Interest Payment Date is equal to $K * n/N$, where n is the number of Range Accrual Days in the Range Accrual Period on which the Range Accrual Coupon Condition is satisfied and N is the total number of Range Accrual Days in the Range Accrual Period. K can be a fixed percentage or a floating rate plus a margin (which may be zero) and is subject to a minimum level (equal to the Local Floor) or a maximum level (equal to the Local Cap). The floating rate may be the sum of one or more floating interest rates or inflation rates with individual gearings applied.*

The overall rate payable is also subject to a minimum level (equal to the Global Floor) or a maximum level (equal to the Global Cap).

The Range Accrual Coupon Condition is indexed to the value of the Underlying Reference(s) (which may be one or more Inflation Index/Indices or one or more Underlying Interest Rates) comparative to a barrier level(s) which can be fixed or step up or down.

(iii) Combination Floater Coupon

If Combination Floater is specified as applicable in the applicable Final Terms:

$$\text{Min} \left\{ \text{Global Cap}, \text{Max} \left(\text{Global Floor}, \text{Min} \left(\text{Local Cap}, \text{Max} \left(\text{Local Floor}, \text{Global Margin} + \sum_{i=1}^n \text{Gearing}_i \times \text{FI Rate}_i \right) \right) \right) \right\}$$

Description of the Payout

A Combination Floater Coupon may be any of the following (i) a fixed percentage or (ii) a floating rate plus a margin (which can be equal to zero), where the floating rate may be the sum of one or more floating interest rates or inflation rates with individual gearings applied

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

and where the sum of the floating rate and Global Margin is subject to a Local Floor and a Local Cap. The rate payable is subject to a minimum level (equal to the Global Floor) or a maximum level (equal to the Global Cap). The Gearing may be zero, negative or positive.

(iv) PRDC Coupon

If PRDC Coupon is specified as applicable in the applicable Final Terms:

(A) if Knock-in Event is specified as applicable in the applicable Final Terms:

I. if no Knock-in Event has occurred, 0 (zero); or

II. if a Knock-in Event has occurred:

Min (Cap, Max (Floor, (Coupon Percentage 1 × PRDC Performance) - Coupon Percentage 2));

(B) if Knock-in Event is not specified as applicable in the applicable Final Terms:

Min (Cap, Max (Floor, (Coupon Percentage 1 × PRDC Performance) - Coupon Percentage 2));

(C) if Knock-in Event and Knock-out Event are specified as applicable in the applicable Final Terms:

I. if a Knock-in Event has occurred but a Knock-out Event has not occurred:

Min (Cap, Max (Floor, (Coupon Percentage 1 × PRDC Performance) - Coupon Percentage 2));

II. if (a) a Knock-in Event and a Knock-out Event have occurred or (b) a Knock-out Event has occurred, 0 (zero);

Where:

"PRDC Performance" means the quotient of the Final Settlement Price (as numerator) and the Initial Settlement Price (as denominator).

Description of the Payout

If a Knock-in Event or a Knock-in Event and Knock-out Event are specified as applicable, the interest payable will vary depending on whether such event(s) have occurred.

If applicable, a Knock-in Event or Knock-out Event will occur if on a Knock-in Determination Day or Knock-out Determination Day (as applicable) or in respect of a Knock-in Determination Period or Knock-out Determination Period (as applicable) the level of the Underlying Reference (which will be a Subject Currency) when observed at the specified time(s) is greater than, greater than or equal to, less than or less than or equal to (as applicable) the level specified in or determined as provided in the applicable Final Terms or within the Knock-in Range Level or Knock-out Range Level specified.

Whether a Knock-in Event and, if applicable, a Knock-out Event has occurred will determine whether the interest rate will be zero or a percentage that is (subject to a specified minimum and/or maximum) equal to a specified percentage multiplied by the performance of the Underlying Reference over a specified period and reduced by a specified percentage.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

(v) **FI Digital Floor Coupon**

If the Notes are specified in the applicable Final Terms as being FI Digital Floor Coupon Notes:

- (A) if Knock-in Event is specified as applicable in the applicable Final Terms:
 - I. if no Knock-in Event has occurred, 0 (zero);
 - II. if a Knock-in Event has occurred and the FI Digital Floor Condition is satisfied in respect of the relevant FI Interest Valuation Date:
Digital Floor Percentage 1; or
 - III. if a Knock-in Event has occurred and the FI Digital Floor Condition is not satisfied in respect of the relevant FI Interest Valuation Date:
Digital Floor Percentage 2.
- (B) if Knock-in Event is not specified as applicable in the applicable Final Terms:

Digital Floor Percentage 2; or
- (C) if Knock-in Event and Knock-out Event are specified as applicable in the applicable Final Terms:
 - I. if no Knock-in Event has occurred, 0 (zero); or
 - II. if a Knock-in Event has occurred but a Knock-out Event has not occurred and the FI Digital Floor Condition is satisfied in respect of the relevant FI Interest Valuation Date:
Digital Floor Percentage 1; or
 - III. in all other cases:
Digital Floor Percentage 2.

Description of the Payout

If a Knock-in Event or a Knock-in Event and Knock-out Event are specified as applicable, the interest payable will vary depending on (i) whether such event(s) have occurred and (ii) whether the FI Digital Floor Condition is satisfied. If no Knock-in Event or Knock-out Event is specified, the interest payable will vary depending on whether the FI Digital Floor Condition is satisfied.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

The FI Digital Floor Condition will be satisfied if the FI Digital Value is less than or equal to the level specified or determined as provided in the applicable Final Terms. If applicable, a Knock-in Event or Knock-out Event will occur if on a Knock-in Determination Day or Knock-out Determination Day (as applicable) or in respect of a Knock-in Determination Period or Knock-out Determination Period (as applicable) the level of the Underlying Reference (which will be a Subject Currency) when observed at the specified time(s) is greater than, greater than or equal to, less than or less than or equal to (as applicable) the level specified in or determined as provided in the applicable Final Terms or within the Knock-in Range Level or Knock-out Range Level specified.

Whether (i) a Knock-in Event and, if applicable, a Knock-out Event has occurred and (ii) the FI Digital Floor Condition is satisfied will determine whether interest is payable and, if so, which specified rate will be used to calculate the interest payable.

(vi) FI Digital Cap Coupon

If the Notes are specified in the applicable Final Terms as being FI Digital Cap Coupon Notes:

- (A) if Knock-in Event is specified as applicable in the applicable Final Terms:

Digital Cap Percentage 2; or
- (B) if Knock-in Event is not specified as applicable in the applicable Final Terms:
 - I. if the FI Digital Cap Condition is satisfied in respect of the relevant FI Interest Valuation Date:
Digital Cap Percentage 1; or
 - II. if the FI Digital Cap Condition is not satisfied in respect of the relevant FI Interest Valuation Date:
Digital Cap Percentage 2; or
- (C) if Knock-in Event and Knock-out Event are specified as applicable in the applicable Final Terms:

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

Digital Cap Percentage 1; or

III. in all other cases:

Digital Cap Percentage 2.

Description of the Payout

If a Knock-in Event or a Knock-in Event and Knock-out Event are specified as applicable, the interest payable will vary depending on (i) whether such event(s) have occurred and (ii) whether the FI Digital Cap Condition is met. If no Knock-in Event or Knock-out Event is specified, the interest payable will vary depending on whether the FI Digital Cap Condition is satisfied.

The FI Digital Cap Condition will be satisfied if the FI Digital Value is greater than or equal to the level specified or determined as provided in the applicable Final Terms. If applicable, a Knock-in Event or Knock-out Event will occur if on a Knock-in Determination Day or Knock-out Determination Day (as applicable) or in respect of a Knock-in Determination Period or Knock-out Determination Period (as applicable) the level of the Underlying Reference (which will be a Subject Currency) when observed at the specified time(s) is greater than, greater than or equal to, less than or less than or equal to (as applicable) the level specified in or determined as specified in the applicable Final Terms or within the Knock-in Range Level or Knock-out Range Level specified.

Whether (i) a Knock-in Event and, if applicable, a Knock-out Event has occurred and (ii) the FI Digital Cap Condition is satisfied will determine whether interest is payable and, if so, which specified rate will be used to calculate the interest payable.

(vii) FI Target Coupon

If the Notes are specified in the applicable Final Terms as being FI Target Coupon Notes and an Automatic Early Redemption Event has not occurred, the Interest Rate in respect of the Target Final Interest Period shall be the Final Interest Rate specified in the applicable Final Terms.

Description of the Payout

If Target Automatic Early Redemption applies and an Automatic Early Redemption Event does not occur the rate of interest for the Interest Period ending on the Maturity Date will be the Final Interest Rate.

The Final Interest Rate may be

- 1. Capped only – In this case, the Final Interest Rate is the rate of interest calculated for the final interest period or, if less, the difference between the Automatic Early Redemption Percentage and the interest already paid;*
- 2. Guaranteed only - In this case, the Final Interest Rate is the rate of interest calculated for the final interest period or, if greater, the difference between the Automatic Early Redemption Percentage and the interest already paid. If no Automatic Early Redemption Event occurs, this Interest Rate provides a payment at maturity that means the overall sum of all interest paid will be at least equal to the Automatic Early Redemption Percentage;*

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

3. *Capped and guaranteed - In this case, the Final Interest Rate is the Automatic Early Redemption Percentage less previous interest paid which means that the overall interest paid will be equal to the Automatic Early Redemption Percentage;*
4. *Not capped and not guaranteed – In this case, the Final Interest Rate is the interest calculated for the relevant Interest Period.*

(viii) FI FX Vanilla Coupon

If FI FX Vanilla is specified as applicable in the applicable Final Terms:

- (A) if Knock-in Event is specified as applicable in the applicable Final Terms:

 - I. if a Knock-in Event has occurred but a Knock-out Event has not occurred:
 $\text{Gearing} \times \text{Option};$
 - II. if (a) a Knock-in Event and a Knock-out Event have occurred or (b) a Knock-out Event has occurred, 0 (zero).

Where:

"Option" means $\text{Min}(\text{Max}(\text{Performance Value}, \text{Floor}), \text{Cap})$.

Description of the Payout

If a Knock-in Event or a Knock-in Event and Knock-out Event are specified as applicable, the interest payable will vary depending on whether such event(s) have occurred.

If applicable, a Knock-in Event or Knock-out Event will occur if on a Knock-in Determination Day or Knock-out Determination Day (as applicable) or in respect of a Knock-in Determination Period or Knock-out Determination Period (as applicable) the level of the Underlying Reference (which will be a Subject Currency) when observed at the specified time(s) is greater than, greater than or equal to, less than or less than or equal to (as applicable) the level specified in or determined as provided in the applicable Final Terms or within the Knock-in Range Level or Knock-out Range Level specified.

Whether a Knock-in Event and, if applicable, a Knock-out Event has occurred will determine whether the interest rate will be zero or a percentage reflecting the product of the performance of the Underlying Reference over a specified period (which may be subject to a minimum and/or a maximum) and a gearing percentage.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

(ix) FI Digital Plus Coupon

Max (Digital Plus Percentage 1, (Gearing \times FI Digital Value)); or
 - III. in all other cases:
Digital Plus Percentage 2.

Description of the Payout

If a Knock-in Event or a Knock-in Event and Knock-out Event are specified as applicable, the interest payable will vary depending on (i) whether such event(s) have occurred and (ii) whether the FI Digital Plus Condition is satisfied. If no Knock-in Event or Knock-out Event is specified, the interest payable will vary depending on whether the FI Digital Plus Condition is satisfied.

PART 2 : ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

The FI Digital Plus Condition will be satisfied if the FI Digital Value is greater than the level specified or determined as provided in the applicable Final Terms. (ii) FI Inflation Notes

If the Notes are specified in the applicable Final Terms as being FI Inflation Notes:

Max [100%, Cumulative Inflation Rate]

- (ii) If FI Underlying Automatic Early Redemption is specified as applicable in the applicable Final Terms,

CA

The Issuer shall give notice to the Noteholders of any valid revision in accordance with Note Condition 13.
- (b) If, within 30 days of publication or at any time prior to a Determination Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Determination Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent shall (unless it is not possible using commercially

PART 3 : ADDITIONAL TERMS AND CONDITIONS FOR INFLATION INDEX-LINKED NOTES

The Issuer shall give notice to the Noteholders of any determination in respect of (i) or (ii), together with any adjustment or amount in respect thereof, in accordance with Note Condition 13.

If the Calculation Agent determines that neither (a) nor (b) above would produce a commercially reasonable result which will put the Issuer and the Noteholder in substantially the same economic position as prior to the relevant Inflation Index becoming a Rebased Index, the Issuer may redeem each Note on a date notified by the Issuer to Noteholders in accordance with Note Condition 13, at determined the Early Redemption Amount specified in the applicable Final Terms calculated by the Calculation Agent as at the Early Redemption Valuation Date taking into account the rebasing, less, unless Unwind Costs are

Rate of Interest on Floating Rate Notes or CMS-Linked Interest Notes

1. Underlying Interest Rate Determination

In respect of each Underlying Interest Rate Determination Date specified in the applicable Final Terms, the Underlying Interest Rate will be determined in the manner specified in the applicable Final Terms.

2. ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be the relevant Underlying ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any) specified in the applicable Final Terms. For the purposes of these Underlying Interest Rate-Linked Note Conditions, "**Underlying ISDA Rate**" means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms;
- (c) the Designated Maturity is a period specified in the applicable Final Terms; and
- (d) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of these Underlying Interest Rate-Linked Note Conditions, "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

3. **Screen Rate Determination**

(a) Where Screen Rate Determination is specified in the relevant Final Terms as being the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be determined by the Calculation Agent as either:

(i) the quotation; or

(ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the quotations,

(expressed as a percentage rate per annum) for the Underlying Relevant Rate(s) which appears or appear, as the case may be, on the page, section or other part of the specified information service specified in the relevant Final Terms (the "**Relevant Screen Page (Underlying)**") (or such replacement page on that service which displays the information) as at the Relevant Time (Underlying) indicated in the applicable Final Terms (the "**Screen Page Underlying Benchmark**") on the Underlying Interest Rate Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Underlying Spread (if any) and as amended by the Underlying Spread Multiplier (if any), all as determined by the Calculation Agent. If five or more of such quotations are available on the Relevant Screen Page (Underlying), the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such quotations.

(b) In the event that the Relevant Screen Page (Underlying) is not available or if, in the case of (a)(i) above, no such quotation appears on the Relevant Screen Page (Underlying) (or such replacement page on that service which displays the information) or, in the case of (a)(ii) above, fewer than three such quotations appear on the Relevant Screen Page (Underlying) (or such replacement page on that service which displays the information), in each case as at the Relevant Time (Underlying), except as provided in paragraph (c) below, the Calculation Agent will determine the Underlying Relevant Rate as the rate it determines would have prevailed but for such non-availability or other event acting in good faith and in a commercially reasonable manner.

(c) If the Calculation Agent determines at any time prior to any Underlying Interest Rate Determination Date, that the Screen Page Underlying Benchmark has been discontinued or a Benchmark Fallback Event has occurred, the Calculation Agent will use, as a substitute for the Screen Page Underlying Benchmark, an alternative reference rate determined by the Calculation Agent to be the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction or region of the currency of the relevant rate (each a "**Relevant Nominating Body**") that is consistent with industry accepted standards, provided that, if two or more alternative reference rates are selected by any Relevant Nominating Body, the Calculation Agent shall determine which of those alternative reference rates is most appropriate to preserve the economic features of the relevant Notes. If the Calculation Agent notifies the Issuer that it is unable to determine such an alternative reference rate, the Calculation Agent will as soon as reasonably practicable (and in any event before the business day prior to the applicable Underlying Interest Rate Determination Date) appoint an agent (the "**Underlying Benchmark Determination Agent**"), which will determine whether a substitute or successor rate, which is substantially comparable to the Screen Page

PART 5 : ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED NOTES

Underlying Benchmark, is available for the purpose of determining the Screen Page Underlying Benchmark on each Underlying Interest Rate Determination Date falling on or after the date of such determination. If the Underlying Benchmark Determination Agent determines that there is an industry accepted successor rate, the Underlying Benchmark Determination Agent will notify the Issuer of such successor rate to be used by the Calculation Agent to determine the Underlying Interest Rate.

If the Underlying Benchmark Determination Agent or the Calculation Agent, as applicable has determined a substitute or successor rate in accordance with the foregoing paragraph (such rate, the "**Replacement Benchmark**"), for the purpose of determining the Underlying Benchmark on each Underlying Interest Rate Determination Date falling on or after such determination:

- (i) the Underlying Benchmark Determination Agent or the Calculation Agent, as applicable, will also determine the changes (if any) required to the Underlying Interest Rate Determination Date and any method for obtaining the Replacement Benchmark, including any adjustment needed to make such Replacement Benchmark comparable to the Screen Page Underlying Benchmark (including, where applicable, and if Unwind Costs is specified as applicable in the applicable Final Terms), to reflect any increased costs to the Issuer of providing such exposure to the Replacement Benchmark, in each case acting in good faith and in a commercially reasonable manner that is consistent with industry-accepted practices for such Replacement Benchmark;
- (ii) references to the Screen Page Underlying Benchmark in these Underlying Interest Rate-Linked Note Conditions will be deemed to be references to the relevant Replacement Benchmark, including any alternative method for determining such rate as described in (i) above;
- (iii) the Underlying Benchmark Determination Agent or the Calculation Agent, as applicable, will notify the Issuer of the Replacement Benchmark, and the details described in (i) above as soon as reasonably practicable; and
- (iv) the Issuer will give notice to the Noteholders in accordance with Condition 13 (*Notices*), the Principal Paying Agent and the Calculation Agent of the Replacement Benchmark, and the details described in (i) above as soon as reasonably practicable but in any event no later than 5:00 p.m. (London time) on the business day prior to the applicable Interest Determination Date.

The determination of the Replacement Benchmark and the other matters referred to above by the Underlying Benchmark Determination Agent or the Calculation Agent, as applicable, will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Principal Paying Agent and the Noteholders, unless the Issuer, the Calculation Agent or the Underlying Benchmark Determination Agent determines at a later date that the Replacement Benchmark is no longer substantially comparable to the Underlying Benchmark or does not constitute an industry accepted successor rate, in which case the Calculation Agent shall appoint or re-appoint a Underlying Benchmark Determination Agent, as the case may be (which may or may not be the same entity as the original Underlying Benchmark Determination Agent or the Calculation Agent) for the purpose of confirming the Replacement Benchmark or determining a substitute Replacement Benchmark in an identical manner as described in this paragraph (c). If the Replacement

PART 5 : ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED NOTES

Underlying Benchmark Determination Agent or the Calculation Agent, as applicable, is unable to or otherwise does not determine a substitute Replacement Benchmark, then the Replacement Benchmark will remain unchanged.

The Underlying Benchmark Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the currency of the relevant rate as appointed by the Issuer, (y) the Issuer or (z) an affiliate of the Issuer.

If the relevant Benchmark Fallback Event may also constitute an Administrator/Benchmark Event in the determination of the Calculation Agent pursuant to Condition 5.15(b), the provisions of this Condition 4.4(b) will apply.

4. CMS-Rate Determination

Where CMS-Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be the relevant Underlying CMS Rate plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any) specified in the applicable Final Terms. For the purposes of these Underlying Interest Rate-Linked Note Conditions, "**Underlying CMS Rate**" means the Specified Swap Rate for swap transactions in the Reference Currency (CMS) with a maturity of the Designated Maturity (CMS), expressed as a percentage rate per annum, which appears on the Relevant Screen Page (CMS) as at the Relevant Time on the Underlying Interest Rate Determination Date in question, all as determined by the Calculation Agent.

If the Specified Swap Rate does not appear on the Relevant Screen Page (CMS) or if the Relevant Screen Page (CMS) is not available, then the Calculation Agent will determine the relevant Floating Rate for the relevant Underlying Interest Rate Determination Date in accordance with paragraph 2 (*ISDA Determination*) above on the basis of the Floating Rate Option, Designated Maturity and Reset Date specified in the applicable Final Terms and, if so specified in the applicable Final Terms, as if fewer than the minimum number of Underlying Reference Banks specified therein had quoted.

"**Relevant Screen Page (CMS)**" means the specified page, section or other part of the particular information service as may be specified in the applicable Final Terms, or such other page, section or other part as may replace it on that information service, in each case, as may be nominated by the person providing or sponsoring the information appearing there for the purpose of displacing rates or prices comparable to the Specified Swap Rate;

"**Relevant Time**" means the time as of which any rate is to be determined as specified in the applicable Final Terms or, if none is specified, at which it is customary to determine such rate; and

"**Specified Swap Rate**" means any of the following as specified in the applicable Final Terms: (a) the swap rate, (b) the annual swap rate, (c) the semi-annual swap rate, (d) the quarterly swap rate, (e) the quarterly-annual swap rate, or (f) the quarterly-quarterly swap rate.

The Calculation Agent will, on or as soon as practicable after each date on which the Underlying Interest Rate is to be determined (the "**Underlying Interest Rate Determination Date**"), determine the Underlying Reference Rate (subject to any Underlying Spread, Underlying Spread Multiplier,

6. Underlying Spread, Underlying Spread Multiplier, Minimum and/or Maximum Underlying Reference Rate

6.1 If any Underlying Spread or an Underlying Spread Multiplier is expressed in the relevant Final Terms, an adjustment shall be made to the Underlying Reference Rate by (a) adding or subtracting such Underlying Spread to or from, as the case may be, or (b) multiplying such Underlying Spread Multiplier by, such Underlying Reference Rate, subject always to paragraphs 6.2 and 6.3 below.

6.2 If the applicable Final Terms specifies a Minimum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Rate-Linked Note Conditions 2 or 3 above (as appropriate) is less than such Minimum Underlying Reference Rate, the Underlying Reference Rate shall be such Minimum Underlying Reference Rate.

6.3 If the applicable Final Terms specifies a Maximum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Rate-Linked Note Conditions 2 or 3 above (as appropriate) is greater than such Maximum Underlying Reference Rate, the Underlying Reference Rate shall be such Maximum Underlying Reference Rate.

7. Underlying Reference Banks

The relevant Issuer will procure that there shall at all times be four Underlying Reference Banks with offices in the Relevant Financial Centre (or, in the case of euro, in the financial centre or centres selected by the relevant Issuer). If any Underlying Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as an Underlying Reference Bank, then the Calculation Agent will appoint another Underlying Reference Bank with an office in the Relevant Financial Centre (or, in the case of euro, in the financial centre or centres in the euro-zone) to act as such in its place.

8. Knock-in Event and Knock-out Event

8.1 If "Knock-in Event" is specified as applicable in the applicable Final Terms, then any payment under the relevant Notes which is expressed in the Terms and Conditions to be subject to a Knock-in Event shall be conditional upon the occurrence of such Knock-in Event.

8.2 If "Knock-out Event" is specified as applicable in the applicable Final Terms, then any payment under the relevant Notes which is expressed in the Terms and Conditions to be subject to a Knock-out Event shall be conditional upon the occurrence of such Knock-out Event.

If the Notes are so redeemed the relevant Issuer will pay an amount to each Noteholder in respect of each Note held by him an amount equal to the Early Redemption Amount specified in the Final Terms and calculated by the Calculation Agent as at the Early Redemption Valuation Date taking into account the Additional Disruption Event and/or the Optional Additional Disruption Event, as the case may be, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to such Issuer, the Guarantor (if applicable) and/or its or their Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Note Condition 13.

If the Calculation Agent determines that an Additional Disruption Event and/or an Optional Additional Disruption Event has occurred and Delayed Redemption on the Occurrence of a Disruption Event is specified as applicable in the applicable Final Terms, the Calculation Agent shall

calculate the fair market value of each Note taking into account the Additional Disruption Event and/or the Optional Additional Disruption Event, as the case may be, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer, the Guarantor (if applicable) and/or its or their Affiliates of unwinding any underlying related hedging arrangements (the "**Disruption Event Amount**") as soon as practicable following the occurrence of the Disruption Event (the "**Disruption Event Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Disruption Event Amount plus interest accrued from and including the Disruption Event Amount Determination Date to but excluding the Maturity Date at a rate equal to the relevant Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, an amount equal to the principal amount of the relevant Note multiplied by the Principal Protected Termination Amount Percentage specified in the applicable Final Terms.

"**Government Authority**" means (i) any de facto or de jure government (or any agency, instrumentality, ministry or department thereof), (ii) any court, tribunal, administrative or other governmental, inter-governmental or supranational body, (iii) any authority or any other entity (private or public) either designated as a resolution authority or charged with the regulation or supervision of the financial markets (including a central bank) of the relevant entity or some or of all of its obligations, or (iv) any other authority which is analogous to any of the entities specified in this definition.

"**Hedging Disruption**" means that the relevant Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of such Issuer issuing and performing its obligations with respect to the Notes, or (B) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s) or any futures or options contract(s) or any relevant hedge positions relating to the Notes.

"Jurisdiction Event" means that, on or after the Trade Date, it has become impracticable, illegal or impossible for the Issuer or any of its Affiliates to purchase, sell, hold or otherwise deal (or to continue to do so in the future) in any Underlying Interest Rate or, unless "Hedging Arrangements" is specified as not applicable in the applicable Final Terms, any options or futures contracts in relation to in any Underlying Interest Rate in order for the Issuer to perform its obligations (a) under the Notes or (b) unless Hedging Arrangements is specified as not applicable in the applicable Final Terms, in respect of any relevant hedging arrangements in connection with the Notes (including, without limitation, any purchase, sale or entry into or holding of one or more securities positions, currency positions, stock loan transactions, derivatives position, commodity position or other instruments or arrangements (however described) by the Issuer and/or any of its Affiliates in order to hedge, either individually or on a portfolio basis, the Notes), or the costs of so doing would (in the determination of the Calculation Agent) be materially increased under the restriction or limitation of the existing or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority or otherwise.

"Optional Additional Disruption Event" means Increased Cost of Hedging or/and Hedging Disruption or/and Jurisdiction Event or/and Extended Change in Law, if specified as applicable in the applicable Final Terms.

**SUMMARY OF PROVISIONS RELATING TO
GLOBAL NOTES AND CERTAIN PROVISIONS
WITH RESPECT TO DEMATERIALISED NOTES**

This section sets out (i) provisions in relation to Notes represented by Global Notes which are set out on the relevant Global Note, certain of which modify the provisions set out in the Note Conditions described above and (ii) certain provisions in relation to Dematerialised Notes cleared through the NBB–SSS.

**SUMMARY OF PROVISIONS RELATING TO GLOBAL NOTES AND CERTAIN PROVISIONS WITH
RESPECT TO DEMATERIALIZED NOTES**

**SUMMARY OF PROVISIONS RELATING TO GLOBAL NOTES AND CERTAIN PROVISIONS
WITH RESPECT TO DEMATERIALIZED NOTES**

This section will apply to both Non-Exempt Notes and Exempt Notes.

Notes deposited with a common depository for Euroclear and/or Clearstream, Luxembourg

Each Series or Tranche, as the case may be, where the Notes issued in such Series or Tranche are initially in bearer form, will, unless otherwise provided in the relevant Final Terms, initially be represented by a temporary Global Note, in bearer form without Coupons, with (in the case of Notes issued by BP2F) the Guarantee of the Guarantor appended thereto. Each temporary Global Note or, as the case may be, permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms will be deposited on behalf of the subscribers of the relevant Notes (a) with a common depository (the "**Common Depository**") for Euroclear and for Clearstream, Luxembourg, or (b) with a depository for any other Relevant Clearing System, or (c) as otherwise agreed, on or about the Issue Date of the relevant Notes (as specified in the applicable Final Terms). Only in the case of Notes issued by BP2F, each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Notes with a common safekeeper for Euroclear and Clearstream, Luxembourg. Bearer Notes issued by BNPPF will not be issued in NGN form. Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any bearer Notes issued by BNPPF which are deposited with the National Bank of Belgium or any successor thereto (the "**NBB**") as operator of the NBB–SSS or its custodian, are intended to be held in a manner which would allow Eurosystem eligibility. Notes issued by BNPPF in dematerialised form will be represented by a book-entry in the records of the NBB–SSS (as defined in the Conditions) and are also intended to be held in a manner which would allow Eurosystem eligibility. Note that the designation that any Notes issued are intended to be held in a manner which would allow Eurosystem eligibility does not necessarily mean that the Notes would be recognised as eligible collateral for monetary policy of the central banking system for the euro ("**Eurosystem**") and intra day credit operations by the Eurosystem either upon issue or at any times during their life. Such recognition will depend on the European Central Bank ("**ECB**") being satisfied that the eligibility criteria for use as collateral in Eurosystem monetary operations ("**Eurosystem eligibility**") criteria have been met. The common safekeeper for NGNs will be either Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

No interest will be payable in respect of a temporary Global Note except as provided below. Upon deposit of the temporary Global Note(s) with the Common Depository, in the case of a CGN, or a common safekeeper, in the case of a NGN for Euroclear and Clearstream, Luxembourg or with a depository for any other Relevant Clearing System, Euroclear or Clearstream, Luxembourg or such other Relevant Clearing System will credit each subscriber with a principal amount of Notes equal to the principal amount thereof for which it has subscribed and paid.

For so long as any of the Notes is represented by one or more Global Note(s) and such Global Note(s) is/are held on behalf of Euroclear and/or Clearstream, Luxembourg and/or any other Relevant Clearing System, each person (other than a Relevant Clearing System which is an accountholder of any other Relevant Clearing System) who is for the time being shown in the records of such Relevant Clearing System as the holder of a particular principal amount of Notes (each a "**holder**") (in which regard, any certificate or other document issued by a relevant clearing system as to the principal amount of such Notes standing to the account of any person shall, save in the case of manifest error, be conclusive and binding for all purposes) shall be treated as the holder of that principal amount for all purposes (including but not limited to for the purposes of any quorum requirements of, or the right to demand a poll or meetings of Noteholders and giving notice to the Issuer pursuant to Condition 9 and Condition 5.6) other than with respect to the payment

SUMMARY OF PROVISIONS RELATING TO GLOBAL NOTES AND CERTAIN PROVISIONS WITH RESPECT TO DEMATERIALIZED NOTES

of principal and interest and any other amounts due in respect of the Notes, the right to which shall be vested, as against the Issuer, solely in the bearer of the relevant Global Note in accordance with and subject to its terms. The Conditions of the relevant Notes shall be construed accordingly. Each holder must look solely to the Relevant Clearing System for its share of each payment made to the bearer of the relevant Global Note, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg and such other Relevant Clearing System. Such persons shall have no claim directly against the relevant Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Note and the obligations of such Issuer will be discharged by payment to the bearer of such Global Note in respect of each amount so paid.

The temporary Global Notes and the permanent Global Notes contain provisions which apply to the Notes while they are in global form, some of which modify the effect of the other Conditions of the Notes set out in this Base Prospectus. The following is a summary of certain of those provisions:

- (a) *Exchange*: Each temporary Global Note will be exchangeable in whole or in part (i) for interests in a permanent Global Note upon (A) in the case of a CGN, presentation and (in the case of final exchange) surrender of such temporary Global Note at the specified office of the Fiscal Agent, and (B) in the case of a NGN, confirmation from the common service provider that Euroclear and Clearstream, Luxembourg have made appropriate entries in their records to reflect the relevant exchange and, in the case of final exchange of a NGN, surrender of the temporary Global Note at the specified office of the Fiscal Agent or destruction of the temporary Global Note by the common safekeeper in accordance with the Agency Agreement, or (ii) for Notes in Definitive form, in each case, with the Guarantee of the Guarantor appended to or, in the case of definitive Notes, endorsed thereon, on or after the first day following the expiry of 40 days after completion of the distribution of the relevant Tranche upon certification as to non-U.S. beneficial ownership, **provided that** Bearer Notes which are in definitive form ("**Definitive Bearer Notes**") may not be physically delivered in Belgium.

If the relevant Final Terms so provides, each permanent Global Note is exchangeable in whole or, in the case of Partly-paid Notes only, in part for Definitive Notes by the holder giving notice to the Fiscal Agent, or by the relevant Issuer giving notice to the Fiscal Agent and the Noteholders, of its intention to exchange such permanent Global Note for Definitive Notes as set out below, **provided that** Definitive Bearer Notes may not be physically delivered in Belgium.

(A) If so specified in the relevant Final Terms (i) upon not less than 60 days' prior notice being given to the Fiscal Agent by Euroclear or Clearstream, Luxembourg or any other Relevant Clearing System acting on the instructions of any holder of an interest in the relevant permanent Global Note expiring on a day on which banks are open for business in the city of the Fiscal Agent's specified office for the time being and on which Euroclear, Clearstream, Luxembourg and any other Relevant Clearing System are open for business and, in the case of Partly-paid Notes, upon satisfaction of the conditions applicable to them, or (ii) at any time at the request of the relevant Issuer or (B) if the relevant Final Terms specifies "in the limited circumstances described in the permanent Global Note", then upon the request of a holder of the permanent Global Note if either of the following events occurs: (a) if Euroclear or Clearstream, Luxembourg or any other Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 9 occurs, the bearer of such permanent Global Note, acting on the instructions of one or more holders, may give notice to the Issuer and the Fiscal Agent requesting exchange of, or the Issuer may give notice to the Fiscal Agent of its intention to exchange, at the expense of the Issuer (or as otherwise specified in the applicable Final Terms), the Permanent Global Note in whole or, in the case of Party-Paid Notes only, in part for one or more Definitive Notes (if appropriate having attached to them all Coupons and Receipts in respect of interest or Instalment Amount which have not already been paid on the permanent Global Notes and a Talon and, where applicable, with the

RESPECT TO DEMATERIALISED NOTES**

Guarantee of the Guarantor endorsed thereon) which are Bearer Notes and/or Registered Notes (if the relevant permanent Global Note is an Exchangeable Bearer Note issued by BNP Paribas Fortis Funding) of the same aggregate principal amount as the principal amount of Notes represented by the relevant permanent Global Note submitted for exchange. Any physical delivery of Definitive Notes which are Bearer Notes will be made outside Belgium. On exchange of a permanent Global Note, the Issuer will procure that it is cancelled and returned to the bearer together with the relevant Definitive Notes

- (b) *Payments*: No payment falling due more than 40 days after the completion of the distribution of any Tranche represented by a temporary Global Note will be made on that temporary Global Note unless, upon the certification, exchange for an interest in a permanent Global Note or Definitive Notes, as the case may be, is improperly withheld or refused. Payments on any temporary Global Note during the period up to 40 days after the completion of the distribution of such Tranche will only be made against certification as to non-U.S. beneficial ownership. All payments in respect of Notes represented by a Global Note will be made against presentation and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Fiscal Agent or such other Paying Agent specified in the relevant Final Terms Noteholders for such purpose. A record of each payment so made will be endorsed in the appropriate schedule to the relevant Global Note in the case of a CGN or entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg in the case of an NGN, which endorsement or records as the case may be, will be *prima facie* evidence that such payment has been made in respect of the Notes.
- (c) *Notices*: So long as Notes of any Series are represented by a Global Note notices may be given by delivery of the relevant notice to Euroclear or Clearstream, Luxembourg or any other Relevant Clearing System for communication by them to entitled holders in substitution for publication in a newspaper as provided in Condition 13.3, **provided that** for so long as the Notes of the Series in respect of which the notice is to be published are admitted to listing on the official list and to trading on the Luxembourg Stock Exchange and/or admitted to listing, trading and/or quotation by any other competent authority, stock exchange and/or quotation system, any such notice will also be published in the *Luxemburger Wort* or the website of the Luxembourg Stock Exchange (www.bourse.lu) (in the case of Notes listed on the official list and admitted to trading on the Luxembourg Stock Exchange) and/or in such other manner as may be required by the rules and regulations of such other competent authority, stock exchange and/or quotation system on which the Notes are admitted to listing, trading and/or quotation. Any such notice shall be deemed delivered on the day specified in the applicable Final Terms.
- (d) *Prescription*: Claims against the relevant Issuer in respect of principal and interest (as each is defined in the Conditions) in respect of Notes while the Notes of that Series are represented by a Global Note will be prescribed and become void after 10 years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 7).
- (e) *Purchase and Cancellation*: Notes may only be purchased by the relevant Issuer or, where applicable, the Guarantor or any of their respective subsidiaries, if they are purchased together with the right to receive all further payments of interest and any Instalment Amounts thereon. Cancellation of any Note surrendered for cancellation by the relevant Issuer following its purchase will be effected by reduction in the principal amount of the relevant permanent Global Note.
- (f) *Issuer's Option*: No selection of Notes by drawing lots will be required under Condition 5.5 in the event that the relevant Issuer exercises any option relating to the Notes while all such Notes which are outstanding are represented by a permanent Global Note. In the event that any option of the relevant Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of account holders with Euroclear and Clearstream, Luxembourg and/or any other Relevant Clearing System in respect of the Notes will be governed by the standard procedures of Euroclear and

Clearstream, Luxembourg (any redemption of the Notes in part at the option of the relevant Issuer to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion) or such other Relevant Clearing System, as the case may be.

- (g) *Noteholders' Option*: Any Noteholders' option may be exercised by any holder giving notice within the time limits specified in the Terms and Conditions to the Fiscal Agent of such exercise in accordance with the standard procedures of Euroclear and/or Clearstream, Luxembourg and/or any other Relevant Clearing System (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or such other Relevant Clearing System (or any common depositary or common safekeeper or depositary, as the case may be, for them) to the Fiscal Agent by electronic means) in a form acceptable to Euroclear and/or Clearstream, Luxembourg and/or such other Relevant Clearing System from time to time. Any such notice shall be irrevocable except where, prior to the due date for redemption, an Event of Default has occurred and is continuing or the relevant Notes otherwise become capable of being declared immediately due and payable in accordance with Condition 9, in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given as specified above and instead to declare the relevant Notes immediately repayable pursuant to Condition 9.
- (h) *Default*: As more fully described in the Global Notes, on the day notice is served by any holder upon the occurrence of an event of default, the bearer will have no further rights under the Global Note in respect of such principal amount. In such circumstances the holders shall acquire, under a deed of covenant dated on or about 5 June 2019 executed by the Issuers and the Guarantor (the "**Deed of Covenant**") against the relevant Issuer and (in the case of Notes issued by BP2F) the Guarantor, all rights which the relevant holder in question would have had if, immediately before the bearer ceased to have rights under the Global Note (or part thereof), it had been holder of Definitive Notes issued on the issue date of the Global Note in an aggregate principal amount equal to the principal amount of the Notes in respect of which such holder is shown in the records of Euroclear or Clearstream, Luxembourg or any other Relevant Clearing System.
- (i) *Partly-paid Notes (applicable to Exempt Notes only)*: The provisions relating to Partly-paid Notes will be contained in the relevant Final Terms. For so long as any instalments of the subscription moneys due from the holder of Partly-paid Notes are due, no interest in a Global Note representing such Notes may be exchanged for an interest in a permanent Global Note or for Definitive Notes (as the case may be).

Notes issued by BNPPF and clearing through the NBB–SSS (other than Dematerialised Notes)

If so provided in the relevant Final Terms, each Series or Tranche, as the case may be, issued by BNPPF, where the Notes issued in such Series or Tranche are initially in bearer form, will be represented by a permanent Global Note, in bearer form without Coupons, which will be deposited with the NBB as operator of the NBB–SSS or its custodian on or about the issue date of the relevant Notes. BNPPF has entered into a clearing agreement in respect of Bearer Notes cleared through the NBB–SSS (the "**Bearer Notes Clearing Agreement**") on or about 9 June 2017 with the NBB and the Domiciliary Agent. Upon receipt of the permanent Global Note the NBB will credit the accounts of its participants, which include Euroclear's and Clearstream, Frankfurt's account, being an Exempt Account, in the NBB–SSS with an aggregate amount equivalent to the principal amount of the permanent Global Note. Euroclear and Clearstream, Frankfurt will then credit each subscriber with a principal amount of Notes equal to the principal amount thereof for which it has subscribed and paid. Notes issued by BNPPF and deposited with the NBB and are intended to be held in a manner which would allow Eurosystem eligibility. Note that the designation that any Notes issued are intended to be held in a manner which would allow Eurosystem eligibility does not necessarily mean that the Notes would be recognised as eligible collateral for Eurosystem monetary policy and intra day credit

operations by the Eurosystem either upon issue or at any times during their life. Such recognition will depend on the ECB being satisfied that Eurosystem eligibility criteria have been met.

Ownership of beneficial interests in the permanent Global Note will be limited to persons who maintain accounts with the NBB–SSS, Euroclear and Clearstream, Frankfurt or persons who hold interests through such persons and which are Eligible Investors holding the Notes in an exempt Notes account. Certain types of Belgian investors (being those that are not eligible for holding "X-accounts"), however, may not hold their Notes through Euroclear or Clearstream, Frankfurt (save if they do so through another intermediary financial institution which is also a participant in the NBB–SSS and which will be responsible for the withholding of tax). Please refer to the section entitled "*Taxation — Belgium*" above. Ownership of beneficial interests in the permanent Global Note will be shown on, and the transfer of such interests will be effected only through, records maintained by the NBB–SSS, Euroclear and Clearstream, Frankfurt and in accordance with the applicable procedures of the NBB–SSS, Euroclear and Clearstream, Frankfurt.

Each of the persons shown in the records of the NBB–SSS, Euroclear and/or Clearstream, Frankfurt and/or any other Relevant Clearing System as being entitled to an interest in the permanent Global Note (each an "**Accountholder**") must look solely to the NBB–SSS, Euroclear and/or Clearstream, Frankfurt and/or such other Relevant Clearing System (as the case may be) for such Accountholder's share of each payment made by BNPPF to the bearer of such permanent Global Note and in relation to all other rights arising under the permanent Global Note. For so long as the Notes are represented by the permanent Global Note, Accountholders shall have no claim directly against BNPPF in respect of payments due under the Notes and such obligations of BNPPF will be discharged by payment to the bearer of the permanent Global Note.

The permanent Global Note contains provisions which apply to the Notes while in global form, some of which modify the effect of the Conditions of the Notes set out in this document. The following is a summary of certain of those provisions:

(a) *Exchange for Definitive Notes*: If the relevant Final Terms so provide, each permanent Global Note is exchangeable in whole or, in the case of Partly-paid Notes only, in part for Definitive Notes by the holder giving notice to the Domiciliary Agent, or by the Issuer giving notice to the Domiciliary Agent and the Noteholders, of its intention to exchange such permanent Global Note for Definitive Notes as set out below:

(a) If so specified in the relevant Final Terms (i) on or after any Exchange Date (as defined below) or (ii) at any time or (b) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then upon the request of the holder of the permanent Global Note if either of the following events occurs: (i) if the NBB–SSS, Euroclear or Clearstream, Frankfurt or any other Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (ii) any of the circumstances described in Condition 9 occurs, the holder of a permanent Global Note may surrender such permanent Global Note to or to the order of the Domiciliary Agent. In exchange for any permanent Global Note BNPPF will deliver, or procure the delivery of, an equal aggregate principal amount of duly executed and authenticated Definitive Notes (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts which have not already been paid on the permanent Global Note and a Talon), security printed in accordance with any applicable legal and competent authority, stock exchange or quotation system requirements and in or substantially in the form set out in Schedule 2 to the Agency Agreement. On exchange of each permanent Global Note, BNPPF will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

"Exchange Date" means a day falling not less than 60 days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office

**SUMMARY OF PROVISIONS RELATING TO GLOBAL NOTES AND CERTAIN PROVISIONS WITH
RESPECT TO DEMATERIALIZED NOTES**

of the Domiciliary Agent is located and on which the NBB–SSS, Euroclear and Clearstream, Frankfurt and any other Relevant Clearing System are open for business.

If the Issuer is prevented as a result of any legal requirements from delivering, and procuring the delivery of, Definitive Notes in exchange for temporary or permanent Global Notes as contemplated herein the Issuer will use its best efforts to put in place an alternative arrangement which provides investors with the same economic results whilst complying with such legal requirements. Any physical delivery of Definitive Notes will take place outside Belgium.

- (b) *Payments:* Payments in respect of the permanent Global Note will be made by or on behalf of the Issuer to the NBB for distribution to accountholders with the NBB–SSS (in the case of payments in euro) or to Euroclear, Clearstream, Frankfurt and the Domiciliary Agent for distribution to the respective accountholders (in the case of payments in currencies other than euro).
- (c) *Payment business day:* Subject as provided in the Conditions and the relevant Final Terms, while all the Notes are represented by the permanent Global Note and the permanent Global Note is deposited with the NBB or its custodian and cleared through the NBB–SSS, all payments in respect of the permanent Global Note will be made on a day on which the NBB–SSS is open. If payment is due on a day on which the NBB–SSS is not open, the holder shall not be entitled to payment of the amount due until the next succeeding date on which the NBB–SSS is open and shall not be entitled to any further interest or other payment in respect of any such delay.
- (d) *Meetings:* The rights of accountholders with the NBB–SSS, Euroclear, Clearstream, Frankfurt and/or any other Relevant Clearing System (together, the "**Clearing Systems**") in respect of meetings of Noteholders in relation to the Notes represented by the permanent Global Note will be governed by the standard procedures of such Relevant Clearing Systems and Belgian law. To the extent that the NBB does not attend and vote on behalf of Accountholders as instructed in accordance with the standard procedures of the Relevant Clearing Systems, Accountholders shall be entitled to attend and vote in such meetings in accordance with Belgian law and the Issuer shall recognise their entitlement accordingly. By accepting to hold the permanent Global Note, the NBB irrevocably authorises the Accountholders to act on its behalf in such circumstances.
- (e) *Issuer's Option:* In the event that any option of BNPPF is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with the NBB–SSS, Euroclear and Clearstream, Frankfurt in respect of the Notes will be governed by the standard procedures of the NBB, as the operator of the NBB–SSS, the Euroclear and Clearstream, Frankfurt or, in the absence of such procedures, accountholders shall have the same rights as though they held Definitive Notes in an aggregate principal amount equal to the principal amount of such accountholders' entry in its securities account with the Relevant Clearing System in respect of the Notes represented by the permanent Global Note.
- (f) *Noteholders' Option:* Any option of the Noteholders provided for in the Terms and Conditions may be exercised by accountholders directly as though they held Definitive Notes in an aggregate principal amount equal to the principal amount of such Accountholders' entry in its securities account with the Relevant Clearing System in respect of the Notes represented by the permanent Global Note.
- (g) *Default:* As more fully described in the permanent Global Notes, on the seventh day after notice is served by the person or persons shown in the records of the NBB–SSS, Euroclear or Clearstream, Frankfurt or any other Relevant Clearing System as the holder or holders of the Notes in respect of which notice is served (the "**Relevant Accountholder**") upon the occurrence of an event of default, the bearer will have no further rights under the Global Note in whole or part. In such circumstances the Relevant Accountholder(s) shall acquire, under the Deed of Covenant against BNPPF all rights

SUMMARY OF PROVISIONS RELATING TO GLOBAL NOTES AND CERTAIN PROVISIONS WITH RESPECT TO DEMATERIALIZED NOTES

which the Relevant Accountholder in question would have had if immediately before the bearer ceased to have rights under the Global Note (or part thereof), it had been holder of Definitive Notes issued on the issue date of the permanent Global Note in an aggregate principal amount equal to the principal amount of the Notes in respect of which such Relevant Accountholder is shown in the records of the NBB–SSS, Euroclear or Clearstream, Frankfurt or any other Relevant Clearing System.

- (h) *Partly-paid Notes*: In relation to Exempt Notes only, the provisions relating to Partly-paid Notes will be contained in the relevant Final Terms. For so long as any instalments of the subscription moneys due from the holder of Partly-paid Notes are due, no interest in a permanent Global Note representing such Notes may be exchanged for Definitive Notes.

Dematerialised Notes issued by BNPPF and clearing through the NBB–SSS

If so provided in the relevant Final Terms, each Series or Tranche, as the case may be, issued by BNPPF, may be represented by Dematerialised Notes which will be admitted to the NBB–SSS on the issue date of the relevant Notes. Upon the issue of the Dematerialised Notes the NBB will credit the accounts of its participants, which include Euroclear's and Clearstream, Frankfurt's account, being an Exempt Account, in the NBB–SSS with an aggregate amount equivalent to the principal amount of the Dematerialised Notes to be issued. Euroclear and Clearstream, Frankfurt will then credit each subscriber with a principal amount of Notes equal to the principal amount thereof for which it has subscribed and paid. Notes issued by BNPPF in dematerialised form will be represented by a book-entry in the records of the NBB–SSS and are intended to be held in a manner which would allow Eurosystem eligibility. Note that the designation that any Notes issued are intended to be held in a manner which would allow Eurosystem eligibility does not necessarily mean that the Notes would be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any times during their life. Such recognition will depend on the ECB being satisfied that Eurosystem eligibility criteria have been met.

However, certain types of Belgian investors (being those that are not eligible for holding "X-accounts") may not hold their Notes through Euroclear or Clearstream, Frankfurt (save if they do so through another intermediary financial institution which is also a participant in the NBB–SSS and which will be responsible for the withholding of tax). Please refer to the section entitled "Taxation — *Belgium*" above. Interests in the Dematerialised Notes will only be represented by book entries in the NBB–SSS and the transfer of such interests will be effected only through, records maintained by the NBB–SSS, Euroclear and Clearstream, Frankfurt and in accordance with the applicable procedures of the NBB–SSS, Euroclear and Clearstream, Frankfurt.

[PRIIPs REGULATION – PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of [Directive 2014/65/EU (as amended, "MiFID II)]; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, "IMD"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared [and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation].²

[PROHIBITION OF SALES TO BELGIAN CONSUMERS – The Notes may not be advertised to any individual in Belgium qualifying as a consumer within the meaning of Article I.1 of the Belgian Code of Economic Law, as amended from time to time (a "Belgian Consumer") and the Notes may not be offered, sold or resold, transferred or delivered, and no prospectus, memorandum, information circular, brochure or any similar documents in relation to the Notes may be distributed, directly or indirectly, to any Belgian Consumer.]³

[MIFID II product governance / [Professional investors and ECPs only target market][Retail investors, professional investors and ECPs target market] – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories in item 18 of the Guidelines published by ESMA on 5 February 2018 (as updated from time to

¹ Include in respect of the public offering of a Tranche of Notes for which the offer period spans the update of the Base Prospectus.

² Include if "Prohibition of Sales to EEA Retail Investors" is specified as applicable.

³ Include in respect of an offer of Notes if Belgium is one of the relevant jurisdictions in which the Notes will be offered, unless relevant elections are made in the Final Terms to comply with Belgian consumer protection rules. Please note that for the purposes of the Belgian consumer protection regulations, a consumer is a natural person habitually resident in Belgium and acting for purposes which are outside his/her trade, business or profession. This means that the consumer concept is not identical to the retail investor concept under MiFID II.

[*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. The target market assessment is valid for the Offer Period only.]⁴

(The following alternative language applies if the first tranche of an issue which is being increased was issued under a Base Prospectus with an earlier date. N.B. when using a post – 1 July 2012 approved Base Prospectus to tap a previous issue under a previously approved Base Prospectus, the final terms in the post – 1 July 2012 Base Prospectus may (and will, if the previous issue was completed under a pre-1 July 2012 Base Prospectus) take a different form to the final terms used for the original issue being tapped. The Terms and Conditions of the original issue being tapped should be reviewed to ensure that they would not require the final terms documenting the further issue to include information which is no longer permitted in final terms. Where the final terms documenting the further issue would need to include such information, it will not be possible to tap using final terms and a drawdown prospectus (incorporating the original Conditions and final terms) will instead need to be prepared.)

PART A – CONTRACTUAL TERMS

[PRIIPs REGULATION – PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of [Directive 2014/65/EU (as amended, "**MiFID II**")]; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, "**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "**Prospectus Directive**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared [and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation].]¹

[PROHIBITION OF SALES TO BELGIAN CONSUMERS – The Notes may not be advertised to any individual in Belgium qualifying as a consumer within the meaning of Article I.1 of the Belgian Code of Economic Law, as amended from time to time (a "**Belgian Consumer**") and the Notes may not be offered, sold or resold, transferred or delivered, and no prospectus, memorandum, information circular, brochure or any similar documents in relation to the Notes may be distributed, directly or indirectly, to any Belgian Consumer.]²

¹ Include if "Prohibition of Sales to EEA Retail Investors" is specified as applicable.

² Include in respect of an offer of Notes if Belgium is of the relevant jurisdictions in which the Notes will be offered, unless relevant elections are made in the Pricing Supplement to comply with Belgian consumer protection rules. Please note that for the purposes of the Belgian consumer protection regulations, a consumer is a natural person habitually resident in Belgium and acting for the purposes which are outside his/her trade, business or profession. This means that the consumer concept is not identical to the retail investor concept under MiFID II.

¹⁹ Whilst technically not a requirement for admission to trading, market operators are required to provide CFI and FISN codes to competent authorities/ESMA as part of their reference data/financial instrument reporting under various pieces of legislation (such as MiFIR and MAR) and it is likely that stock exchanges will request these when the Pricing Supplement is filed with them to admit a tranche of securities to market. "Not Applicable" should be specified where the Pricing Supplement relates to unlisted Notes or is not otherwise required and the "Not Available" option has been inserted as CFI and FISN codes may not always be available. The reference to the ANNA website (without the actual code) may be relevant if the parties are not sure that the code is correct or if a code has not been requested.
